### ALDERMEN ARE MAD.

Kingston Council Passes Resolution Demanding Retraction by Principal.

KINGSTON, Jan. 21.—Members of the city council are hot over remarks made by Principal W. G. Ellis of the College of Education in an address on "Honourable Citizenship." He is reported to have said men got into council to manage thousands of dollars who could not manage a \$500 grocery.

A resolution was solemnly passed in council calling on the board of education to demand an explanation and public retraction.

### RAILROADS BREAK FAITH.

DENVER, Jan. 21.—Murdo McKenzie, president of the American National Live Stock Association, delivered his annual address at today's session of the annual convention.

He charged that the railroads had broken faith with shippers of live stock by taking selfish advantage of the change in the hours in transit law which, thru the efforts of the American National Live Stock Association, were increased between 24 to 36 hours at the maximum time during which live stock could be kept in water and rest. He said that the railroads, instead of increasing their speed rates, so that the destination was reached more quickly than formerly, as promised, feeding stations which delayed the arrival of shipments at the point of consignments, with consequent great loss to the shippers.

President McKenzie touched on the rate question and stated that he believed the interstate commerce commission should be given authority to decide whether an advance in rates was just, before such advance could be put into effect.

Town Council Make Yonge St. Fire Limit—Auditors Appointed.

NORTH TORONTO, Jan. 21.—At the town council meeting to-night the recommendation of the board of works committee for a snow-clearing bylaw was discussed at considerable length. Mayor Fisher and Councillor Douglas opposed the idea, while Councillor Hoggins, in support of the recommendation rather radical. He thought the town should make provision to have the permanent sidewalks cleaned from snow as the snow plow is not doing the work properly.

The clauses adopted were that tenders be accepted for gravel, for the construction of tar and gravel sidewalks, and that the engineer keep a retainer of 10 per cent, for two years on all sidewalk contracts rather than a five per cent retainer for five years.

The dispute with the Excelsior Paving Co. re sidewalks on Kensington-avenue was referred to the engineer. The recommendation of the water, fire and light committee to set apart Yonge-street as a fire limit was adopted by the council and a bylaw will be prepared.

The finance committee recommended that the clerk-treasurer receive an increase in salary of \$200 per year, making it \$1200.

## THE TORONTO WORLD.

### Plain Talk From the Doctor

A prominent physician, famous for his success in the treatment of kidney and bladder troubles, stated that to the following prescription is due a great deal of his success:

One ounce fluid extract of dandelion.  
One ounce compound salutarin.  
Four ounces compound syrup sarsaparilla.  
Mix and take a teaspoonful after meals and at bedtime, drinking plenty of water.  
This mixture will be especially positively effective in cases arising from weak, clogged or inactive kidneys, and will assist these organs to cleanse the blood of the poisonous waste matter and acids, which, if allowed to remain, cause lameness, back rheumatism and sciatica, and at the same time will restore the kidneys to health. Normal action. The ingredients, which are purely vegetable and entirely harmless, can be procured from any good druggist and mixed at home at very little cost.  
This advice will undoubtedly be much appreciated by many readers.
