LARGEST STOCK IN CANADA. Factory, 54 Yonge-street,

Toronto Electric Light Co. Introduction of a New and Perfect System of Incandescent Electric Lighting.

RECOGNIZING the prejudice that has arisen against systems of Electric Lighting which employ currents of extremely high tension (not that they are in themselves unlesirable, but that the public mind is kept in a state of acitation against them by interested exponents of low-tension systems), the electricians of the old Toronto Electric Light Co. set themselves to work to devise a system Co. set themselves to work to devise a system which should be less cumbersome and costly han the straight meandescent, and at the ame time free from the objections which may be ured against the high-tension, alternating led entirely without danger, and the use mpensating devices in the converters, we mabled to supply to the consumer lamps ring an electro-motive force of only-five volts, or less than half that red by the Edison system. As the s require to be but half the resistance, allow over double the current to passigh them, and consequently produce a trand steadier light. This system will nown hereafter as the

Low Tension Alternating Compensator System of the To-

ronto Electric Light Co. sing an initial tension of between three and ur hundred volts, which is not in the slighttdegree dangerous to handle, but which, sfore reaching the presumese of the consumer, reduced to a pressure of forty-five volts, a mision which could not be perceived by the lost sensitive. Apparatus now being constructed will out in operation in a week or two. In the neantime it would be wise for intending contenting the state of the s

CRAND TRUNK RY.
