CARRY Three Lines of Defences and Take 10,000 Prisoners in One Day's Fighting
---Canadians Shove Outposts Forward 1,000 Yards Near Lens.

Estimate of Seventy-Five Lives Lost in East St. Louis.

**BIG PROPERTY LOSS** 

Torch Applied to Four Settlements — Three Million Dollars Damage.

New York, July 2.—Despatches to the Associated Press at midnight indi-cate that an estimate that 250 negroes were killed in a race riot in East St.. Louis, III., was much exaggerated. The death list, however, may reach 75, and the property loss, it is believed, will reach \$3,000,000. The torch has been applied to four black settlements in the city, and the glare of the flames illuminates the city and surrounding

districts.

Tonight's rioting began after a white man had been shot by a band of blacks. A mob which quickly gathered, applied the torch to rows of colorad men's dwellings, the flames quickly spreading to the edge of the business district of the city. Attacks on blacks quickly followed and fatalities began rapidly to smultiply.

rapidly to multiply.

At 11 o'clock States Attorney effel estimated that the dea blacks would number 250, but reliable information reaching The Associated Press just after midnight seemed to indicate that the number of dead up to that hour would not exceed 75.

### **GORGE DISASTER UNDER SCRUTINY**

Several Inquiries to Determine Whether Wash-Out Warning Was Neglected.

**DEATH LIST UNCHANGED** 

Estimates of Number of Missing Continue to Be in Conflict.

Niagara Falls, N.Y., July 2.—The death list of the trolley wreck on the gorge route on Sunday afternoon was anged today. There are ten known dead, three persons are mising and probably dead, and there are from six to sixteen unknown missing. There is great disagreement over the number of esngers on the wrecked car. Mean while the cash register of the car has not been produced.

There is still disagreement over the warning given the gorge route before the accident, regarding the falling in of the tracks. It is admitted now that such warning was telephoned, but the lina officials claim that they acted as quickly as possible. The men who telephoned the warning say that from fifteen to twenty minutes' warning was given, enough to have saved the car shutting off the power.

To determine these facts there will

several investigations. J. William O'Brien, assistant district attorney of Niagara County, today arranged with Members of the 74th Regiment of the National Guard who have been highly praised for their work in rescuing the ssengers imprisoned in the wrecked car, will be among the witnesses called by the district attorney. A member of the comany on guard at the can-tilever bridge, it was said, was among those who knew of a weak spot in the toadbed.

Dominion Troops Throw Outposts Onward Thousand Yards.

ADVANCE BY NIGHT

Canadian Headquarters in France Monday, July 2, via London.-On the sector of the front to the west and south of Mericourt during the past two nights our outposts have been advanced almost a thousand yards along a front of over a mile and a along a front of over a mile and a half, practically without opposition from the enemy. There had been on this part of the plain a wide stretch of "no man's land" between the trench systems of the opposing armies. Encounters between patrols occasionally have taken place out there, but the territory was not effectively occupied either by the enemy or ourselves.

To the west of Lens, in the sector north of the River Souchez, where there had been an almost continuous

artillery duel since Thursday, varied by infantry thrusts and counter-thrusts, affairs have settled down a bit this afternoon. The cannonading has become less violent.

In a former despatch I spoke of the splendid valor of the British troops engaged in these operations. Later information indicates that in the fierce house to bound fighting which has

Gen. Brusiloff Resumes Concentric Manoeuvre, Interrupted by Winter.

London, July 1.—The resumption of the Russian offensive with the capture of the Town of Koniuchy and more than 10,000 prisoners is the most cheerful news the British have had for some weeks. References in recent German official communications to the activity of the Russians have given hope that something really serious was about to occur, but the public was hardly prepared for such immediate and successful results as it was thought it would take a few days for thought it would take a few days for the artillery to destroy the Austro-German defences which were under construction for so many months.
