SEED GRAIN LOANS TO POOR SETTLERS

Arrangements Made Whereby They Can Procure the Grain Locally.

Ottawa, Oct. 9. - The entire system of supplying seed grain for needy settlers, and of collecting therefor, has this year, been overhauled and what is virtually a new system thru-

out has been put into effect. At the instance of Hon. Afthur Meighen, minister of the interior, a conference was held with the western provincial governments in the City of Regina, and as a result arrangements have been completed for the fair division of responsibilities as between the Dominion and provincial author-

In 1914 when seed grain relief was necessary the government made advances directly to the settlers, bought the seed, shipped it to internal ele-vators, where it was cleaned and sacked and reshipped to points of distribution. The cost of handling, in consequence, added considerably to consequence, added considerably to the price of seed. Owing to present conditions with the prevailing high price of seed, it was felt that the desired result could be effected more economically and more satisfactorily for the settler by a system that would enable him to purchase the seed local-ly. The Canadian Bankers' Associa-

tion has agreed to co-operate, and arrangements have been completed with the banks whereby loans can be made to needy settlers on unpatented Do-minion lands. The rate of interest on these advances will not be more than seven per cent.

What Settler Must Do. A settler needing assistance must President Wilson Delivers Blow apply to the secretary-treasurer of the municipality in which he resides, or, if the district be unorganized, to the provincial officer of the department of municipal affairs. The application having been verified by both the municipal and Dominion authori-ties, the bank makes the necessary loan, taking the usual seed grain security, and a lien upon the patented entry. Payments are due on

As a result of the policy established. the settler can make his own arrangements in regard to the purchase of seed, altho if there is none available locally, the department of agriculture is arranging for shipments to be sold to the farmers at cost.

The government guarantees the bank to the extent of principal and per cent. interest only. Should the bank not collect the obligation, that is all it receives. On the collections actually made by the bank, the government pays a commission of une

The minister is confident that this arrangement will effect an important saving in distribution and collection expenses, and that it will go far towards confining advances to actual needs, and will result as well in a quicker and more businesslike discharge of obligations incurred. An order-in-council has been passed embodying the above arrangements, and the necessary machinery is being put in motion immediately by the department of the interior

New Hospital for St. Thomas Is Recommended by Doctors

St. Thomas, Oct. 9.—At a meeting NIAGARA TROOPS COME Thomas Medical Association an ad-visory board was appointed and the new board recommended that a new hospital be built on a new site in St. Thomas, as the Amasa Wood Hospital is entirely inadequate for the city's present needs. It is understood the citizens of St. Thomas and Elgin County are all in favor of building a new hospital and have several sites in view.

"Very satisfactor," is the statement of Toronto military headquarters in regard to the report of the health of the troops at Niagara Camp, brought back by Col. Wentworth Irving, D.S.O. assistant-director medical services. It was announced last night that the troops at Niagara would break camp on Oct. 14 and move to Toronto and Hamilton on Oct. 15.

REPLY COUNTERACTS

in Kaiser's Face - May Detach Austria.

Paris, Oct. 9.—Commenting editorially on President Wilson's reply, The Journal des Debats says: "This very adroit reply does greatest honor to its author. It

counteracts the Germanic calculations. Vienna and Berlin cabinets sought to place the United States before a dilemma—either to accept the armistice, which would give Germany time to reconstitute her harassed troops, or to evoke in Germany, by a refusal of the offer of peace, a patriotic movement which would rally round the new government, the whole nation, including the Socialists. "President Wilson has not allowed

himself to be caught in this dilemma. He demands enlightment/ and lays down a preliminary condition. President Wilson's last question strikes at the very heart of the German Government, it is a blow in the kaiser's face." The Temps says:

"Like a man who only needs to consult his conscience, President Wilson has explained himself on the German note without delay. It is now to be seen what the German Government will have to say in reply. Its language, perhaps, will permit Austria-Hungary, to whom President Wilson had wisely abstained from replying too quickly, to consider itself longer one with a faithless, lawless

SOSNOWSKY—At Weston, on Tuesday. cating its forces from an already seri-The fact that American Ambassa

dor Sharp is making a personal investigation of the havoc wrought by the Germans in their forced retire-ment from French and Belgian territory has led to the belief that it is the purpose of the state department fully to support the enormous claims for damages which Germany must meet as a condition of peace. So far the American Government has not in-dicated a disposition to join with the entente allies in making a threat to destroy German cities or towns in retaliation for every such community destroyed by the Germans in France and Beigium, but Sharp's investiga tions might be regarded as also indicating a purpose to join in such representations, should the facts sustain the press reports of the German

for Belgium.

Washington, Oct. 9.—An early response to President Wilson's note of inquiry to the German chancellor is expected by American officials. While realizing that an answer to the three pertinent questions put the Prince of Baden will be very difficult if the original proposal of the German Government were not sincere, official are confident that internal conditions in Germany and the tremendous exigencies of the military situation will force speedy action by the chancellor, if he hopes to prolong the existence of his cabinet beyond a few days.

So far as the hold of the government upon the people is concerned, conditions in Austria are even far worse them is the action of the proper to the proper to prove th

and Controller Would Not Add to Difficulties.

Ottawa, Oct. 9.—The fuel controller for Canada has just concluded a general survey of the fuel consumption of certain industries in Canada, including clay products, enamel and sanitary ware, and window glass.

This action was taken in order to ascertain to what extent fuel consumption could be restricted in sympathy with the restrictive orders that have been issued in the United

when they voted unanimously asking Madical Officer of Health Dr. Canfield of the submit his resignation. The emphatic refusal of Dr. Canfield comply a consistent of the carrying of the matter to the provincial board of health of the council of the council of the council met in special session trought, and a telegram read from Dr. McCulloufs mave the authority of the provincial board of health to the council of the two hundred persons which comprise the Finland Diet seventy are women.

Carpentry is about the only trade women have not entered into in Englands. ers in Canada in connection with the drainage of low-lying agricultural lands in order to promote the produc-

tion of foodstuffs. enamelware industry also shows large contraction, and is now devoting its attention principally to furnishing material to munition

furnishing material to munition plants, railways and war industries.

Stone Output Reduced.

The stone producing plants of central Canada have had the normal output largely reduced, while 70 per cent. of the production is now devoted to supplying raw material for essential war industries and agricultural limestone for fertilizing purposes.

After a careful survey of the whole situation as it affects the various industries considered, and taking into account the absolute necessity which exists for the continued production of the mow seniously restricted products of these industries, the fuel controller the now seriously restricted products of these industries, the fuel controller has concluded that, consistent with October, 1918, est, it would be inadvisable to take any step in the way of restricting the

fuel supply to the various plants now

FUEL CONTROLLER BUSY IN DANFORTH DISTRICT

FOR MEMORIAL HALL

Residents of Danforth Park are pleased at the appointment of W. D. Curtis, president of the local ratepayers' association, as fuel controller of the district, which takes in from Woodbine avenue to Dawes road. Mr. Curtis has already mmenced a canvass as to the number of scholders without fuel, and has un nousenoiders without ruel, and has under consideration the rationing of the people. He will request that coal hoarding be stopped, and advise the council how many cars of coal are necessary. Mr. Curtis' address is 205 Gledhill avenue, and D. McCarthy, secretary, 418 West Lake avenue.

NO GRAND STAND PLAY. East End People Want Viaduct Opened Without Delay.

Barriers across and "No Thorotar signs were still in position all along the route of the completed roadway south of the track allowance of the Don via engaged on the main bridge roadway

engaged on the main bridge roadway, north of the track allowance, laying wood blocks. This work should be finished on Friday.

Business men and residents in the east end are asking when the formal opening of the completed gap is to take place.

"We will dispense with the grand stand opening if they try our patience much longer," said an indignant ratepayer yesterday. longer," said an indignant ratepayer yesterday.

Work on the intersection at Broadview is still under way, and should be finished by Saturday.

MISSED ITS CHANCE

"Had there been co-operation between our civic authorities and the legislative body at Queen's Park, we should not now have to pay anywhere from \$17 to \$20 a cord for our hardwood," said a Danforth avenue business man yesterday, "In Hamilton the residents are buying beech and maple wood at \$12.50 a cord and of good quality, because they had their eyes open, We have to thank our civic authorities for turning down the offer which Hamilton accepted," he said.

WORKLESS FRATERNITY WAS WELL REPRESENTED

All the offenders who appeared before Magistrate Brunton, in the county police court yesterday, were loafers. William Eaton, and his brother, Frederick, are sons of a soldier who is fighting in France. They had just finished a six-mo, th term and since their release, had found no work. William was sent to the jail farm for three months and Fred was given until Friday to find work.

John Robinson, another of the work-less fraternity was sent to the farm for three months with instructions that he be set at outside work, the money thus earned to be sent to his family.

NEED GOOD BRIDGE.

"With regard to a road over to Leaside from Todmorden, it would be necessary in my opinion to have a good bridge; there is no other way out of it." said a prominent farmer in the Todmorden district yesterday.

STUDY CLASS MEETS.

ONE-STEP WINNERS.

The winners of the prize one-step in connection with the Riverdale branch. G.W.V.A., bi-weekly dance, held in Playter's Hall, Danforth avenue were M. Claramunt and Miss G. Dryland. NEW LEASIDE BANK.

The new branch of the Imperial Bank recently opened at Leaside, is situated on the west side of Laird drive, opposite the munition plant and not on the south as previously reported.
