—MAKING THEM BY THE THOUSANDS—

—SCENES IN THE MANUFACTORY.

It is quite within modern times that, by observation and experience, the knowledge has been acquired for a comprehensive and philosophical conception of the importance of industry as a necessary condition in the evolution of human society.

Approaching the basement door into which these men disappeared like crumpled shadows, the reporter with faculties strained to the utmost, heard a clatter of chopping and pounding, mingled with the rattle of tin pans and boxes, and all proceeding from this apparent hole in the wall.

Well, yer see, a pie is a kind of delicate thing, and has got to be handled carefully to keep them flakey, sir.

What kind of pies are most in demand? "Well, now we're running heavy on apple, but 'bout Christmas and New Year's mince and cranberries takes the permission.

Now we're running heavy on apple, but 'bout Christmas and New Year's mince and cranberries takes the permission. To-day I take 300 apples, 100 mince, and 100 cranberries.

reporter said, "Americans are the pie-eaters of the world, are they not?"

"Ay, friend, pie and liberty travel the road of destiny hand in hand. This is an immutable business, sir. Cheap pies sometimes bursts us a little, but only a trifle. Now we're running heavy on pumpkins, but for a good, regular staple, apples are the best 'stead."

"Good, my boy. There is only the best goes into these pies. Only the best flour will make pie crusts. Here, help yourself, and see what I mean."

"How many people do you employ here?" "Forty hands and thirty horses."

"Are you well posted in the history of mince pies?" "Yes, they were brought here from Holland by the Dutch. It's exclusively a Dutch fruit."

"Do you know how long the practice of making them has been in vogue?" "Never once thought of that, lassie, yer 'boutage does not affect me in the least; the older the better. They are now entirely an American institution. Come in on pumpkin day. Good night."—N. J. Wilson.

THE SPRING OUTLOOK.

The United States Economist and Dry Goods Reporter of this city discovers, since the first of January, encouraging business prospects for the future.

BRIBED BY A KISS.

A temperance lecturer who has been at work in the towns up the Hudson River has been giving a reporter of the Kingston Courier a page from his early experience in Michigan.

Previous to his arrival in a small town where he intended to do some work, the boys had agreed among themselves to go to the meeting, but not to sign the pledge.

He appeared in vain for recruits in the temperance cause. Not a man would move.

"At this stage of the proceeding the belle of the town sprang to her feet and cried out: 'Boys, this is really too bad. Won't you sign the pledge? Not a soul moved from his seat. Again the fair belle appealed to the men for better nature, but it was of no avail; they had promised they wouldn't sign. Finally the lady said: 'Boys, I'll kiss the first man who signs the pledge.' At this juncture up jumped a tall backwoodsman, and drawlingly exclaimed: 'Siss, I'm yer luckyberry. What's yer pledge?' The brave girl kissed the fellow, and the cheering which followed made the building rattle. This incident broke the ice, and before the reformer had left the town nearly every one had donned the ribbon.

Vegetine is Sold by all Druggists.

Ayer's Cathartic Pills.

For all the purposes of Family Physic, and for curing Constipation, Jaundice, Indigestion, Biliousness, Headache, Rheumatism, Eruptions and Skin Diseases, Worms, Nausea, and a Dinner Pill, for Purging the Blood.

It is the most effective and congenial purgative ever discovered. They are mild, but effectual in their action, and they do not irritate the bowels, and without pain.

Although gentle in their operation, they are still the most thorough and searching cathartic that can be employed; cleanses the stomach and bowels, and even the blood.

In small doses of one pill a day, they stimulate the digestive organs and promote vigorous health.

Ayer's Pills have been known for more than a quarter of a century, and have obtained a world-wide reputation for their beneficial effects. They are, at the same time, the safest and best physic for children. By their aperient action they grip much less than the common purgatives, and never irritate the bowels, as do not inflamed.

They reach the vital fountains of the blood, and strengthen the system by freeing it from the elements of weakness.

In all climates, containing neither calomel nor any deleterious drug, these Pills may be taken with safety by anybody. Their sugar-coating preserves them ever fresh, and makes them pleasant to take; while, being purely vegetable, no harm can arise from their use in any quantity.

THE REVOLUTIONARY GOVERNMENT IN RUSSIA.

Those are not rightly informed who think that the revolutionary movement now going on in Russia is the work of one party or of a secret society of any kind. It is the work of all intelligent Russian citizens, to whatever class of society they may belong, who are tired of the yoke Russia has borne for so many centuries, and who consider political liberty and the downfall of autocracy the necessary condition of all further progress of the Russian people.

The name of this party, if it still may be called a party, is—Legion It is everywhere and nowhere. Representatives of the noblest families of the empire, professional men of every description, government officials and even priests, school-teachers, and army officers—all are to be found in the ranks of this great 'army of the discontented.' The powerful machinery of Russian bureaucracy has long ago been undermined by this spirit of discontent, and every where, 'Mary Marie' is a name of the day.

The 'army of the discontented' is not a new thing, but a name of the day. It is the name of the 'army of the discontented' which has been the cause of the downfall of the Russian Empire.
