

August Fur Showing

Our showing of furs and fur garments must appeal to you as one of the real novel sights of the city. The fact, too, that summer is on the wane should tempt you to visit us.

Stylish, dressy costumes for the coming winter—designs for 1909 in rare and costly furs or in the beautiful native furs, which in Canada cost only half as much as elsewhere.

We can sell you anything from a pair of Indian Slippers at 75c to a coat of Royal Canadian Mink at \$1200.

Even if you don't intend to buy, call and put yourself in touch with the coming styles. Send in your furs for altering and repairs.

The W. & D. Dineen Co., Limited

SCARBORO FARMERS HAVE EXCITING RACE

Big New Barn Goes Up Near Ellesmere—Church School at Weston—Suburban News.

ELLESMEERE, Aug. 10.—(Special.)—It is not every day that Scarborough Township (Banner district) the claims to be in all respects such a recently successful barn raising as that which took place on the farm of William Muro, one mile west of this village, on Saturday afternoon.

Weather conditions were perfect, the material for the erection of the building had been framed under the oversight of Contractor Horace Thompson, himself an expert, and the men, numbering in all about 150 of Scarborough's best farmers, young and old, congregated altogether a happy combination.

W. H. Patterson and Will Doherty, old-time rivals in the selection and erection of stables, were chosen captains, and, cheered on by the presence of a fair bevy of ladies, the race was begun. At 5:30 the last rafter was placed in position, and with less than 30 seconds of a margin the Patterson clan were declared the winners. In his enthusiasm Archie Patterson threw the "commander" (not the captain) from the top of the 32-foot pulpit plate, while "Geordie" Scott forgot to slip down the rope, or the result might have been different. But it was a fine race, and following its close the workers and their lady friends were photographed. Mr. Nimmo provided a bountiful repast, which was served on the lawn.

The new barn, 50x30 feet, with 32 feet pulpit, and a cellar stable the full size of the building, with cement floor and standing, when finished, nine feet clear, is a marvel of thorough workmanship in every detail, and reflects the highest credit on the Thompson Brothers, who performed both the cement and carpenter work. Mr. Patterson stated that they had never seen a higher class of cement work in any building.

Coming to Canada from Scotland in 1888, employed for five years with one Scarborough farmer and seven years with another, subsequently renting a farm until the purchase of the Armstrong farm less than a year and already erecting the present fine barn, Mr. Patterson is a worthy type of the farmer, industrious men who have made this township what it is to-day.

Among others present as guests were Simpson, Rev. Alex. Baker and Mrs. Joseph Tingle, Wallace Thompson, Reeves, W. D. Annis, Deputy W. H. Patterson and Councilors Ormerod, Green and Law.

On the completion of the new building a big barn party will be held, under the auspices of the Ellesmere farm ball team, locally known as the "Whole Country" and will be invited.

NORTH TORONTO.
St. Clement's People Put in Another Good Day's Work.
NORTH TORONTO, Aug. 9.—The garden party, given under the auspices of the Epworth League of the Epworth Methodist Church, on Saturday evening, was an enjoyable affair. A splendid supper was served during the afternoon and a fine orchestra was in attendance. The pastor, Rev. G. W. Robinson, presided. Among the artists who took part were: Miss Whaley, Mrs. Joseph Jones, Miss Brown, Mr. Flavelle, Mr. Graham, the Davisville Quartet, consisting of Messrs. Doan, Hinchliff, Crowhurst and Macdonald. The quartet sang "The English Church Mission Building" on Bowdoin Avenue, Bedford-road, and "The English Church Mission Building" on Bowdoin Avenue, Bedford-road. The performance was greeted with a burst of cheers from a small number of people invited to view the experiment.

Wright was warmly congratulated by all the spectators, including a few French aviators, two Russian army officers and a number of other experts.

BARCELONA, Aug. 9.—Juan Rull, author of the recent anarchist outrages here, was executed at noon Saturday. He confessed his crimes, received holy communion from a priest, and died calmly.

Rull's mother and brother, who also were condemned to death when he was sentenced, have been reprieved.

Carroll Safe.
WOODSTOCK, N.B., Aug. 9.—(Special.)—F. B. Carroll, M.P., was chosen by the Liberals of Carleton County on Saturday as their candidate for the federal house.

politan Bank, who has always had unbounded faith in the project, has entrusted everybody also, and with the completion of the building, coupled with the very indifferent accommodation furnished the farmers in the city. East Toronto market will be a success from the start.

Chief Tidberry rounded up a number of cases before Police Magistrate Clay on Saturday, among others W. H. Russell, who was charged with the theft of chickens in December last, but later skipped out and only recently returned and was nabbed. He got 30 days in jail, W. Casson for the theft of a dog, had to pay \$1 and costs.

Town council meets on Monday night, Mr. and Mrs. F. M. Baker and family returned during the week from a fortnight's trip to Sparrow Lake in Muskoka. The worthy councillor from ward one reports the fishing in Sparrow Lake as being exceptionally good, fine bass and "lunks" being caught in great quantities.

Good progress is being made on the roadways in town, Main-street and Denforth-avenue having received a coating of broken stone for quite a distance.

Fred Murch's new drug store on the corner of Main-street and Kingston-road, a fine brick structure, is rapidly nearing completion.

One of the finest fields of corn to be seen anywhere is located just on the northern limit of the town on Denforth Park Farm. The field covers a large one, some 12 or 14 acres, and the growth remarkably luxuriant.

WESTON.
Erection of New Cathedral School Big Thing for Weston.

WESTON, Aug. 9.—(Special.)—The plans for the building of St. Alban's Cathedral School have been finally accepted, and the work will be started at once, so that by Sept. 1, 1909, the school will be erected on the outskirts of the village, and ready to receive pupils. Those in charge have taken good care to secure ample grounds in the 21 acres purchased, while the amount it is proposed to expend, \$25,000, will erect a commodious building.

The new grounds, lying directly north of the village between the Humber and the Weston-road, and running back to the river, with a level east of 8 acres, which will be used as athletic grounds, is surely an ideal location. The new building will be 115x80 feet, four stories high, besides the basement will accommodate 60 boarders and embody every modern feature.

A SUMMER IDYL.
The Story of What Happened on the Verandah—And Elsewhere.

They sat on the verandah. He was a piano teacher, a proof that he was a man of sentiment, though not necessarily sentimental. She was his favorite pupil with ability and temperament. The fact that the moon was shining is mentioned simply as an incidental occurrence and not because it has anything to do with the story. Suddenly from the drawing room came the strains of the Mendelssohn Rondo until the composition which the girl played when she captured a medal at the closing. Teacher and pupil listened. His fanciful musical emporium was set forth with a crispness and touch and surety of utterance which awakened the attention of the teacher. The tempo was correct, the phrasing intelligent and the expression musical. Best of all the accentuation was carefully marked and all in all the performance was that of a virtuoso. The teacher was amazed. He wanted explanations. The girl smiled and led him to the drawing room. There was Tommie, aged fourteen, an intellectual but non-technical brother of the pupil, playing the music on the Goursley-Angelus. The finest pianistic piano-player united to the finest Canadian piano made a combination to stir the soul of an eminent musician. There was nothing mechanical about the playing. The reason for this lay in the phrasing itself, which is a marvelous contrivance. Like the violinist it has the enormous possibilities. Go to the Yonge-street warehouses of the firm of Goursley, Winter & Leeming and see the Goursley-Angelus. It stands investigation.

VICTORY OF THE CROSS.
Rev. Thomas Bell Concludes His Services at Bond St. Congregational.

Rev. Thomas E. Bell, one of Lincoln's body guard, concluded a series of services in Bond-street Congregational Church last night before a fair sized summer congregation.

It was his fourth service and it had been a personal delight to him to be come acquainted with some of God's saints, he said, who he did not previously know. He hoped they would all meet in the Land of the Living. Some of them had asked a Gaker if they would know each other in heaven, and he replied that they would unless they were bigger fools than they were here.

Mr. Bell concluded the sermon he began last Sunday evening from the text in Revelation vi. 2: "And a crown was given Him, and He went forth conquering and to conquer."

The victory of the cross was wrought in the hearts and minds of all mankind. Jesus said if He were lifted up He would draw all men unto Him. In this it was a kindly and benevolent victory.

He deprecated the revival methods, which declared to sinners that everything was all arranged for them. All they had to do was just now to believe. Saul, blinded and praying for three days at Damascus, and the publican smiting his breast crying, "God be merciful to me, a sinner" were not following this method. But they gained the fruit of the kindly victory of the cross.

The second aspect of the victory was its unchangeableness. What would mankind do if the stream of man's redemption dried up at the source? The preacher took occasion to doubt the authority of the value of the new theology and asserted that the old theology would stand till the crack of doom.

STIRLING HAS BAD BLAZE DOZEN ARE BURNED OUT

Acetylene Explosion Causes Fire Which Does \$75,000 Damage—Peterboro Firemen Sent For.

STIRLING, Aug. 9.—A disastrous fire occurred here last night at 11:30, caused by the explosion of an acetylene gas outfit in the general store of Fred T. Ward.

The fire quickly spread both ways, and before it was under control the following business places were totally destroyed.

The Bank of Montreal, Rosebush barber shop, Jas. Boldrick, fur store; H. Hadley, jewelry store; John Brown, boots and shoes; Jas. Ralph, furniture store; Cook and Fox, general store; Dr. Zwick's office; Dr. Watt's office; Geo. Reynolds, boots and shoes; T. A. Eggleton, photograph gallery and residence; Mrs. Elliott's residence; Fred T. Ward's store and residence.

For some time it looked as tho the whole town would be swept and Peterboro was wired for help, but it did not arrive until the fire was under control.

The loss is in the neighborhood of \$75,000.

The facilities for fighting fires are primitive, the only appliance, in addition to the large bucket brigade of both sexes, being an old-time hand engine.

Pleton Scourged Too.
PICTON, Aug. 9.—At noon to-day fire broke out in a two-story brick building on Main-street occupied by H. G. McGregor, grocer, and D. J. Goodwin, boots and shoes. McGregor's stock was badly damaged by smoke and water, but the damage to building is small. Goodwin's stock was slightly damaged by smoke.

Toronto Boy's Success in New York.
Charles Stuart Findlay, a former student of Varsity in the early eighties, an employee of The World when it was started in 1880, now a member of the New York bar, official law reporter of the Brooklyn criminal court, and ex-president of the New York Stenographers' Association, is the guest of his sister, Mrs. Kirkwood, East Gerrard-street. He is accompanied by his wife.

Mr. Findlay states that there is at present a buoyant optimism in New York financial circles now that a bumper cotton crop is assured in the south, while corn is a bountiful crop in the middle west states. Every-thing depends on the wheat crop in the northwestern states and Canada to make the horn of plenty overflowing.

ENGLISHMAN'S DESPERATE ATTEMPT AT SUICIDE

Tried to Throw Himself in Front of Grand Trunk Railway Engine.

Clifford Gardiner, 23 years, 142 Oak-street, made a determined attempt to suicide by throwing himself in front of a G.T.R. engine at the foot of Strange-street at 8:30 Saturday night.

He was pulled back by a number of bystanders and turned over to P.C. Francis (190), who took him to the Wilton-avenue station, where he was charged with attempting suicide.

Gardiner, who is a laborer and a married man, would give no reason for his rash act. He had been drinking, but was not intoxicated.

FLIGHT OF AEROPLANE.
Wright's Machine Makes a Successful Flight in France.

LEMANS, France, Aug. 8.—Whitby Wright of Dayton, Ohio, made a flight of from 1-2 to 3-1-2 kilometres with his aeroplane here this afternoon in 1 minute 46 seconds. Throughout the flight Mr. Wright had perfect control of the machine.

No attempt was made for a distance record, the only object of the flight being to try out the aeroplane. While flying through the air Wright demonstrated, or so it appeared to the spectators, that he was absolutely master of the machine, first soaring, then shooting downward, and then mounting again at will, until finally, after completing two circles, he came down easily to earth. The performance was greeted with a burst of cheers from a small number of people invited to view the experiment.

Wright was warmly congratulated by all the spectators, including a few French aviators, two Russian army officers and a number of other experts.

DYING ANARCHIST CONFESSES.
BARCELONA, Aug. 9.—Juan Rull, author of the recent anarchist outrages here, was executed at noon Saturday. He confessed his crimes, received holy communion from a priest, and died calmly.

Rull's mother and brother, who also were condemned to death when he was sentenced, have been reprieved.

Carroll Safe.
WOODSTOCK, N.B., Aug. 9.—(Special.)—F. B. Carroll, M.P., was chosen by the Liberals of Carleton County on Saturday as their candidate for the federal house.
