Sunday, at Niagara Falls, the Hindoos were again refused admission to Canada the it was only to pass directly thru Ontario to Port Huren, the Grand Trunk Railway having the contract to transport the three circus trains from Buffalo to Port Huren. The management was compelled to charter a train via the Lake Shore route, via Cleveland, from Buffalo to Detroit.

The only reason assigned for the action of the Canadian government was that the immigration laws were prohibitive. It is claimed by the circus people that the refusal of passage thru Canada was improper and illegal.

The trip is not to be a junketing tour at the expense of the province, but it is hoped that it will be of considerable value from an educational standpoint. The train will reach North Bay at 8.35 this morning and will be switched on to the tracks of the T. & N. O. Rallway. Cobalt will be reached at 3 p.m., and three hours will be spent "looking over" that picturesque mining camp. On Wednesday the visiting legislators will be carried to the end of the rail, 52 miles north of New Liskeard, and at noon the party will have dinner at the railway contractors' camp. Side trips on Lake Temagami and Lake Temiskaming have been arranged, and the time will be pretty well filled in till Friday morning, when the excursionists will reach Toronto.

The party will eat and sleep on the train. McConkey is the caterer. There will be no liquor. food.

VEGETABLE CROPS LATE.

Late Frosts Responsible for Poor Showing of Some Products.

The monthly crop forecasts for June, as issued by the Ontario Vegetable Growers' Association show vegetable crops thruout the province to be one or two weeks late, owing to the cool and wet weather.

There have been several hard frosts since May 20 at Ottawa and Kingston, and early po crops that were doing nicely were killed. The crop of early cabbage at Ottawa will be nearly double that of last year. Cauliflower and corn will be a light crop, potatoes heavier, and there is no increase in the acreage of vegetables reported near Kingston. In Prince Edward County, beans and

Prof. Wm. Windsor of Boston, president of the Boston College of Vitosophy, will give a series of lectures at Association Hall, commencing Thursday night, with a lecture on "Matrinony," and continuing several nights. The Prof. Windsor is a member of the United States Supreme Count Bar. His theories are founded on the science of vitosophy, which is a method of character study based on genetics, pirenology and ethics. It is the purpose of the lectures to inculcate a high ideal of life, based on scientific rightic econsness and correct companionship, occupation and health culture.

"The three most essential elements of happiness," said Prof. Windsor, in answer to the question. "are congenial companionship, profitable occupation and good health." The science of vitosophy being founded upon character study, furnishes the only rational basis upon which these great desiderata can be obtained."
