ABBIVAL OF THE BABQUE THEBESE AT QUEEEO -THE STORIES OF THE SAILORS-THE BLANE THOUGHT TO BEET ON CHIEF OFFICHE THOMPSON.

QUEBRO, May 11 .- The balance of the survivors of the steamship State of Florida disaster were landed here to-night by order of the marine and fisheries department from the barque Therese, which arrived up under sail late last evening, and another of the upper ballast ground. Their names are as fol-lows:-James Thompson, chief officer; Thomas Balr, boatswin; John Smith, boat swain's mate; Peter Patterson, carpenter; Henry Anderson, lamp trimmer ; John Silverblade, quartermaster; John Miller, quartermaster; John Smith, able seaman ; Charles Love, able seaman; George Atmour, able seaman; John Bsard, bostsman's yeoman; Wm Lawson, able seaman; Wm Hislop, second engineer; Edward Bogle, fireman John McDowell, fireman; Jane McFarlane, stewardess; Hugh Morgan, steerage passenger ; Peter J. Benning, steerage passenger ; Martin Peterson, steerage passenger ; Francis Watson, steerage passenger-total 20. All aro well and hearty. Mr. Cleary, the New York agent of the State Line, is understood to have boarded the barque on its arrival. He took charge of the surviving officers and lodged them in a comfortable hotel. He did the same for the four steerage passengers. Ohter officer Thompson appeared much worn and dejected. The party were called upon, but refused to speak of the accident at all. The seamen were taken to the river police station and their names duly registered. They were less reticent than the officers, but were unable to throw any light upon the cause of the disaster. They appear to have endured some hardships on board the Therese, which, of course, had not accommodation for so large a ship's company. To night they were billeted out to different boarding houses. Some of them seen at suppor declared it was the first square meal they had had for over a fortnight. Those saved from the barque are Capt. Heyburn, of Liverpool, Angelo Bosa and Thomas Nicholson. These are the names registered at the shipping cflice. The names of those lost by the barque cannot be ascertained to night. The Ponema was in ballast from Liverpool to Miramichi and was a barque of 749 tons. The only informaline having secured control of the officers before they could be reached by newspaper men in order to prevent their being interviewed in his absence. The sailors having mostly been in bed at the time of the accident, their story does not amount to much, but they seem to have an impression that, somehow or other, Thomson is to blame for the collision. Before the three survivors of the their boat from cold and exhaustion. Capt. Heyburn went to a hotel in company with the officers of the Florida. He has lost every. thing and is destitute. One of his men, who is saved, Nicholson, was on the lookout at the time of the collision, and distinctly ascribes the fault to the steamship. The survivors who arrived to-day all speak favorably of the third officer, Allan, as did those

who arrived here by the Titania. Both Allan and Dr. Steele, of the ill-fated steamship, who arrived here by the Titania and went to Montreal, returned here to-day with Mr. Oleary. All who were seen to-night from the Therese agree that the Olty of Rome relused assistance to them as previously reported. She was so near that it was impossible not to have seen and understood the signals.

The stories told by the survivors on board

nation of the Casr Alexander showing that the Emperor had proposed such a measure before Dr. Windthorst. Bussia and Austria were in favor of an international conference. France made her decision dependent upon the action which England should take. England rejected the proposal, and Austria afterward withdrew her assent. The negotiations were now confined to Germany and Russia. The government could not make the law more lenient than it already was, but they hoped through social reform to give the workmen their due-namely, work so long as they were able to labor, and support when they were unable to toil longer. Parliamentary obstruction simply impeded the government. If the bill should be rejected the government would discuss it with another parliament. If enother parliament should likewise reject the bill the government would be exonerated of all responsibility and could regard the further development of social democracy with a

quiet conscience.

THE FBANCO-CHINESE TREATY. LONDON, May 12 .- The Pall Mall Gazette says the Franco-Ohinese treaty of peace cedes to France more than she ever claimed. A Paris despatch announces that the signing of the treaty of peace has been copfirmed. It is stipulated in one clause that Ohina shall at once withdraw her troops from Tonquin. The treaty had already been ratified in Pesin before the signatures were affixed. After the signing of the treaty Li Hung Chang gave a grand banquet in honor of Fournier, the French representative.

### THE EGYPTIAN MUDDLE.

LONDON, May 12 .- It is reported that an African expedition under Joseph Thompson has reached Ugands, and it is believed its presence there will increase Gordon's chances for safety in case he shall be compelled to try to escape from Khartoum by going southjured during the Asia campaign, permits. The situation at Dongola is alarming. The inhabitants are in a state of panlo. There is only a small force of troops there. Fuller, of Hamilton, Ont., including calves, realized \$24,000. Five head brought the highest average ever made by any Jersey breeder in an auction sale, and in consequence Mr. Fuller takes to Canada the obampionship cup awarded to the breeder who obtains the largest average on his consignment. Mr. G. Smith, of Grimsby, Ont., bought Miss Stoke Pogis, 28,385, for Penema were picked up, one of their com-panions, a seaman of the barque, had died in bought by Mr. E. M. #### THREE OLD PERSONS-100, 103, 106. A MAN WHOSE DAUGHTER 1385.

RUSHFORD, N. Y., May 6 .- MIS. W. A. Davis, of this place, has just celebrated her one hundredth birthday. Five generations of her descendants were present. Mrs Zanobis Cooley, of Peoris, Wyoming county, is in her 103rd year. She has lived for seventy years on the farm she now occupies. Both of these venerable ladies enjoy excellent health, both physically and mentally.

Probably the most remarkable case of longevity in the State is that of Michael Grapus, who lives with his son-in-law, George Muer, in Bochester. Mr. Granus is in his 106th year. He was born in Quebec in January,

hundreds of thousands of his older enterprising readers who have preceded him to the West. The number before us gives evidence of the vigor and experience he brings to his new field of work. All who want specimens of the paper as it is, and is to be, and to enjoy its advantages, can have The Prairie Farmer, weekly, from May 1st, up to 1885, by sending a single dollar to Prairie Farmer Publishing Company, 150 Monros St., Chicago, 111.

-Dr. S. B. Britian says: "As a rule phy sicians do not by their professional methods build up the female constitution, and they seldom cure the diseases to which it is always liable in our variable climate and under our imperfect civilization. Special remedies are often required to restore organic harmony and to strengthen the enfeebled powers of womanhood, and for most of these we are indebted to persons outside of the medical profession. Among the very best of these remedies I assign a prominent place to Mrs. Pinkham's Vegetable Compound. 113-mwf

# WEEKLY BEVIEW - WHOLESALE

MABKETS. As we noted last week, the trade of the city presents a more promising appearance. This is in part due to the resuscitation of the shipping trade, and in part to the improvement in remittances from the country dirtricts. The winter wheat crop in contrast to its deplorable condition at this date last year owing to late frosts, is reported to be looking remarkably fine in all districts. The importance of this is apparent, as the failure or partial failure of the crops of Oanada means far greater disaster than the temporary wreck of any industry, even that of lumber. This was not the case some years ago, but it is now. We notice that Ottawa is doing a good trade in its particular line, considerable wood shipments passing through Montreal by water to the States.

They also testify to the activity displayed by Younger, the second officer of the steamship, who is amongst the lost, in getting out the boats. The life-boat of the Ponema, in which the captain and two of his men were picked up, was brought up by the resouring buque.

#### THE HAMILTON MUBDER CASE.

HAMILTON, Ont., May 7 .- The case of Timothy Depew, the sallor, who was charged with assault and robbery of Wm. McGregor, a Grand Trunk engineer, on the night of the 29th August, 1881, has created great interest at the assizes now going on here. McGregor was found on the morning of the 30th August, 1881, dead on the track of the Hamilton & North Western Bailway, his watch and valuables being gone. Denew and another sailor named and another sailor Woods were with the prisoner the night be- of this bill; if you have that power you have Woods has since been drowned on the fore. The detectives traced the watch to lakes. Depew, who was arrested in Blenhelm some time ago. The case occupied all day Monday, ran through the crowded house, when the and the jury was looked up during the night, failing to agree, 11 being for conviction and one for acquittal. The evidence was very clear against Depew. It is said the juryman who held out is a distant relative of the pri-

soner.

CINCINNATI, May 12 .- A special grand jury appointed to consider the orimes in connection with the riots and burning of the court house, made a report to-day. It treats at length on the causes leading to the riot, and speaks of the common report that jurors were bribed, of the general complaint that the courts permitted too many delays, and that good citizens avoided jury duty to the detriment of the fair administration of justice. It also points out defects in the criminal code. The report comments highly on the conduct of the 14th Begiment at the time of the riot, and praises the bravery of Captain Desmond. Fifty-four indictments were returned, covering twelve grades of orime. Nothing further will be divuiged concerning these until arrests are made. An indictment has been found for bribery against T. C. Campbell, the lawyer who defended Wm. Berner, the murderer of Kirk, the attempt to lynch whom led to the bloodshed.

100 when he died.

WASHINGTON, D.C., May 6 .- The House today, smid intense excitement, voted to strike out the enacting clause of the tariff bill. The vote stood 156 to 151. Morrison closed the debate, setting forth the objections that have been made to the bill and answering them. At the conclusion, turning to Bandall (leader Democratic protectionists), he said, "You claim to have power strike out the enacting clause to the power to amend this bill and make it what it should be." (Loud applause on the democratic side.) A murmur of expectancy chairman directed the clerk to read the bar of the house and moved to strike the enrounds of applause from the republican side.

his place, Morrison cried out to the 9d to 10s 3d per cwt. Here the feeling is clerk of the house, "Ho, clerk I see that no strong, mill prices ranging from \$3.50 to -d scoundrel who is paired goes between the tellers." The affirmative vote was an-neunced as 155. The first man to pass through in the negative was Beagsin, who had been brought in on an invalid's obair in order to cast his vote. The negative vote was announced as 151, and an additional member voting in the affirmative made the vote 156 to 151. Cheer followed oheer from the republican side, which was cohoed from the galleries. Ladies stood up and waved their handkerchiefs and men swung their Morrison yielded gracefully and hats. walked to his seat. The committee then rose. In the house vote striking out the enacting clause of the bill was 159 to 155.

### THE "PRAIRIE FARMER" BOOMING.

The Old Friends of The Preirie Farmer, and many farmers all over the West, and East, too, will be glad to learn of the good fortune that has come to this time-honored journal, which for nearly half a contury (43 years) has been doing good service to and for the agricultural interests of our country. The numalso 20 independents and 35 of the contrait party. This surpassed all expectation. The bill will undoubtedly be passed. Prince Bis. marck spoke in defence of the bill. Prices here are quoted as follows :---Siemens, No 1, \$18 75 to 19; No 1 Coltness and Lang loan, \$20; No 1 Gartaberrie, Summerlee and Calder, \$18 75; No 1 Daimellington, \$18, and No 1 Englinton, \$17 25 to 17 50. In metals there is a firm feeling in tin, which has advanced £1 in London to £86 15s, and a corresponding rise has taken place in this masket, straights being quoted at 2110 and L & F at 2210. Copper is steady and un-changed at £64 in London, and 1620 here. Canada plates are steady, and there has been some movement in them at about \$3 for Penn and Blaina. In plates are slightly firmer, although prices are not quotably higher, transactions having been made at \$4 75 to \$5 for I C. charcoal, and at \$4 25 to 4 50 for I C coke. Bar iron has met with fair enquiry, and sales of round lots have resulted at \$1 80, smaller lots bringing \$1 85. Sheets are quiet but steady at 230, plates at 230 to 250,

NAVAL STORES.-Business in general stores easier rates chortly. A large spring fleet is opening fairly well, although at rather is anchored in port, but the shipping interest low prices, sales of rosins being noted at from suffers from a lack of outward tonnage, in \$2.50 for common strained up to \$5,00 for fine clear white. Spirits of turpentine is steady at the recent decline, sales being reported at 531c for round lots up ta 55c for smaller parcels. In other stores moderate

dealings are reported. SALT-Coarse has sold at 420 to 430 for elevens ex-wharf, and prices range from 420 to 44c, as to size of lot; factory-filled \$1.10; Earoks, \$2.40.

City Breadstuffs, Dairy Produce and Provisions.

May 13. There is no improvement in the flour market, which remains dull. In wheat there is no movement, and quotations must be regarded as normal. Oats are steady, and there is a limited trade in rye. We quote prices as follows:-- Canada red winter wheat \$1 15 to 18; Oanada white winter \$1 13 to 1 15; Canada spring \$112 to 115; peas 940 to \$5c; osts 400 to 42c; rye 71c to 72c; barley 55c to 70c; and corn 70c to 72c. A fair jobbing trade in pork and lard progresses at steady prices, but there are no large lote selling, and the market has a quiet

at \$21 50 to 22, and western mess at \$20 50 to 21. Lard rules quiet at 1130 for Canadian and 12c for western. Means are in very wlfe moderate request. A moderate business in G/ ashes at steady prices represents the actual Mrs. condition of the market, in which there is no Mo special feature to note. A lot of 10 barrels of pots changed hands on Satur-90 B day at \$3 90. We quote \$3 90 to \$4 per 100 lbs for first. There is nothing doing in pearls. Nan Buyers are not very plenty, and the market lacks life. There is a full supply and an easy SE tone prevails, it being the exception to exceed May 15c. The range given is 15c to 154c per Shee dozen. The condition of the market has un- of M dergone but little variation, and there is Me nothing to indicate a decidedly new departure. Chu The market is a little clow, but a fairly steady

basis for values is maintained. There is some inquiry from shippers, but thus early in the week operations are very limited. Sales in the country have been made at 111c, while holders of choice white here are asking 12c. We quote 11c to 12c, as to quality. Liverpool was cabled unchanged at 68s 6d.

### OATTLE MARKETS.

MONTEBAL, May 13 .--- The season for shipping cattle may now be considered to have airly opened, and at Acer & Kennedy's yards, Point St. Charles, this morning a good business was done. The receipts of live stock since Saturday morning were 81 carloads, of which 38 were export oattle. The demand for these was brisk, and exporters waded In freely, despite the uniavorable tenor of oable reports, which called the British markets dull and declining-

Actual sales of shipping caule were made to day at 60 to 710 per lb. live weight, and it was whispered about that even as high as 650 was whispered about that even as high as 640 had been paid for something extra cholos. This, ho wever, must be taken as exceptional. Freights are unsettied, and many rates are given, the range being from £3 to £4 per head. Insurance contracts against mortality have been made at 2 to 21 per cent. Private regioldes, and read the letter written by Em. former field to other hands, and removed to lishments. HAY AND STEAW.

MONTBEAL, May 13. - The demand for hay and straw is moderate and the market about steady. Receipts are equal to the demand, and there is plenty of hay back in the country for all purposes. On the market the range of prices was from \$6 to 9 00 per hundred bundles, within which range the bulk of the business took place. Btraw was quiet at \$5 to 6 00 per hundred bundles, the outside figure for flail threshed.
