## MOORE'S

### INDO-CYCLON

### IS THE BRIGADE WORKED?

Do Men Who Do Not Come Up to the Standard Get Positions as Firemen?

### ALD. SPENCE IS AFTER SOMETHING.

### Mayor John Shaw Will Move into the New City Hall at 7 a.m. To-Day.

Ald. Spence's friends have been telling him things about the Fire Department, and as a result, he has forwarded the following enquiries to City Clerk Blevins, requiring an answer by Monday's Council:

Have there been appointed to service in the Fire Department since the adoption, in 1897, of the rules at present governing the force, any man or men not up to the full standard of height and other physical requirements of the said rules?

Has any man been so appointed who was not certified to by the Medical Health Officer as being fully up to the standard of said requirements?

If any such appointments have been made, what is the reason given for making them?

Have any men been appointed to the brigade since the enactment of the said rules who have not been received as entitled to benefits of the Firemen's Benefit Fund?

Ald. Spence, when seen, did not know of any particular parties or could not locate any definite system of pull. But he believed it very unfair to the City, the Council, the Fire Department, and the Firemen's fund, if such appointments had been made. The questions will be forwarded to the chief or the secretary.

Secretary McGowan of the Fire Department recollects no case of a man admitted to the brigade without examination by the Medical Health Officer. But there were three admitted under height. Of these, two were so strongly recommended by the Medical Health Officer that he could not refuse them. The third was a man who was recommended by the Medical Health Officer on the ground that he had proved under the contract system a valuable man.

### Mayor Moves To-Day.

The Mayor has not yielded one iota, and in spite of protestations, will move up to the new City Hall at the midnight hour of 7 a.m. to-day. It is thought that he will continue his business operations up to the hour of moving, and that he will continue to do business at the old stand during forenoon. The Mayor's move will do his best to obey the behest to move next week, although many of the officials are warning about the inconvenience and disadvantages to which they will be subjected. The men in the Waterworks department are particularly outspoken against shifting. They claim that they cannot, on account of the straggling payments in water rates and through lack of vaults, go into the land of promise before September at least. The City Engineer and City Clerk both fear they will be upended by the end of this month. The business of the Street Commissioner's office cannot be done very handsily in the new building, but the commissioner is ready to go when ordered. The City Engineer and Assessment Commissioner are in like position. It is probable that there will be some inquisitive talk at the meeting of the Board of Control, called to-day, and also at Council on Monday.

### Another Sewn-Up in Prospect.

The resuscitation of Victoria square was talked over considerably yesterday. One thing seems patent, and that is that it will take a deal of negotiating by Mr. Boyle before the cost can be got down within any reasonable radius from what it will cost if the Mayor had gone on with it 18 months ago, when the subject was first before him. It might be well also to warn Chairman Scott to begin by getting a recommendation from some civic official, lest the Mayor should use his High Park money as precedent to defeat the scheme at the home stretch. By the Mayor's ruling in this case, all local improvement schemes must be so recommended, and must go through the proper committee channel before Council is empowered to pass it. The proper officer to make such recommendation would be the Assessment Commissioner. But Mr. Fleming formerly recommended against it, and would do so again if asked for a report. Thus, it looks as though another improvement project, though generally endorsed, is undergoing the sewing-up process prevalent at the City Hall.

## DR. C. T. SANDEN

Reader, do you realize that while you have been patiently waiting for something to turn up I have cured permanently thousands of men who were weak from effects of youthful folly or later excesses? I have sent them on their way rejoicing. How about you? Why don't you listen to reason? Over 6000 gave voluntary testimonial during 1898 to the merits of the

### DR. SANDEN ELECTRIC BELT,

with special attachment for weak men. You wear it all night. It sends a pleasant strengthening current through weakened parts while you sleep and cures permanently in 60 to 90 days.

### FREE BOOK

Write to-day for my free book, which explains all, sent in plain sealed envelope—or drop in at my office and consult me free of charge. Remember, there is but one genuine ELECTRIC BELT, and that is the Sanden, protected by U.S. and foreign patents. Beware of swindling quacks with their "Free Trial" offers. They always want a deposit in advance, which is never returned.

### DR. C. T. SANDEN, 140 Yonge St., Toronto.

Office Hours 9 to 6.

### A LACK OF PREPARATION.

## Peace Conference Can Make No Headway Owing to the Absence of Details.

### RUSSIA TRYING TO GET ON TOP.

#### British and American Proposals Are Definite, But the Others Are Behind.

London, May 26.—All the despatches to the morning papers from The Hague show that the Peace Conference is starting from a lack of preparation. The Muraviev circular contains heads and chapters, but no details. Its author emphasized disarmament, but slighted arbitration. M. de Staal, in opening the conference, absolutely reversed this order. What is wanted is something for daily work and peace.

The Daily News says: "The British and American proposals, though simple, are more practicable than the scheme of M. de Maerens, of the Russian delegation, and it is likely that France and Russia, and even Germany, will ultimately agree with them."

**Serious Differences.**

The correspondent of The Daily Telegraph at The Hague says: "Serious differences of opinion have been manifested between the United States representatives and those of certain powers on the subject of the seizure of private property at sea. The Americans insist upon the discussion, agreeing to abide by the voice of a majority in the decision, but they will not have the matter ruled out of court. They say: 'We, a sovereign power, came here to discuss matters not in Count Muraviev's circular, but in that of the Dutch Minister. We were not invited by Russia, but by the Dutch. M. de Beaufort's circular mentioned Muraviev's circular, and also upon certain other issues of which this is the subject. Therefore, we must throw it out.' I hear to-night that, in order to prevent a misunderstanding, the Americans will be allowed their way."

### LAW OF WARFARE.

Both sections of the Committee met and discussed Leading Details.

The Hague, May 26.—Both sections of the Committee on the Law of Warfare of the Peace Conference met separately yesterday and began the examination of the subject submitted to them. The first section, discussing paragraph 5 and paragraph 6 of the circular of Count Muraviev, Russian Minister of Foreign Affairs, and the Brussels Conference section discussing paragraph 7.

Both sections met subsequently and discussed the question of competence, as regards the scheme for the revision of the Geneva Convention, known as the Morgner scheme. The Morgner scheme comprises in connection with wounded and sick prisoners, members of the military hospital service, for the wounded and sick, ambulances, hospitals, property belonging to neutralized persons, religious and medical staff, and kindred subjects. The scheme applies equally to land and sea warfare. It was proposed to submit the scheme to a committee for revision, and the question was then raised whether the conference was competent to deal with the matter.

### Must Stick to the Program.

Those who took a negative view argued that the conference had decided in principle, and all the Governments represented agreed that nothing should be submitted to the conference beyond the eight points in the circular of Count Muraviev. They contended that if the conference once infringed this rule, a precedent would be created leading to numerous difficulties, including the proposal of the Russian plenipotentiary, M. de Maerens, and similar questions upon the conference. It was agreed that the proposal to refer to the Morgner scheme dealt mostly with the wounded and with hospitals, it would be impossible to discuss the proposed modifications effectively without the co-operation of doctors, who alone would be capable of deciding many of the points in issue. As a matter of fact, there is no man of medical training among the delegates. The committee finally adjourned without reaching a decision.

### The Y. W. C. Guild.

The regular monthly meeting of the White Shield Circle will be held this evening at 8 o'clock. Miss Edith Murray, president of the City Union, will address the meeting.

On Sunday afternoon at 4:15 the Gospel service will be of a missionary character, and will be addressed by Mr. H. W. Frost of the China Inland Mission. All young women are most cordially invited to attend. The Island cottage of the Guild, will be opened for the season with a reception to members and friends.

### Historical Exhibition.

A meeting of the two committees in connection with the historical exhibition was held on Friday morning at Victoria College. The attendance was large. A number of entries forms were handed in. All forms not yet sent to the honorary secretary should be returned at once, as the catalog is to be made up and in the printers' hands by Monday. Labels will be sent to those intending to exhibit to be placed on each article loaned and on outside packages, marked, C.O.P. A general meeting of the Exhibition Committee will be held on Tuesday at 4 p.m. at the Wesley Building, West Richmond-street.

## THE DAWN OF A NEW ERA

For humanity has come with the advent of

# 'TEROPHINE'

The mind of our race has made many strides since the days of St. Paul. Grouping through the darkness of the ages man over to reason, science and intellect that is best in nature—in the dark days of olden times and modern times, and women suffering from the unpleasant odor and discomfort arising from perspiration under the armpits, etc., producing in turn irritation and skin diseases, and making a miserable life. An absolute cure for the above is to be found in a few applications of 'TEROPHINE', a liquid preparation for sale by all druggists, or on receipt of price, 25c, to

### RUSSIAN BARBARISM.

#### Finland Parliament Are Discussing Measures—Proclamations Issued Which Will Make Trouble.

Helsinki, Finland, May 26.—The Finnish Diet, after a protracted discussion over the new military law, is discussing a General Convention, known as the Morgner scheme. The Morgner scheme comprises in connection with wounded and sick prisoners, members of the military hospital service, for the wounded and sick, ambulances, hospitals, property belonging to neutralized persons, religious and medical staff, and kindred subjects. The scheme applies equally to land and sea warfare. It was proposed to submit the scheme to a committee for revision, and the question was then raised whether the conference was competent to deal with the matter.

### TWO MEN KILLED

#### By Explosion of a Steam Drying Cylinder at Philadelphia.

Philadelphia, May 26.—One man was instantly killed and another so badly injured that he died in a hospital this morning by the explosion of a steam drying cylinder in the dyeing and finishing mill of James Martin & Company. Three others were injured, one probably fatally. The side walls and some of the partitions were blown out by the force of the explosion. The loss on the building and machinery is estimated at \$10,000.

### Up Before the Magistrate.

George Frail was sent to the Central Prison yesterday for six months on a charge of vagrancy. It was shown that a woman supplied him by keeping a house of ill-fame.

Michael McGarry was committed for trial on a charge of stealing two cheques, the property of William Woods of Weston.

Bugler J. C. Notley of Stanley Barracks was remanded till Monday on a charge of criminal mischief. The alleged offence was committed on Wednesday night.

Thomas Murphy went down for 30 days for being out of the street.

Lizzie Lazzard, charged with vagrancy, was released.

John Mullen was convicted of a like offence and was sentenced to 10 days in jail.

Joseph Terry was charged with disorderly conduct and assaulting the police. Terry's head gave every evidence of having received several blows from the policeman's baton. Terry swore that the policeman had struck him five times before he kicked the officer. The case was then adjourned till Tuesday to obtain the presence of two witnesses.

### New Boat Service to Montreal.

Commencing next week, the fine side-wheel steamer Hamilton of the Richelieu and Ontario Navigation Company will be joined on her route between Hamilton, Bay of Quinte, Thousand Islands and Montreal, leaving Hamilton Mondays at noon, and Toronto at 6 p.m., and the Algonquin Thursdays at 10 a.m. The steamer Algonquin has been thoroughly overhauled for the season, and will, no doubt, be as popular with the travelling public as her sister ship, the Hamilton.

These boats are steam heated and electric lighted, and have every convenience for passengers.

Freight shipments will be given quick despatch. For tickets, staterooms, and full information apply to J. F. Polan, 2 King-street east, and for freight to D. Milroy & Co., Yonge-street Wharf.

### Case Not Dismissed.

In a delayed action in which the Stanley Piano Company sued C. B. Thomson and A. Marley & Co., concerning a piano sale, the plaintiffs wished a perpetual injunction to restrain the defendants from making an alleged infringement. Yesterday counsel asked that the case be dismissed. The request was refused.

### Will Make Connections.

The Commercial Travelers' Association has arranged with the G.T.T. Company that a special train will leave Toronto at 7.45 on Monday morning, arriving at Stratford at 9.30, which is in plenty of time to make connections with the trains at the distributing point.
