

The Toronto World

A Morning Newspaper published every day in the year. Telephone-private exchange connecting all departments—Main 252.

Subscription Rates in Advance: One year, Daily, Sunday included... \$5.00. Six months... \$3.00. Three months... \$1.75.

These rates include postage all over Canada, United States or Great Britain. They also include free delivery in any part of Toronto or suburbs.

FOREIGN AGENCIES: Advertisements and subscriptions are received through any responsible advertising agency in England, the United States, France, Australia, Germany, etc.

MORE REST FROM INSURANCE: Judge McTavish has influenza and the insurance investigation is held up. Nobody can predict when the preliminary elucidation of the insurance department's methods will be completed at Ottawa.

Mr. Fitzgerald and Mr. Blackadar will probably have to be recalled from time to time when the evidence, which they have given, is being offset by the companies in Montreal and Toronto.

Mr. Fitzgerald is something of a mystery to the companies, as well as to the public. By this time, probably, he is something of a mystery to himself.

The companies will find it hard to become accustomed to the idea that they really need to be under effective government control. The North American Life, for instance, is more surprised than it can express that Mr. Fitzgerald two months ago began to object to the company's excessive holding of American securities.

Mr. Fitzgerald is something of a mystery to the companies, as well as to the public. By this time, probably, he is something of a mystery to himself.

Mr. Fitzgerald is something of a mystery to the companies, as well as to the public. By this time, probably, he is something of a mystery to himself.

be cut off is just as clearly indicated.

The commission on reassembling will have the advantage of tiptop actuarial assistance from Mr. Miles Dawson, the right hand man of Counsel Hughes in the New York investigation before the Armstrong committee.

Time and money would have been saved by Mr. Dawson's employment from the start—not only the public's money, as represented by the expenses of the commission—but also policyholders' money.

Incidentally, this judgment vindicates the position assumed by Lord Curzon and will strengthen the hands of those who, while they admire the qualities of the soldier, believe that the military arm is a good servant but an impolitic, costly and intolerable master.

A BRITISH PRECEDENT: Mr. Lloyd-George, president of the British Board of Trade, has promised sympathetic consideration of a request for an amendment of the Patent Act, to the effect that all processes of manufacture protected by it must be carried on within the United Kingdom.

IS KITCHENER DANGEROUS? Although Canadians do not receive any appreciable proportion of the revenue derived from India, we have an interest in that empire within an empire which makes every readjustment of political power there of direct importance to us.

From time to time different elements in the body politic of India are declared by observers on the spot to be dangerous. Yesterday it was the native who wanted to play the game of equality with the white.

Lord Kitchener was sent to India as the only possible member of a military situation which was becoming intolerable. He went to reorganize an army of high control of which was said to be distinguished by every attribute of inefficiency which had been disclosed in South Africa.

Why Syrups are Useless: They upset the stomach and cause indigestion but never cured a single case of bronchitis or catarrh. These deep-seated diseases yield only to a direct treatment like Catarrh-zone, a lung-healer and throat-strengthening that uproots every branch of the trouble.

WHY SYRUPS ARE USELESS: They upset the stomach and cause indigestion but never cured a single case of bronchitis or catarrh. These deep-seated diseases yield only to a direct treatment like Catarrh-zone, a lung-healer and throat-strengthening that uproots every branch of the trouble.

as little Englandism—as anything but patriotism.

The Times correspondent, who is a publicist of high standing, declares that Lord Kitchener, by his treatment of the native army, is creating in the body the same spirit of soreness and discontent which was one of the main causes of the mutiny of 1857.

Incidentally, this judgment vindicates the position assumed by Lord Curzon and will strengthen the hands of those who, while they admire the qualities of the soldier, believe that the military arm is a good servant but an impolitic, costly and intolerable master.

tion of water from the Canadian channel is all right, because the original international treaty provides for an equal division of the water.

Fortunately nothing that can happen to the Burton bill can in any way prejudice the case for cheap municipalized electricity in Ontario. There is power enough and to spare for Canadian consumers, without producing the least noticeable effect upon the scenic splendor of the falls.

GRAFT'S NETHERMOST: President Roosevelt is alarmed because an increasing number of writers in the United States discover graft in every form of public business. The extent to which they are right can only be roughly estimated.

What must be the general grafting condition when such a scandal as that which is horrifying Buffalo is possible? Many prominent citizens are under indictment before a grand jury for having shared in a graft worse than body snatching and not less repulsive than cannibalism.

THE SUNDAY MORNING NEWS-PAPER: Victoria Daily Colonist: We have one observation to make with respect to the proposed Sunday observance law. It has been discovered that it will be impossible to publish either a Sunday morning or a Monday morning paper if the bill is passed in its present form.

WOULD DIVERT CANADIAN WATER: Pending the publication of the reports of the Canadian section of the International waterways commission on the Niagara Falls situation, the case of the Niagara County Irrigation & Water Supply Co. as presented to the house committee on rivers and harbors at Washington, is interesting.

WHY SYRUPS ARE USELESS: They upset the stomach and cause indigestion but never cured a single case of bronchitis or catarrh. These deep-seated diseases yield only to a direct treatment like Catarrh-zone, a lung-healer and throat-strengthening that uproots every branch of the trouble.

AT 107 STILL WORKS.

Edwin Hales, Canadian Born, Remembers War of 1812. Detroit, April 16.—Edwin Hales of Quincy, near Kalamazoo, claims to be 107 years of age. He was born near Niagara Falls, Ont., in 1798, and says he recalls plainly the battles of Lundy's Lane and Chippewa in the War of 1812.

CHRISTIAN SCIENTIST DEAD. W. H. Wright of Belleville, Ex-Po-Hoeman, Dies After Long Illness. Belleville, April 16.—William H. Wright, Christian Science leader, of this city, is dead. He had been ailing with a complication of diseases for some time. He was 54 years of age and came from Port Hope twelve years ago. He leaves a widow and grown-up family.

WHO CAN SAY? Editor World: No doubt the government intend to control all the water powers for the benefit of the people, I want to draw the government's attention to the valuable power right at our door, and it is that scheme the late Mayor E. A. Macdonald, fought so hard for, viz., the Humber River. As a layman it seems to me an easy thing to build a dam at the place Mr. Macdonald indicated, and to develop considerable power. Is it not worth enquiring into?

NIAGARA POWER. Editor World: In the Burton bill recently introduced at Washington the section prohibiting additional importation into the United States of power from the Canadian side of the falls would appear to show that the president has discovered a way out of a difficult situation.

By prohibiting the importation of power, however, he prevents for many years to come any further withdrawal of water on this side, as the power already in process of development here will not soon be taken up.

Editor World: The Times-kamling and Northern Ontario Railway commission are advertising for tenders for a 999 year minimum lease for a portion of the Town of Cobalt. At the same time the government refuse to confirm certain contracts entered into by some of the municipal councils and the electric railway to run cars on the public highways because the members of the councils must be turned out of office in a year.
