

MAP OF THE WEST AUSTRALIAN GOLD FIELDS.

THE LATEST, MOST COMPLETE, AND AUTHENTIC.

DRAWN AND COMPILED BY MESSRS. CHARLETON & Co., MINING ENGINEERS.
PUBLISHED BY THE MINING AND GEOGRAPHICAL INSTITUTE.

Scale, One Mile (80 chains) to the Inch.
In Six Sheets. Complete size of Map, 9ft. by 8ft.

THE Map is compiled from the latest authentic data, maps and reports of private and official explorers, surveys, etc., with the assistance kindly afforded by the Hon. Sir Malcolm Fraser, K.C.M.G., Agent-General for the Colony of Western Australia, in London.

Hitherto, no reliable comprehensive map of the WHOLE of the MINING CENTRES of Western Australia has been published, upon which the public could depend for that minute accuracy of detail which gives to such a work its special and permanent value. Neither pains nor expense have been spared to so construct this work, that it shall embody the latest geographical and mining information correct in every detail. In short we claim that this map combines more perfectly than any previous or similar publication the qualities of reliability, freshness, attractiveness and usefulness.

The Map gives a large inset map of

HANNAN'S,

Scale, 20 chains to the inch (showing, by colour, properties of all Companies to date); also a complete Index Map of

WESTERN AUSTRALIA.

The Map shows all Railways, completed and proposed, Tanks completed (with their capacity), Tanks proposed, Wells, Telegraphs, Roads, Forest Reserves, &c.

All Properties held by Companies having Offices in London are distinguished by colour.

Arrangements can be made to keep the Map up-to-date.
