APPLICATIONS OF ALL CANADIAN RAILWAY COMPANIES FOR HIGHER RATES TO BE HEARD ON AUGUST 3

Government Body Will Decide Whether the Transportation Lines of Dominion Are Justified in Asking for Authority To Advance Freight Charges-Threatened Increase in Railway Employees' Wages Would Necessitate Higher Freight Rates.

[Special to The Advertiser.]

Canada have filed applications with the board of railway commissioners for a general increase in freight rates. The board will hear the case at Ottawa on August 3, and all parties interested will be forced to come to the capital, for there will be no hearings elsewhere. In the past four years there have been two Increases of 25 per cent and the second of 15 per cent. The total on all commodities, however, only averaged about 20 per c.nt. It is presumed that since the increase in wages on American roads is threatened. If it goes into effect a similar increase will almost be increase in question has been in force its inequalities have been pretty well ironed out. The question now before the board is a fairly simple one. It is whether the railroads need an increase, and how much.

"What is your attitude towards the Government?" was the next question put to the member for Windsor,

"At first," he replied, "I was not expecting much from the Farmer-Labor group. They, representing two distinct classes, might naturally lean toward legislation which would be for their special interests. However, as time went on. I was impressed with the fact that they were working to deal fairly with all classes and conditions of our country, with special benefits to none. Mr. Dewart has always claimed that the farmers stole our policy, and if that is true it is our duty to assist them so far as we can in putting it into force I think any fairminded man if that is true it is our duty to assist them so far as we can in putting it into force. I think any fairminded man will have little to criticize in the legislation of the last session. What assistance we may give will be, of course, as Liberals, and only so far as their acts embody the spirit of true Liberalism."

The board is also considering the prohibition of the bunkering at any Atlantic port, excepting Sydney, of steamships crossing the Atlantic, with the exception of passenger steamships.

By the above regulations it is anticipated that some 50,000 tons of bituminous coal per month can be brought from Nova Scotia to Montreal and St. Lawrence points. It is also anticipated that large quantities of American coal now used for bunkering at Montreal will be released for domestic and industrial purposes.

The board of railway commissioners was vested with the function of fuel control last session. In the United States the interstate commerce commission has control, and has in addition to prohibiting exports from Atlantic ports to Europe established a strict system of priorities.

PRESENT GOVERNMENT HAS NO MORAL RIGHT TO RETAIN OFFICE

Ottawa July 14 - The Ottawa Citizen says in part The new cabinet is announced, with Mr. Arthur Meighen as prime minister. What mandate has the Government received from the people of Canada? This Government has no mandate. Until it has been indorsed by the electorate in a general election it has no moral right to rule over the Canadian people. 'It is merely trifling with the principle of responsible government to

talk of by-elections. Ten cabinet ministers have gone since Sir Robert Borden formed Union Government for war purposes in 1917. "Canada is now being ruled by a new government, calling itself the Government of the National Liberal and Conservative Party. The people have not been consulted in the matter, any more than the people of Russia were consulted when Messrs. Lenine and Trotzky set up the dictatorship of the proletariat in Moscow. Canada's latest rulers have simply assumed power under the premiership of Mr. Arthur Meighen.

"A statement is due from Mr. Meighen. The people of Canada are entitled to know when they are to be consulted. This statement of the date of the general election should have been made simultaneously with the announcement of the new cabinet. Until the general election is announced Canada is being ruled by caucus dictatorship, which differs only in degree from soviet dictatorship.'
