

SHORT'S

STEEL BARB WIRE

is adopted by railroads, stock raisers and farmers on account of its SUPERIOR STYLE OF BARB which passes between the two wires, then wound around both, and afterwards galvanized by a PATENT PROCESS, which prevents the barbs from rusting, and consequently when an animal is punctured it will heal quickly, and not fester as is the case with rusty and ragged barbs.

SHORT'S STEEL BARB WIRE.

Manufactured by THE ONTARIO METALLIC SPINNING CO., WOODSTOCK, ONT.

Ayer's Hair Vigor,

FOR RESTORING GRAY HAIR To its Natural Vigor and Colour.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all tend to cause the hair to become thin and fall out. Ayer's Hair Vigor restores the hair to its natural color and texture. It is a safe and reliable preparation, and is used by millions of people. It is a sure and safe remedy for all cases of itching humors, and keeps the scalp cool, clean and soft. It is a dressing for ladies' hair, and is highly valued for its graceful and agreeable perfume, and for its soft luster and richness of tone it imparts.

JUST PUBLISHED.

DOCTRINES OF THE PLYMOUTH BRETHREN.

By Rev. Professor C. C. Moore, M.A., Magee College, London, Ontario.

A comprehensive and very complete exposition in short space of the Errors of Plymouthism. Mailed to any address, postage prepaid, on receipt of price. Wherever Plymouthism is trying to get a foot-hold within the bounds of Presbyterian congregations, parties would do well to circulate copies of this pamphlet. In quantities, \$8 per 100.

CINGALESE HAIR REJEWER

is without doubt THE BEST PREPARATION FOR THE HAIR. It has been prepared by the Cingalese, for restoring to its natural color and texture, and for stopping the falling of the hair, and curing dandruff, it cools the scalp, it restores gray hair to its original color and beauty. Its continued use, by those with bald heads, will produce a beautiful new head of hair. Every one recommends it. For sale by all druggists. Price 50c.

SUBSTITUTES!

The public are cautioned against a custom which is growing quite common of late among a certain class of medicine dealers, and which is this: When asked for a bottle of Pain-Killer, they suddenly discover that they are "sold out," "but have another article just as good, if not better," which they will supply at the same price. The object of this deception is transparent. These substitutes are made up to sell on the great reputation of the Pain-Killer; and being compounded of the vilest and cheapest drugs, are bought by the dealer at about half what he pays for the genuine Pain-Killer, which enables him therefore to realize a few cents more profit per bottle upon the imitation article than he can on the genuine.

FRESHLY PREPARED MORBUS, CRAMPS, AND ALL SUMMER OR BOWEL COMPLAINTS PERRY DAVIS' PAIN-KILLER IS UNEQUALLED. IT CURES ALMOST INSTANTLY.

The PAIN KILLER is put up in 1 or, and 3 oz. bottles, retailing at 25 and 50 cents respectively.—large bottles are therefore cheapest.

BOLD BY ALL MEDICINE DEALERS.

Grand Medal at the Philadelphia Exposition. VASELINE Silver Medal at the Paris Exposition.

It cures all debility arising from disordered Kidneys, Liver, Blood, and is the best purifier of the Blood in the world. All medicine dealers supply. Sample bottle at 10 cents. Regular size \$1.00.

Scientific and Useful.

GERMAN Egg-Soup.—Beat up the yolk of an egg in a pint of water, put in a little butter, with two or three lumps of sugar, put it over the fire, and stir until it begins to boil, then pour it backwards and forwards from the saucepan to the basin until it is smooth and has gained a froth. This is considered good for a cold.

POTATO PUFF.—Boil the potatoes in salted water, drain off the water and dry them a few minutes, then mash them perfectly smooth. To a pint of mashed potato put two tablespoonfuls of melted butter, and beat with a large fork until the whole is light and creamy; add the yolks of two eggs, a cupful of rich milk, and lastly the whites of two eggs cut to a froth. Beat each ingredient in before adding the next; put in more salt if needed, and pour the mixture into a buttered baking dish. Bake in a quick oven until the surface is nicely browned. The success of this dish depends on the faithfulness with which it is beaten.

PLUM PUDDING.—Put into a bowl one cupful each of flour, breadcrumbs grated, chopped beef suet, raisins picked and stoned, currants and sugar. One candied lemon or orange, a little mixed spice, a little salt and a good grate of ginger; beat four eggs, make a hole in your ingredients to the bottom of the bowl, stir in the eggs smoothly, beat well; then add milk enough to make it into a consistency sufficiently thick to allow of the pudding spoon standing upright, which is the criterion of the quantity of milk to be used; add a wineglass of brandy, butter a large bowl and steam three hours one day, and two when wanted. For boiling, three hours and a half will do. A heaping teaspoonful of Cook's Friend must be mixed in the flour.

WHY BEES WORK IN THE DARK.—Every one knows what fresh honey is—a clear, yellow syrup, without any trace of solid sugar in it. After straining, it gradually assumes a crystal appearance—it candies, as the saying is, and ultimately becomes a solid mass of sugar. It has been suspected that this change has been due to photographic action, the same agent which alters the molecular arrangement of the iodine of silver on the excited collodion plate, and determines the formation of camphor and iodine crystals in a bottle, causing honey to assume a crystalline form. Mr. Scheiter inclosed honey in well-corked flasks, some of which he kept in perfect darkness, while the others were exposed to light. The result has been that the portion exposed to the light soon crystallizes, while that kept in the dark remains unchanged. Hence, we see why the bees are so careful to obscure the glass windows which are sometimes placed in their hives. The existence of the young depends on the liquidity of the saccharine food presented to them, and if light were allowed access to this, in all probability it would prove fatal to the inmates of the hive.

HAGYARD'S Yellow Oil is a perfect panacea curing by external and internal use all inflammation, pain, and soreness; Rheumatism, Stiff Joints, Dropsy, Colds, Kidney complaints, Burns, Frost Bites, and Flesh Wounds of every variety. For sale by all dealers.

MEDICAL USE OF EGGS.—For burns or scalds nothing is more soothing than the white of an egg, which may be poured over the wound. It is softer as a varnish for a burn than collodion, and being always at hand can be applied immediately. It is also more cooling than the "sweet oil and cotton" which was formerly supposed to be the surest application to allay the smarting pain. It is the contact with air which gives the extreme discomfort experienced from ordinary accidents of this kind; and anything which excludes air prevents inflammation is the thing to be at once applied. The egg is also considered one of the best remedies for dysentery. Beaten up slightly, with or without sugar, and swallowed at a gulp, it tends by its emollient qualities to lessen the inflammation of the stomach and intestines, and by forming a transient coating on those organs to enable nature to resume her healthful way over the diseased body. Two, or at most, three eggs per day, would be all that is required in ordinary cases; and since the egg is not merely medicine, but food as well, the lighter the diet otherwise, and the quieter the patient is kept, the more certain and rapid is the recovery.

TO PUBLIC SPEAKERS.—Public speakers and singers who wish to possess a clear voice, freedom from hoarseness, and sore throat should use Hagyard's Vocal Balm, a safe, pleasant and certain remedy for the throat and lungs; it speedily breaks up cold and cures all pulmonary complaints, that is often led to consumptive consumption.
