day over their private whe from w. W. M. Goodmick & Co. of Chicago: The wheat market for the
week winds up with the loss of a portion of the
late advance. Cables indicate that foreign markets are beginning to feel the bear talk sent from
this side, and foreign operators have been fair
sellers in American markets for the past two
days. Paris and Berlin send lower quotations,
but it is difficult to decide whether this is a natural
effect or coming from the financial troubles in
France. Our home position, in view of the beautiful weather and excellent crop prospects, is not
bullish, so far as the new crop is concerned, but if
foreign markets are fairly well sustained we still
incline to the bull side of the present crop. Receipts at primary points amount to 373,000 to-day
and are somewhat startling, indicating as they
do a possible increase of from 500,000 to 700,000
bushels in the visible Monday. To-day's market
has been fairly active, although trading has not
been in large amounts and has been mostly for
local account. Both corn and oats have been
weaker and the trading featureless. Our western
correspondents continue to predict an improvement in receipts and say that there is plenty of
corn yet back in the country. Receipts are fairly
good and our cash market shows to-day's decided dulness. We cannot advise taking the buil
side on corn at present. We feel equally timid
about that side in oats. An enormous trade has
been transacted in provisions to-day. Longs
who had bought in the neighborhood of \$10 for
May pork were busy taking their profits to-day.
The buying was done by local commission houses,
and their heaviest orders were said to come from
two of our most prominent packers who have
heretofore been bears. Receipts of hogs continue
large, being estimated at 50,000 for Monday and
22,000 for next week. The close of the market
was steady, but we are iriclined to think that the
heavy realizing of the past two days will give us
a little further decline.

BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocca. Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a week point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
