YORK COUNTY AND SUBURBS
WHOLE BUILDING COLLAPSES
RAPIDLY WEAKENED FOUNDATION

Loss is \$1000—Disastrous Fire on St. Clair Ave.—Councillor Armstrong Seriously Ill.

Toronto Junction, Oct. 19.—The death of John Hand, aged 76, occurred this morning at the home of his son, Charles Hand, 116 Church-street. The deceased has been ill for the past thirteen months, and during that time was unable to leave his bed. The funeral will take place to Prospect Cemetery on Monday afternoon.

At 6.55 this morning a house in the course of erection by James Keating, situated on King-street, 150 feet south of St. Clair-avenue, completely collapsed. The house was 18 feet by 32 feet, two storeys, with attic, and a portion of the roof was already on. The foundation had been weakened by the rain last night. The cause of the collapse was the fact that the foundation was constructed in an unsatisfactory manner in which the foundation was constructed were the causes of the collapse, and now there is more than 3 feet of the structure standing. Mr. Keating will suffer the whole loss, which is estimated at about \$1000. About 10 o'clock last night fire destroyed the barn and contents of the Rossin House farm, near Prospect Cemetery, on St. Clair-avenue. One horse, three cows, sixty chickens, two fowls of hay, two sets of harness, one seed drill and sower were lost. The loss is about \$900. H. W. Fowler, the tenant, will lose about \$400. The building was covered by insurance; the contents were not insured.

For a week past Councillor Armstrong has been under the care of Dr. F. E. B. and not progressing favorably, a specialist was called in. It was decided that he should be taken to the Western Hospital, which was done last evening. Heart trouble is the cause of his illness. He is a very sick man. Dr. Perfect is of the opinion that he will be able to leave the hospital.

A cave-in occurred this morning on the Street Railway tracks in the subway, where the junction road runs into Keel-street. The stream washed a hole in the roadway near one of the sewer manholes about 5 feet square. One of the waterworks valve boxes caved in at the northwest corner of Annette-street and High Park-avenue. This box, being constructed of wood, had become rotten, and the pressure of the water by last night's rain caused it to cave in.

The new steam heating plants installed in Annette-street and Carlton schools have been operating in both schools for the past two weeks and are apparently giving satisfaction.

COULD SCARCELY WALK
A Rheumatic Sufferer Cured by Dr. Williams' Pink Pills.

Rheumatism is rooted in the blood—that is a medical fact every rheumatic sufferer should know. Liniments and outward applications cannot possibly cure rheumatism. They are a waste of money, and while the sufferer is using them the disease is steadily growing worse—is slowly but surely taking a firmer grasp upon the entire system. Rheumatism must be treated through the blood. That is the only way in which the poisonous acid can be driven out of the system, and thus actually make new blood, and thus always cure rheumatism. Every dose of these pills helps to make new rich red blood, which sweeps the poisonous acid from the system, loosens the aching joints and muscles and gives the rheumatic new health free from pain.

Among those who can best witness the truth of these statements is Miss Dorinda Langlois of St. Jerome, Que., who for weary months she suffered from rheumatism and had begun to think she was incurable. "I could not straighten up," says Miss Langlois. "My limbs were almost useless, so stiff were they. For many months I endured such pain as only rheumatic sufferers can understand. Although only thirty years of age the suffering I endured actually made me look like an old woman."

Dr. Williams' Pink Pills never fail to cure rheumatism because they go right to the root of the trouble in the blood. That is why these pills cure all the common ailments due to poor and watery blood, such as anaemia, headache and backaches, indigestion, neuralgia, St. Vitae's dance, general weakness and the distressing irregularities that afflict women and growing girls. If you need a medicine you will save money by taking Dr. Williams' Pink Pills at once. See that the full name, Dr. Williams' Pink Pills for Pale People is printed on the wrapper around every box. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Company, Brockville, Ont.

WOULDN'T WEAKEN CHURCH
TO STRENGTHEN COLLEGE

Objection Taken to Removal of Rev. Dr. Gilmour to Join McMaster Faculty.

Peterboro, Oct. 19.—(Special.)—Today was education day at the Baptist convention, and most encouraging reports were presented. Rev. J. C. Sycamore of Hamilton presented the annual statement of The Canadian Baptist and the book room department, and Rev. T. B. Brown of Sherbrooke the report on the Grande Ligne Mission.

Chancellor A. C. MacKay of McMaster University this afternoon gave the report of the senate and board of grounds of McMaster University.

Rev. Canon Davidson, president of the Peterboro Ministerial Association, conveyed greeting on behalf of that body. Canon Davidson spoke strongly in favor of church union, but with each body retaining its distinctive heritages. Rev. Dr. Cameron of Ottawa reported and a resolution was carried by the convention to the effect that it would cheerfully join in the cultivation of the spirit of union that would lead those who were without to exclaim, "See how these denominations love one another."

Chancellor MacKay's report showed the enrollment at McMaster for the past year to have been 153 in arts and 41 in theology. At Woodstock College there were 159 students, and at Mount St. Charles College, 156, making a total of 561 for the university. Eighteen students were pursuing the M.A. course, and four the course for B.D. The enrollment at Woodstock College was the largest since it became a boys' school. Thirteen of the graduating class of 37 would go to McMaster University. The library now had 15,200 volumes.

Financial Statements.
The amount pledged toward the forward movement during the year is \$30,545.96, and the total amount subscribed in two years is \$75,094.96. The total amount of cash received in the fund so far is \$32,781. Subscriptions towards the new science hall of McMaster University are \$20,805. The building will be ready for occupation in January next.

The treasurer's report of the receipts and disbursements in current account of the year 1905-06 showed the receipts to be \$92,246.56, and disbursements \$89,687.70. The balance at credit of current account as shown in the treasurer's report, including a former balance, is \$2,558.86. The amount of the education fund transferred to the board of governors is \$4055.33. Rev. S. S. Bates of St. Catharines seconded the report.

G. Bentley of Montreal objected to the method of the board of governors in securing members for the faculty. He cited Rev. Dr. Gilmour of Orléans, Quebec, whose removal would be a great setback to the congregation. He did not believe in sacrificing the church for the university. Chancellor MacKay denied that the board of governors had begged Dr. Gilmour to go to Toronto. The report was finally adopted.

The board of governors elected to the board of governors of ministers' movements: S. J. Moore, Toronto; Hon. John Dryden, Toronto; C. Cook, Brantford, and Rev. S. S. Bates, St. Catharines.

Alumni Dinner.
The fourth annual banquet of McMaster University Alumni Association was held this evening, and was largely attended. Chancellor MacKay spoke strongly on behalf of the establishment of a medical faculty in connection with McMaster University. He also stated that he had never known a graduating class to leave the university without every member being a Christian. Rev. A. L. Therrien, of Montreal, expressed the hope that McMaster would soon have a French-Canadian professor.

The delegates will be taken for a trip over the Lift Lock to-morrow afternoon.

FEEBLE-MINDED CHILDREN.
To Receive Attention of Local Council of Women.

Mrs. McNaughton of Montreal addressed the Toronto executive of the local council of women in the Canadian Institute yesterday upon the work which the Montreal branch have in contemplation for the coming season as well as what they had accomplished in the past year.

The Montreal branch have undertaken, she said, the matter of medical inspection of school children, and had already secured a grant from the municipality of several thousand dollars, for the treatment of feeble-minded children.

She advised the Toronto branch to take up this work, giving a statement of the vast number of mentally weak children which an investigation had discovered in Montreal, and the percentage which appeared almost incredible.

The local council were much impressed, and decided to make the subject one of their special considerations together with the prevention and suppression of tuberculosis, for which they advocate sanitariums.

Specialists will be invited to lecture on this subject at various meetings before definite steps will be taken.
