

A. *Limitations*

Of the information which is classified, only that relevant to current or projected programmes will be exchanged. The parties to the Agreement will not exchange under this Agreement Restricted Data which, in the opinion of either country, is primarily of military significance, or exchange Restricted Data relating to the design or fabrication of atomic weapons. Within the subject matter of this Agreement, the parties may come into possession of privately developed and privately owned information and information received from other governments which the parties are not permitted to exchange.

It is mutually understood and agreed that, except as limitations are stated to apply specifically to one party or the other, any limitations to co-operation imposed pursuant to this Agreement shall be reciprocal.

B. *Reactors*

(1) Information on the development, design, construction, operation and use of research, production, experimental power, demonstration power, and power reactors, except as provided in Paragraph A and (2) and (3) of this paragraph.

(2) The development of submarine, ship, aircraft, and certain package power reactors is presently concerned primarily with their military uses. Accordingly, it is agreed that the parties to this Agreement will not communicate to each other under this Agreement Restricted Data pertaining primarily to such reactors, until such time as these types of reactors warrant civil application and as the exchange of information on these types of reactors may be mutually agreed. Restricted Data pertaining to the adaptation of these types of reactors to military use, however, will not be exchanged under this Agreement. Likewise, the parties to the Agreement will not exchange under this Agreement Restricted Data pertaining primarily to any future reactor-types the development of which may be concerned primarily with their military use, until such time as these types of reactors warrant civil application and as exchange of information on these types of reactors may be mutually agreed; and Restricted Data pertaining to the adaptation of these types of reactors to military use will not be exchanged under this Agreement. Nevertheless, information pertaining to military nuclear power plants in furtherance of the joint Canada-United States defence effort in the development of an early warning radar network, may be exchanged.

(3) It is agreed that neither of the parties to this Agreement will exchange Restricted Data on any specific production, experimental power, demonstration power, and power reactor, unless that type of reactor is being operated currently by the other party, or is being considered seriously for construction by the other party as a source of power or as an intermediate step in a power production programme. There will, however, be exchanged such general information on design and characteristics of various types of reactors as is required to permit evaluation and comparison of their potential use in a power production programme.
