FELL DOWN STAIRS WITH CHILD

The following testimonial proves once again the superiority of "Nature's Healing Balm," Zam-Buk. Mrs. L. Spalding of 505 Erie St., Stratford, Ont., says: "Some time back I met with a peculiar accident while descending the stairs with a child in my arms. I slipped, falling heavily on my left arm and elbow, receiving a flesh wound. My arm was inflamed, swollen and very painful. I tried different preparations, but the wound kept discharging and refused to heal. About this time my brother suggested using Zam-Buk. I acted upon his advice. Zam-Buk thoroughly cleaned the wound, stopped all discharging and soothed the pain and in four weeks the wound was nicely healed. I have had perfect use of both elbow and arm ever since and owe this good result to the wonderful healing balm Zam-Buk and would advise others to use nothing else." Zam-Buk cures cuts, bruises, burns, eczema, festering wounds and all skin diseases—of all druggists and stores—see box or postcard from the Zam-Buk Co., Toronto. THE GREAT "FIRST AID"

WAS THROWN OFF CAR.

F. J. Paget Sues Toronto Street Railway for Injuries Received.

The counsel in the action of Francis John Paget, who is suing the Toronto Railway Company for unstated damages for injuries received by being thrown from a street car by a division superintendent on June 29 last, will address the jury this morning, the evidence all being in when the court adjourned last night.

F. J. Paget, a manufacturer's agent, told of his accident. He boarded an eastbound King-street car bound for Scarborough Beach at 8.30 one night last June. The car was crowded and he was forced to stand on the steps. When the conductor came from the fare he told him that he would hand over his fare later on. At the car barns the division superintendent asked about the fare.

"I told him," said the witness, "I could not reach my pocket and keep my feet and would pay the fare when the crowd thinned out. I have ridden on this line for eighteen years and should have been recognized. The superintendent did not wait, but promptly pushed him off the car. Witness claimed that he fell on the road way with the superintendent on top of him. The superintendent then waved the car to proceed. Paget had his left leg broken and knee knocked off. His medical bills totalled \$254.50.

Witness admitted that he had two drinks, but denied being under the influence of liquor. "Do you remember," asked Mr. McCarthy for the company, "whether the conductor spoke to you at Church-street and told you to get off the foot-board?"

"I am sure he did not. He said 'Get inside or get off.' I tried to squeeze myself into several compartments and I could not get in. I said to the conductor, 'I cannot get off, and he returned 'Get in or get off.'"

"You didn't tell the conductor you would be a— if you would?" "I did not," answered Mr. Paget. "He did not threaten to call a policeman. I offered him my fare and he would not take it."

Charles Hodgins, a passenger, corroborated the evidence Paget gave. W. G. Pearce, the conductor, said that he warned Paget not to stand on the steps as it was against the rules of the company.

Questioned by T. H. Lennox, who appeared for the plaintiff, the conductor admitted that the open street cars often carried 145 passengers when the seat capacity was eighty-five.

W. H. Argue, division superintendent, told of taking Paget off the car. He thought Paget was under the influence of liquor, and claimed that when getting off the car he jumped from the top step, lunged forward and fell on his knee, causing the injury.

A Great Doctor Speaks of a Great Remedy

Dr. Williams' Pink Pills Strongly Endorsed by One of the World's Greatest Doctors—Hope for the Sick.

Dr. Williams' Pink Pills for Pale People is the only advertised medicine in the world that has had the public endorsement of a doctor of world-wide reputation. Such an endorsement stamps this medicine as being worthy of the confidence of every person who is sick or ailing. A great doctor would not risk his reputation unless he was absolutely confident, through personal knowledge, that Dr. Williams' Pink Pills will do what is claimed for them. Dr. Giuseppe Lipponi, one of the greatest physicians of modern times, writes the following strong letter in favor of Dr. Williams' Pink Pills: "I certify that I have tried Dr. Williams' Pink Pills in four cases, of the simple anaemia of development. After a few weeks of treatment, the result came fully up to my expectations. For that reason I shall not fail in future to extend the use of this laudable preparation, not only in the treatment of other morbid forms of the category of anaemia or chlorosis, but also in cases of neurasthenia and the like."

(Signed) DR. GIUSEPPE LIPPONI.

Via Del Gracchi 322, Rome.

The "simple anaemia of development" referred to by Dr. Lipponi is of course that tired, languid condition of young girls whose development to womanhood is tardy, and whose health, at the period of that development, is so often imperilled. His opinion of the value of Dr. Williams' Pink Pills at that time is the highest scientific authority, and it confirms the many published cases in which anaemia and other diseases of the blood, as well as nervous diseases, have been cured by these pills, which it need hardly be mentioned, owe their efficacy to their power of making blood, and thus acting directly upon the digestive and nervous system. In all cases of anaemia, decoloration of the blood, indigestion, dizziness, bad blood, and all affections of the nerves, as St. Vitus' dance, paralysis and locomotor ataxia, they are recommended to the public with all the greater confidence because they have the strong endorsement of this great physician.

Elite of Vancouver Island Turned Out to Celebrate Important Event.

VICTORIA, B.C., Jan. 22.—There was a host of melody and light in Victoria to-night when the opening of the new C.P.R. hotel was celebrated. The grand Cascades towering to Mount Baker, and the shadowy Rainier snow capped, with a sweep of waterway leading to the grand old Pacific beyond, whose beating surface, like a heart throbs comes back on the night winds.

Robt. Avery Dies Suddenly. MAILLOTTOWN, Jan. 24.—Robert Avery, a prosperous farmer and businessman for the Union Cheese Company of this village, died suddenly today of heart failure.

A wide, old-fashioned fireplace supports a solid brass figure of a peacock with tail outspread, and various screens carrying out the same design of making window curtains bear the blue and green imprint.

Brass urns with native ferns are distributed about this vast apartment, which seats 250 guests at tables under candelabra of some 200 brilliant lights. A resident orchestra adds harmony to the charming effects here found.

Just off this opens the palm garden and interior grove of green. Nothing more lovely found outside the Italian villas of the Alps. Above the tessellated floor, rising to a central dome of colored glass, illuminated by clustering lights which throw out the shadowy branches of the palms below, a central palm weighing one and one-half tons has been placed at intervals for those desiring to sit and hear the dreamy strains of "Il Trovatore."

One can scarcely imagine anything more refined and restful than this mimic life and bustle of the business office, like bustling in general, is finished in weather oak. Safes, cash registers, a telephone and a stenographer are provided for guests. Thought and invention is not, however, exhausted here, for a glance in the first-floor-up basement, and the hotel liquor stores are found in a grape-arched enclosure. Bacchus himself might reign here in supreme delights. Glittering glass is reflected in handsome mirrors set in angles in the shelved walls, and that shows the perfection of practical equipment. Here the hotel liquor stores are found in a grape-arched enclosure.

The various wines and moral well-being.

At a meeting of the Canadian Purification Association last night, the stand was taken, in view of the fact that the organization believes the traffic in liquor to be against its objects, that it would be in the interests of Canada to have liquor abolished from the land, and that the proposed reduction of licenses in Toronto should be voted on by the citizens.

The association also commended the action of Dr. Hunter at the board of education in urging the necessity of having instruction given in the city schools on matters relating to physical and moral well-being.
