"We must not place too much confidence in ourselves or even think that the victory will be ours. Everyone must work to the last minute before October 20. We have the Liberty League to contend with, and it is this league that is putting false ideas into the minds of the public, Mr. McCullough asserted. This league is trying to tell the public that if the vote goes against prohibition the bars will not be reopened. I wish to impress into the mind of every person that should the Ontario Temperance Act be repealed, it means that Ontario will have the Open bar and all its evils.

Everyone has heard of the Marmola Prescription; that harmless combination of fatdefying elements discovered by one of our foremost physicians. Now, from the same high authority, there comes another idea—the idea of condensing these same pure, harmless ingredients into a pleasant little tablet. Taken after eating and at bedtime, they help the stomach to dispose of all the fatty foods, converting them into compact, solid flesh, muscle and energy, without dieting or exercise. Marmola Prescription Tablets regulate the entire system—do for you what bodily exertion and self-denial cannot do, and the fat, once routed, is gone for good. A pretty sight greeted the shopper this morning who paid a call on the market about 10 a.m. It was merely another shopper carrying away her purchases, but she was not dressed in silks and satins, neither did she leave in a car. Her head was entirely bare of any covering, and her blouse was white, upon the shoulders of which perched two great live hens of the Rhode Island Red variety, contrasting vividly with the white of her blouse and the jet black of her hair. Every now and then her live freight would flap their wings and utter wierd noises in her ear, but she passed along unconscious of observers, carrying other good things in a huge basket at her side. She appeared to be one of the daughters of sunny Italy and for a moment the traveled few, who happened near, could picture again the market stalls in European lands.

Waterloo, and Dr. J. S. Honsberger of Kitchener.

When Mr. Snyder came to the platform it was several minutes before he could address the meeting, so great was the ovation in his favor. After it died down, Mr. Snyder declared that he found himself in an unsought position. Everyone connected with the organization should feel proud to fight for tike principles for which the Liberal party worked. Referring to the numerout candidates already in the field in North Waterloo, he stated that since the riding was one of such varied interests, it would be a mistake for the electors to select one who represented a particular class.

Commenting on the presence of so many ladies, he pointed to the fact that the Liberals had fought through session after session in an effort to obtain suffrage for women, and he stated that it was only after forced by public opinion that the Conservative party finally granted what the Liberals had been fighting for for many years.

In concluding he stated that he was assured that the Liberal platform was broad enough for all to stand on and asked for genuine helpful support from those present. There were close to 200 persons at the convention.

Before the nominations the following executive was unanimously selected: President, Josiah Stauffor: secretary, J. C. Haight, Kitchener; vice-presidents, Mrs. J. A. Hilliard, H. J. Sims, A. E. Rubell, I. Master, E. G. Stuching.
