the wax bought up which is available, and we fear that our supply is going to be short of our wants, especially if orders come in the way they have been the past week or two. We have been very much delayed through the sickness of the foreman of our tin shop, but we have a full force working at the present writing, and we hope soon to catch up. With the exception of one or two neucles, and a half dozen queens all orders for bees and queens are gone forward.

We have now a supply of Roots A. B. C. (latest edition) and all orders can be filled promptly.

There are perhaps forty or fifty smokers to go to members of the O. B. K. A. yet. Some of the names we have had for two or three weeks. The stoppage, or rather the retarding, of work in the tin shop, has caused the delay. They will all be sent out before this issue of the JOURNAL reaches its readers.

We have perhaps a dozen ripening tanks—full size—which have been used one season, and are just as good as new, excepting the bright fresh look of new tinware. We will sell these while they last at \$3.50 each. The price is \$4.50. When ordering be sure to mention that it is one of the "job lot" you want, and state the price, to prevent mistakes.

\*,\* If you require catalogues, circulars, note heads, envelopes, or anything in the line of job printing give us an opportunity of estimating.

#### CLUBBING LIST.
