AUTO CRASHES INTO WAGON AND UPSETS HORSE

City Fuel Team Damaged—Alleged Car Driver Had Been Drinking

Traffic police are now seeking to locate a man who, while driving a car in the Rothesay road yesterday near Eastmount, crashed into a wagon owned by the City Fuel Co., Smythe street, knocking the horse down and breaking one of the axles of the wagon. It is alleged by the driver that the autoist was under the influence of liquor.

Two wagons of the Fuel Company, driven respectively by Angus Mallman and William Landry, were conveying loads of coal to the Three-Mile House, when the automobile, coming from behind, is alleged to have struck the wagon in charge of Mr. Landry, which was following the other. The drivers say that the operator of the car declined to stop, but kept on towards the Three-Mile House.

Leaving Landry with the disabled wagon, after the horse had been found to be uninjured, Mallman proceeded on his way and caught up with the autoist in a beer shop near the Three-Mile House, where a somewhat heated argument ensued. As a result the matter was reported to the Fuel Company manager, and today the police were given the name of the alleged offender, but it was not given out for publication.

SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River and forces its way through the gorge of the Falls, creating a "Falls" running up river.

At low tide the water in the Bay becomes so much lower than that of the river, that the fall of water is reversed and flows down river into the Bay.

At half tide, when the level in the Bay and River are about equal, the "Falls" is a beautiful sight, the water at the Falls becomes smooth as the surface of a lake.

To fully appreciate this wonder of the world it should be seen at all three stages.

The best time to view this phenomenon is:

MANY BENEFIT BY LESSONS IN SWIMMING

Season at Scows Very Successful—Case of Little Girl

At the civic swimming scows at the foot of Kennedy street, the season has been very successful it was said this morning. There has been much benefit particularly in the development of children. One little North end girl was almost completely paralyzed on one side but after taking a course of swimming her power on that side had increased fifty per cent, according to a report made by a doctor.

About 60 women received instruction this year, including several tourists. They even came from as far away as New York, two nurses from that city have learned to swim at the scows. The attendance this season was about double that of last year, it was said.

Thanks are given J. S. Gregory who kindly furnished an additional scow for the use of the swimmers. The instruction at the scows has been in the capable care of Mark Burns and Miss Edna Driscoll, both experts in the water.

NOW IS PASTOR OF CHURCH IN YORK CO.

Rev. George Knight of Saint John Indicted as Continuing Presbyterian Minister

The induction of Rev. George Knight of Adelaide street, North End, as the pastor of the Harvey and Acton Presbyterian congregation, York county, took place in the Agricultural Hall, Moncton, recently, at a special meeting of the Presbytery under warrant of the Presbytery Church of Canada, the continuing church. The occasion was marked with a large attendance, a number attending from Fredericton and other points. The Countess of Ashburnham was among the visitors. Following the solemn ceremony of induction the ladies of the congregation served ice cream and cake.

Rev. Mr. Knight, who has been engaged in evangelistic work for a number of years in various parts of the province, had been filling the pastorate of the Harvey-Acton parish for the better part of a year and was already well known to the people. Under his leadership the foundation of a new church was built and it is expected the edifice will be completed before the new year.

The induction of Rev. Mr. Knight as pastor of the Presbyterian flock has aroused a new enthusiasm, a correspondent writes, and the adherents of the old Presbyterian body feel much encouraged.

ERRATIC COURSE

Automobile Cuts Capers in Princess Street This Morning With Woman Driver

A downtown business man, while proceeding to his office a little before 9 o'clock this morning, was passed in Princess street, between Wentworth and Carmarthen streets, by a Ford sedan. He paid no particular notice to the vehicle until, as it neared the corner of Carmarthen street, it started to cut across in the roadway, finally mounting the curbstone a few feet in front of him. The automobile, after sidestepping a telephone pole, came to rest with the front wheels on the sidewalk and the rear ones in the gutter.

From the rearward appearances the car was empty!

But the witness of the strange manoeuvres, on closer examination, found a woman seated on the floor of the car in a state of nervous astonishment. In a few moments she was able to gather her startled wits together and telephone to a garage to have the erring vehicle removed from its unconstitutional position.

It developed that the steering gear had gone out of commission suddenly, and the fact that the car was proceeding at a moderate rate was all that saved it from serious damage.
