It is the most healthful and safest of all cosmetics, containing no deleterious ingredients, being prepared solely from the rich floral perfumes of nature, unadulterated by any foreign substance whatever, is suited for use by the blonde and brunette alike, imparting that beautiful, clear softness to the skin so much admired in the fair sex. Murray & Lanman's Flerida Water is really the most delightful and efficacious of toilet waters, every thing entering into its composi-tion being of the finest quality, and so combined as to secure their best effects. It never changes nor alters, keeping fer any length of time, and in any climate, as delicate and fresh as at the moment of its preparation. It is also very extensively used as a

It neutralizes the minute particles of food lodging in the mouth, and which are the prolific cause of decayed teeth, bad breadth, and unhealthy, white looking gums. Moreover, by the use of Murray & Lanman's Florida Water the breath is made sweet and pleasant, and the teeth white without any danger of injuring the enamel, a difficulty existing with nearly all the mouth lotions and powders for the teeth. ## VEGETABLE MEDICINES.

By a species of instinctive feeling, the people of nearly all countries are greatly averse to those medicinal preparations which contain mineral substances amongst their ingredients. And yet, if the question was asked why they objected to this class of medicines, we presume few could give an intelligent answer

Nevertheless, the aversion is well founded. All mineral substances, when taken into the stomach, are cumulative in their nature—that is to say, they remain either partly or wholly in the system and accumulate with each additional dose, until in many cases the result is death. For example, arsenic, although known to be a deadly poison, yet in certain parts of Switzerland is extensively used by the mountain guides as a means of giving them, vulgarly speaking 'long wind.' But although it is thus beneficial for a time, the ultimate result is always

It therefore becomes evident that the popular dislike to mineral medicines is well founded, and it is doubtless in a great measure to the entire absence of any mineral substance that the wonderful success of

in this country is to be ascribed. It is prepared from the best quality of the Sarsaparilla Root, with which are combined other cleansing, purifying, and healing roots, backs, leaves, and balsomic gums-the whole, without doubt, making the best depurative and most valuable medicine known to the faculty.-The preparation of this great remedy is carried on under the personal supervision of the most scientific chemists and pharmaceutists, and none but the choic st ingredients are ever allowed to enter into its composition. The result is, that its action is always uniform and reliable. Its effects upon the
