German Soldiers Victims Armament Supplied by Own Country, Says Liebknecht.

LONDON, March 5 .- A speech made before the Prussian diet by Dr. Karl Liebknacht, the socialist leader, is given in a despatch from Reuter's Americans. correspondent at Amsterdam. During the debate on the budget Dr. Liebknecht is reported to have said it had become an established practice to

prohibit mention of trials resulting from food riots and peace demonstrations with the result that the people had no idea of the widespread increase of these agitations. Dr. Liebknecht called for statistics

is in prison for having placed his cop-per mines at the disposition of the Russians. You all know how capitalists are internationally related, especially as regards the armament industry. German soldiers have been killed by guns supplied by the Krupps."

New Police Suppression. Dr. Liebknecht went on to say, according to this despatch, that a new department had been set up at Berlin police headquarters to deal with peace propagandists. He particularly criti-cized the great number of condemnations before military tribunals, asserting that one person had been sentenced to death for a poem, and that one of his Austrian colleagues had been conde nned to death for a speech made in December. 1914.

The correspondent says there was great disorder during the speech of Dr. Liebknecht, which was finally cut off peremptorily, the budget being

While the submersible gave no warning and did not visit the freighter, they stated passengers and crew were allowed to leave in three boats which after being rowed for five hours, met the Trevelvan, which rescued them.
