# Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Inveterate cases of Scrofula, where the system scemed utterly given up to corruption, have yielded to this compound of anti-strumous virtues. Disorders of a scrofulous type, and affections which are merely mee of scrofulous matter,

aggravated by the presence of scrofulous type, and affections which are merely aggravated by the presence of scrofulous matter, have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of onfeebling or latal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tuberdles may be suddenly deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the Sarsapartilla as a preventive, advisable.

It is a histake to suppose that so long as no cruptions or hundrs appear; there must be no scrofulous taint. These forms of derangement may never occur, andly et the vitel forces of the body be so reduced by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofuln is strictly hereditary. It does, indeed, descend from parent to child, but is also engendered in persons born of pure alload. Low living, indigestion, foul air, licentious habits, uncleanliness, and the depressing vices generally, produce it. Weakly constitutions, where not fortilled by the most constant and judicious care, are peculiarly liable to it. Yet the robust, also, whose turbid blood swells the veins with an apparently exiberant vitality, are often contaminated, and on the road to its consequences. Indeed, no class or condition can depend on immunity from it, nor feel insensible to the importance of an effectual remedy.

In St. Authony's Fire, Rose or Erystpelas, for Tetter. Salt Rheum. Scald Head.

in for test insensible to the importance of the elec-tion remedy.

In St. Authory's Fire, Rose on Erysipelas, for Tetter, Sait Rheitin, Scald Head, Ring-worm, Sore Eart and Eyes, and other cruptive or visible forms of the discusses caused primarily by the scrolulous infection, the Saraparilla is so ci-ficient as to be indispensable. And in the more concealed forms, as in Dyspepsia, Dropsy, Heart Disease, Fits, Epilopsy, Nouvalgia, and other affections of the muscular and nervous systems; the Sarsaparilla, through its purifying power, re-moves the cause of the disorder and produces aston-ishing cures.

Sarsapanilla, through its purifying power, removes the cause of the disorder and produces astonishing cures.

The sarsapanilla root of the tropics does not by itself achieve these results. It is added by the extracts combined with it, of still greater power. So notent is this union of healing virtues, Syphilis or Veneral and Mercurial Diseases are cirred by it, though a long time is required for subduing these obstinate maladies by any medicine. Leucorrham or Whites. Uterine Uterrations, and Female Diseases in general, are commonly soon relieved and ultimately cired by the invigorating and purifying effect of our Sarsaparilla. Rhoumatism and Gout, often dependent on the accumulations of extrapeous matters in the blood, have their reinedy also in this medicine: For Liver Complaints, torpidity, inflammation, indeess, etc.; caused: by rankling poisons in the blood, we unbestiatingly recommend the Sarsaparilla.

This medicine restores health and vigor where no specific disease can be distinguished. Its restorative power is soon falt by those who are Lanquid, Listiess; Despondent, Sleepless, and allied with Nervous Apprehensions of Lears, or who are troubled with any other of those affections symptomatic of weakness. Many, after taking it for General Debility, hare written us of the youthful vigor imparted to their nervous system, which seemed buoyant, with that prolife life they thought had departed on the advance of age. Others, whose fountains of life were always sterile, adknowledge their obligations to it for an obvious change.

Ayer's Ague Cure,
For Fever and Ague, Intermittent Forer, Chill Fever, Remittent Foven,
Bumb Ague, Periodical or Biltout
Fever, &c., and indeed all the aftertions which arise from malarious,
marsh, or missimutic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quining, Blamuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through missmatic localities, will the protected by their fire AGUE CURE delly.

For Liver Compitaints, arising from torphility of the Liver, it is an excellent remedy, simulating the Liver into healthy activity.
