Dr. W. N. Robertson gave a brief address, speaking in high terms of W. F. Maclean, saying he was a born statesman and the kind of a leader required at this hour. Dr. Robertson hoped every woman would use her vote and influence for Union government. Quebec never wanted women to have the vote, said Dr. Robertson, and the women who have the franchise now should stand by the Union government and the men who are saving the empire.

board of management of the Industrial Schools Association of Toronto was held yesterday afternoon at the city hall. As the meeting happened on the

twenty-fourth anniversary of the death of the founder, W. H. Howland, it was moved by Beverley Jones and seconded by G. Tower Ferguson that appreciation of the inauguration of this spiendid work be placed on record.

A satisfactory report was received from the superintendent of the Victoria Industrial School. There were more boys than usual in the school. Two rooms had been added to the school building and another teacher asked for. There were 550 boys on the honor roll. To all whose addresses could be ascertained parcels and Christmas letters had been sent. Accounts for September, October and November had amounted to \$20,927.72, of which \$4637.70 was for salarles.

The board expressed surpuse that the Alexandra Industrial School for Girls, Fast Torontch had not reported and instructed the secretary to write regarding this. twenty-fourth anniversary of the death

## AIM AT SUPREMACY.

of Management Receives Report Lord Montagu of Beautieu Tells of Britain's Work in Air Service.

The growth of the British air service from 30 or 40 planes at the beginning of the war to its present tremendous strength was interestingly described by Lord Montagu of Beaulieu, head of the air service, in an address before the Empire Club yesterday. "We are going to have so many aeroplanes," said Lord Montagu, "that we are going to clean the air of Germans and blind our opponents, for aeroplanes are the eyes of the army."

Lord Montagu prophesied that British machines would soon be bombing Westphalia and the Krupp works at Essen. "Once we get real suppermacy in the air everything else will follow and victory will be near," concluded the speaker.

To have gained first place as the largest selling gum in the world means much. It means that WRIGLEY'S is liked above all others.

That its quality, lasting flavour and its package are the kind most appreciated.

Back of all this - the enormous sales of WRIGLEY'S show that people have learned its benefits: refreshment - aid to appetite and digestion-soothing, antiseptic influence to mouth and throat and the advantages of sweet, clean breath.

The soldiers and sailors are calling for it daily.
