

## FAMINE IN MILK HIGHLY PROBABLE

Unless Cost of Feed Reduced  
by Board—Situation  
Serious.

"Unless something is done between now and Oct. 1, we are going to have a milk famine in the cities of this province," declared D'Arcy Scott of the National Dairy Council, in making an application to the fair price committee of the dairy, this morning, that a recommendation be made to Mr. O'Connor for a fixed price of \$3.10 for an eight-gallon can of milk delivered at the dairy, this to cover the period from Oct. 1 to Dec. 1.

Major T. L. Duncan, the chairman, did not think it wise for Mr. Scott to talk about a famine, because when an official such as you in the dairy world says such a thing, it bears a different complexion than when somebody else says it.

Mr. Scott: "Unless this board understands the situation and makes a recommendation to Mr. O'Connor, which he can act upon, I am afraid it will happen."

The committee will meet today at 10 o'clock to see if it can come to some agreement as to what is a fair price of milk at present.

Mr. Scott, who made his application late in the afternoon, said the contracts, which run out on Oct. 1, are for \$2.55 a can of eight gallons. Last winter the price was \$2.80 per can. The producers had been asking for \$3.35. The board of commerce had issued an order that the present price was not to be exceeded for a period of 40 days. That would carry considerably beyond Oct. 1.

Major Duncan said it would not necessarily continue for that period. Must Bring Down Feed.

Mr. Scott said he knew from an interview with Mr. O'Connor that it was the desire of the board of commerce to bring about a substantial reduction in the price of feed, and he understood there was going to be an investigation of the millers' profits.

Mr. O'Connor succeeded in reducing the price of feed, perhaps it would not be necessary for the price of milk to be permanently increased at all. If farmers would prefer if the board of commerce could bring down the cost of feed, so as to sell milk at the present price, or a reduced price. Unless the board of commerce could do this, it was futile to hope that the milk supply was going to continue.

The farmer will say after Oct. 1: "I am going to buy no more of this feed," and the cows would at once go down in milk. Unless something were done between now and the time they were going to have a milk famine in the cities of the province.

On behalf of the producers, Mr. Scott asked the board to recommend to Mr. O'Connor to make a temporary order from Oct. 1 to Dec. 1, the price of milk to be \$3.10 for an eight-gallon can delivered at the dairy. This, he stated, was considerably less than the winter price they were asking.

Professor's Evidence.

Professor each of the O.A.C. Guelph, giving evidence yesterday, said the proportion of milk shipped in was 45 pounds in the winter to 55 pounds in the summer. For the summer 55 pounds the farmer received \$2.75 per 100 pounds, and he would have to receive for the winter 45 pounds sufficient to bring the price up to \$3.25 to get a fair profit. The 55 pounds actually brought \$1.51, and for the winter months he would have to get \$3.30 per 100 pounds, or \$3.19 at the railway station, in order to get \$500 on his labor, a profit of seven per cent. on his whole farm investment of \$12,500. This would bring, with the cost of delivery, the price of the eight-gallon can at the dairy up to \$3.35.

Making Less Profit.

According to a table of cost, operating cost and profit submitted by Mr. Hughes, manager of the Farmers' Dairy, his company are making less profit per quart today than in 1913, although the selling price has increased during that period from 7.16 cents to 11.86 cents a quart. The operating cost is now 3.71 as against 2.30 in 1913, and the profit, according to this statement, is four-tenths of a cent less per quart than formerly. The highest profit made in the past seven years as shown, was in 1914, when with milk selling at 7.27 the profit was 31 cents per quart. The cost in that year was 4.41 and the operating cost 2.33 3-4.

Careless Customers.

An item of \$14,375 for bottles elicited some discussion, and in reply to Dr. Margaret Patterson, Mr. Hughes said 75 per cent. of this sum was waste due to carelessness of customers.

"Would it not be a good thing if dairies combined and sold bottle tickets?" asked Dr. Patterson.

Mr. Hughes: "No doubt the bottle question is a very serious one for Toronto."

Mr. McNaught said this question had been a very prominent one in the minds of distributors, particularly in view of the enormous increase in the cost of bottles.

R. H. Pili, secretary of the retailers' association, said this had been a most vital question since it was compulsory to sell milk in bottles. "This is the main factor that takes our profits and puts the small man out of business."

Mr. Hughes stated that in eight months the Farmers' Dairy Company lost \$10,000 worth of milk bottles.

To Prevent Theft.

Waste by stolen bottles could be eliminated, suggested Dr. Patterson, by refusing to deliver milk where there were no bottles put out by the customer. This could be checked up by "bottle tickets."

That would be more than offset by the slowing up of the delivery," stated Mr. McNaught. "The whole secret of the present margin on which distributors operate is intensive delivery."

Dr. Patterson: "Milk delivery could be cheapened by not sending so many different wagons, owned by different companies on the same streets."

"It makes no difference at all," replied Mr. McNaught, "provided they are all loaded to capacity."

Mr. R. H. Pili, secretary of the Retail Milk Dealers' Association, said thousands of milk bottles went to the dumping grounds thru citizens' indifference.

## TRIANGLE CLUBS TO CONTINUE WORK

Secretaries in Various Hospitals Will Keep on Indefinitely Also.

After giving careful consideration to the representations made in behalf of the returned soldiers, it has been definitely decided by the military services committee of the national council, to continue the Red Triangle Clubs in operation until April 1 next. At the present time there are sixteen such clubs in different parts of the Dominion, and they have proved themselves indispensable in assisting the returned men in getting back to civil life, and in providing a downtown club for soldiers.

Another important decision reached was to continue the secretaries in the various hospitals indefinitely. It was felt that they are as much needed in those institutions now as ever they were. There is only one branch of the military work of the 'Y' on this side of the water that is lessening appreciably and that is on the transports and troop trains.

The secretary of the war council of the British war office wrote to the national council expressing appreciation of the services rendered by the Canadian 'Y' at the imperial repatriation camp at Winchester. Notwithstanding that this is a British camp it was the Canadian 'Y' that was asked to look after the work there.

High School Posts

Six New Appointments Recommended by Board of Principals.

Six new high school appointments have been recommended by the high school board of principals, as follows: O. N. Sanderson to a permanent position in Harbour. Mr. Sanderson has occupied the position of temporary teacher in that school for two years. Mr. Sanderson is a specialist in English and history, Toronto.

Elizabeth McLeod, B.A., Queen's, to Riverside. Miss McLeod is an honor graduate in science, and has had five years' experience.

A. E. O'Neill, B.A., who was three years overseas with the C.E.F., to Parkdale. Mr. O'Neill has had four years' experience.

Elizabeth Foster, to Parkdale Collegiate, as specialist in art. Esmeyn E. Delmage, to Parkdale, an honor graduate of McMaster University, to teach junior mathematics and general work. Miss Delmage has had about nine years' experience.

Owing to the trouble over the recent transfer of a high school teacher to be principal of a public school, there may be a fight over the following recommendation:

The transfer of Mr. W. J. McCreedy, B.A., Toronto, from the public school staff of Fern avenue, and his Street Collegiate. Mr. McCreedy is an honor graduate in classics, holds a first-class departmental certificate, and a cadet instructor's certificate. He has had eight years' experience as principal of a graded school, and one year's experience in Toronto public schools. This is a permanent appointment.

As an encouragement to athletics in the high schools, the recommendation is made that the high schools hold regular sessions on each Friday in October and the first two weeks in Rugby season.

Under such conditions the only alternative would be to appoint and place on the pay roll large numbers of teachers at times when they are available, as in June, in December, and at Easter, in advance of the need, taking chances as to their suitability, mainly on the evidence of written credentials.

The board of inspectors considers that the main strain of occasional work would therefore recommend that the per diem remuneration be materially increased, even beyond the standard of the initial salary allowed for regular staff.

INCREASE TECHNICAL FEES.

At a meeting yesterday of the Advisory Industrial Committee of the board of Education, it was moved by Trustee Rawlinson, as carried, that the fees for non-resident pupils attending technical schools in the city be increased 25 per cent. The fees for the four-year term have been \$105.

Dr. A. McKay, principal of Central Technical School, recommended that immediate steps be taken to arrange for the creation of a branch technical school during 1920. It is proposed to build on sites already owned by the board. Dr. McKay said that sooner or later a branch will have to be built. The attendance of day students including nurses and returned soldiers at Central Technical School last week was 2,386, and of night students 1,300. On the recommendation of Dr. McKay the board appointed E. N. H. Ward, B.A., J. C. Thompson, M.A., and C. L. Nichol, B.A., to the staff of Central Technical School.

## INSPECTOR GIVES ADVERSE REPORTS

Calls for Reorganization of Present Occasional School Staff.

Nothing daunted by the recent sensitiveness of the trustees over plain speaking, Chief Inspector R. H. Cowley officially makes various revolutionary proposals in his reports to the management committee.

In reporting upon a series of proposals for the reorganization of the staff the chief inspector of public schools has forwarded the following adverse reports:

The motion calls for the abolition of the occasional staff in so far as it consists of teachers on trial and the immediate filling of vacancies on the regular staff as they arise, by direct appointment of teachers, inexperienced and others, from among the applicants for such positions, and the appointment of an occasional staff of experienced teachers who shall be paid attractive salaries for the strenuous work.

Such a scheme would not meet the actual conditions with which the board of education has to deal in any school year. The number of teachers temporarily absent varies according to the season from about twenty to one hundred and twenty per cent.

Also it is necessary to appoint about a hundred and fifty female teachers to fill the vacancies arising during the year. Last year 64 female teachers were appointed from September to December, 42 from January to April, and 40 from April to June.

The board could not have filled these vacancies with only such a staff as the motion proposes, as eligible teachers would not remain in the city idle for months awaiting appointment.

Under such conditions the only alternative would be to appoint and place on the pay roll large numbers of teachers at times when they are available, as in June, in December, and at Easter, in advance of the need, taking chances as to their suitability, mainly on the evidence of written credentials.

The board of inspectors considers that the main strain of occasional work would therefore recommend that the per diem remuneration be materially increased, even beyond the standard of the initial salary allowed for regular staff.

ADVANCE STYLE FOR EARLY FALL.  
This stunning afternoon wrap is fashioned in green velvet with a trimming of extra deep fringe in green. The cape collar has a braided ornament at the centre of the back finished with deep fringe.

## SOCIETY NEWS

CONDUCTED BY MRS. EDMUND PHILLIPS.

Lady Violet Henderson and her children, who have spent the summer at Murray Bay, and lately have been in the city with friends, have returned to Ottawa.

The employment management course at the social service department of the University of Toronto, which was held yesterday afternoon, when the committee and Miss Agnes McGregor, director of field work, gave a tea for the instructors and students in this three weeks' course.

Each one, received in the ante room, being served in the large inner room, where the bride and groom, with their bridesmaids and groomsmen, were seated. The bride, who entered the church on the arm of her father, wore white crepe de chine, trimmed with white tulle and pearls and court train adorned with orange blossoms and carried a shower bouquet of Ophelia roses. Her bridesmaids wore blue and black and pink tulle. The bridesmaids carried white and pink tulle. The bridesmaids carried white and pink tulle.

At the home of the bride's mother, Gladstone avenue. Later Mr. and Mrs. Gander left for Detroit, the bride traveling with a party of friends, and the groom with his bride. They will live at their new home, 61 Gothic avenue.

A wedding was solemnized at St. John's Church, Norway, on Wednesday, September 17, by Major W. L. Baynes-Reid (late of the groom's battalion), when Mrs. Adams was married to Capt. Dalrymple, M.C., late 15th battalion.

## VATICAN CHOIR SINGING TONIGHT

Maestro Casimiri Gives History of World-Famed Papal Singers.

Musical Toronto is on the tip of its tongue with regard to the Vatican Choirs which tonight at Massey Hall will present a program truly unique inasmuch as it was never before given on this side of the border line.

Representatives of the press who last night had the privilege of a brief interview with the illustrious leader of the wonderful aggregation, were confident that no advance conception of the feast in store will in any way measure up to the reality. The very reverend monsignor, who is musically an ecclesiastic of rank, as is noticed by the touch of purple under his collar, and that he has the magnetism that will lead his organization into the very heights of the divine art none could doubt who heard him speak, even though his language thru the greater part of the interview was in a tongue in which progress on the part of the listeners was of a very halting character. The leader of the choir speaks Italian and French fluently, and a little English.

Choir's Origin.

Archbishop McNellie graciously served as interpreter, and it was learned that the Vatican Choirs, the origin of which has been matter of discussion, were gathered from the choirs in different churches in Rome. The proposition to form a choir for the purpose of touring America came from New York, which city was regarded as being the first to hear the best that the world can produce in sacred music. Mr. Casimiri was previously leader of the choir in the Church of St. John Lateran. The music tonight will include works from Palestrina, the prince of sacred song, who is reputed to be the first to combine science and art in a vehicle of worship. Ecclesiastical and children form the membership.

Something of the furor that the choir caused in New York may be judged from the fact that it is engaged to return and give two concerts in the Hippodrome before leaving America. Last Sunday the choir were in Quebec, where, in the historic Basilica of St. Francis, they sang one of the glorious masses of Palestrina. On leaving Toronto the organization goes to Rochester, and in turn to Syracuse, Chicago, St. Paul and other centres.

METHODIST MISSIONS

Woman's Society Hold Thirty-eighth Annual Meeting—Help Needed for China.

The thirty-eighth annual meeting of the board of managers of the Woman's Missionary Society of the Methodist Church was opened yesterday at 10 a.m., in the hall of the Metropolitan Church, with Mrs. W. E. Rose presiding officer. On leaving Toronto the organization goes to Rochester, and in turn to Syracuse, Chicago, St. Paul and other centres.

At the home of the bride's mother, Gladstone avenue. Later Mr. and Mrs. Gander left for Detroit, the bride traveling with a party of friends, and the groom with his bride. They will live at their new home, 61 Gothic avenue.

**No Trouble to Remove  
Superfluous Hair**

(Toilet Tip)

It is an easy matter to rid the skin of objectionable hair or fuzz, if you proceed as follows: Mix a paste with some water and a little powdered deodorant, apply to hairy surface and in 2 or 3 minutes rub off, wash the skin and the hairs are gone. This method of banishing hairy growths is painless and does not mar the skin, but to avoid disappointment, be certain to get real deodorant.
