OXFORD Boilers and Radiators

are the result of over sixty years' experience.

Tried—Tested and Proven Unexcelled.

Note the depth of (the heart of the Boiler) the Firepot with diameter, greater at the bottom than at the top, thus preventing accumulation of dead fuel or ashes and assuring increased efficiency.

First Section double the usual depth with bell-shaped flue, opening of grate area doubling the amount of effective surface immediately over the fire.

A Grate combining strength, durability and easy operation. A commodious ashpit provided with ash sifter when desired

Radiators of artistic design in all sizes and adaptable to all places. Our "Pocket Companions" give full details, and are for the asking.
