

THE EVENING TIMES-STAR, ST. JOHN, N. B. TUESDAY, SEPTEMBER 11, 1923

AMATEUR SPORT TO BUILD NATION

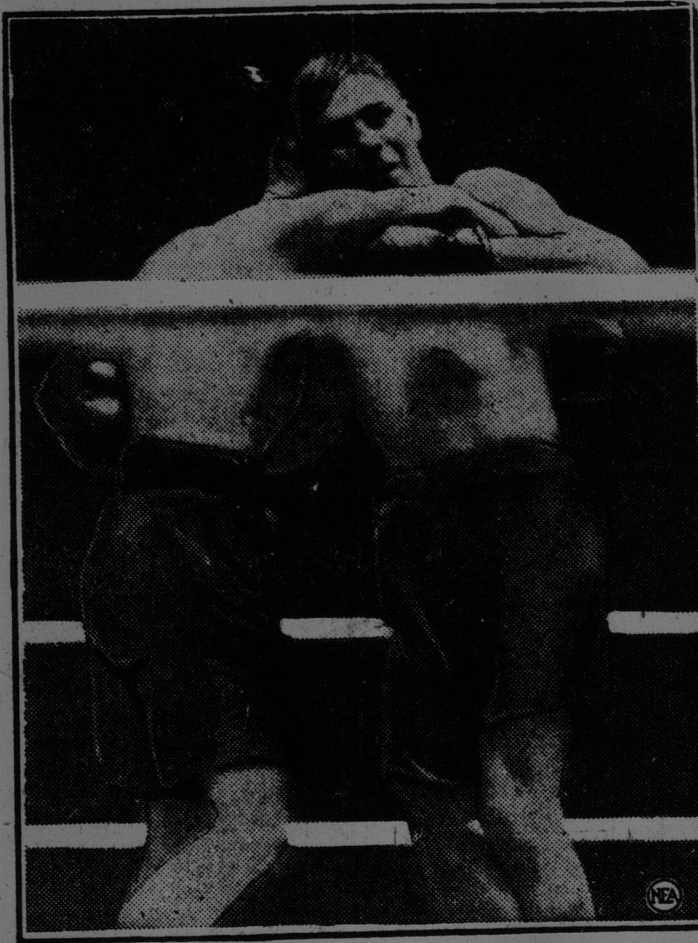

Feeling of Concord the Most
Impressive Feature of
Congress in Paris.

(Robert Haron in Boston Transcript.)
International sport has progressed to a position from which it should wield positive power in the establishment of concord among the battle-weary nations of Europe. That was the outstanding impression which Captain J. M. Macabe of Boston, former president of the A. A. U., and that organization's delegate to the recent International Amateur Athletic Federation Congress in Paris, brought back to Boston with him. He has just returned from abroad. The Congress was attended by delegates of sixteen leading amateur bodies from as many nations. Plans were practically completed for the Olympic Games in Paris next summer.

"It was one of the most impressive scenes I ever have witnessed," Captain Macabe declared today, "to see the representatives of millions of young men in the various nations deliberating together for the betterment of clean, amateur sport. Most of the delegates had been soldiers in the World War, but there they were, engaged in work which was to bind the nations together in ties perhaps closer than can ever be accomplished by mere political methods."

"Throughout the entire Congress, there was a spirit of concord and of good feeling that must bode well for future international amity. Toward

Greb Wins

Harry Greb smiles in the nineteenth round of the fight in New York in which he won the middleweight title from Johnny Wilson. This gives a good idea of what the fight was like—a 15-round war.

former enemies as well as toward former allies good feeling was evident. It is even probable that steps will be taken in the next meeting of the Congress at Paris next June to re-admit Germany to the Olympic Games."

Captain Macabe reports that the gospel of clean sport is spreading rapidly throughout the countries which need it most. He tells how the International Amateur Athletic Federation plans further to facilitate the work by the distribution of slow motion pictures to be taken of the games in Paris.

"The pictures also will be used to distinguish the winners in the various track events, in which they should prove of inestimable value. But their chief utility, the Congress believes, will result from their distribution throughout the various countries which have still much to learn about athletics. The pictures will be made of the leading sprinters, hurdlers, broad jumpers, shot-putters and stars in the other events. They will then be distributed throughout the competing nations and I believe that they will constitute the most effective step yet taken in a world-wide programme of body building."

Use Fifth of Second Watch.

"As for the use of the pictures at the finish, plans will be made to develop the pictures within a half-hour after the finish of the race and the

winner in even the closest of finishes can thus be determined without doubt. As to timing, it can be stated definitely that the fifth of a second watch will be used. Gaston Vidal, the French director of athletics, is hopeful that the Technical School of Paris, which is working on the project, can develop an effective tenth of a second watch, but it is generally believed that the present tenth of a second watch is impracticable and there is virtually no chance that a satisfactory one will be developed in time for the next Olympics."

European Nations Enthusiastic.
"One of the most effective steps taken by the congress was the decision to have representatives of active athletic ruling bodies in the various countries direct the games rather than political dignitaries of the home countries, men who have had very little knowledge of practical sports. Another measure which will benefit international sport immensely was the decision of the congress that an athlete who had never competed as a professional could never be reinstated if it is established that he knowingly had violated amateur rules. Some of the European countries have as yet only a slight glimmering of understanding as to the club's assistant secretary, who will standardize things as they have not been standardized before."

That measure, it may be noted, came as a result of the American influence in the meeting, a fact which was recognized by M. Vidal when the approached Captain Macabe after the meeting and declared that "your resolution is the most important step which the congress has taken to benefit international sport."

Interest in the approaching Olympic Games is at a higher pitch in Europe than has ever been the case before. Captain Macabe reports, confirming other impressions received before. He reiterates that America faces the most difficult task it has yet encountered to retain the world leadership in amateur sport.

Coal Inspector.
It was also reported that Gilbert M. Robinson had been appointed inspector and weigher of coal. He was to be given twenty cents a ton for coal weighed on his own scales and ten cents a ton on other coal. The action of the committee was commended for progress in reference to arranging recess for the boys and girls of the High school.

Colby Smith reported that the Albert school was not large enough to accommodate all the pupils available. Although the building had been opened at the beginning of this term the rooms were all full and four other rooms had been opened in the old building. He expected that the building would have to be opened to accommodate the children. The visitor to the building was given authority to arrange for the heating of the building.

Letters of appreciation were ordered sent to the teachers who had arranged for the exhibit of manual training and domestic science at the recent fair. Mr. McIntyre said that the exhibits had been exceedingly creditable and he thought they were the features of the exhibition.

The meeting then resolved itself into a teachers' committee and reports on the arrangements of the classes in the various buildings were received.

CHIGNECTO IN
The R. M. S. P. liner Chignecto, Captain J. Green, arrived in port yesterday afternoon about 5.30 o'clock from Bermuda and the British West Indies, and docked at the Pettibon wharf.

The ship brought 171 passengers, the mails and a large cargo of cargo. The passenger list was composed of 71 first class and 99 second class, of this number 78 are en route to the United States, 82 to Newfoundland, 18 Chinese for Hong Kong, and 50 for Canada. The party bound to Montreal have been engaged in Bermuda on the coast of the St. John Exhibition. Miss O'Brien is a pupil of Sister Columba, of Mount Carmel School, Mount Pleasant, and is showing great proficiency in her art.

Fears are entertained for the safety of Miss M. Winifred Hall, who has been spending the summer in Japan and from whom no word has been received since the disaster. She was to have sailed from Yokohama on the day of the disaster but the latest word from her was that her plans had been changed and she would sail from Shanghai. Miss Hall is a niece of Mrs. C. H. Fairweather.

ALBERT SCHOOL USED TO CAPACITY

Overflow of Pupils to Old
Building—Meeting of
Trustees.

A report that the new Albert school on the West Side was already filled to capacity and a request from the trustees of the Beaconsfield school for the privilege of sending their pupils to the manual training and domestic science classes in the new Albert school, were items of interest before the Board of School Trustees last evening. A decision was arrived at to pay the New Brunswick Protestant Orphans Home rent for the rooms used for school purposes.

The meeting was called to order by the chairman, Hon. H. A. McKewen. Others present were trustees, G. H. Green, Mrs. D. P. Chisholm, Mrs. E. R. Taylor, H. Colby Smith, E. R. W. Ingraham, Thomas Nagle, A. A. McIntyre and M. Colli; the acting superintendent, Miss Helen G. Wilmet, of Moncton, offered her services in connection with home economics. These names were ordered entered on the application book. Miss Grace B. Campbell was ordered an additional leave of absence until Sept. 24.

The reports on the boilers of the different schools were referred to the visitors for each building.
An Application.
A communication from the Beaconsfield School Board asking that pupils from that district be given instruction in domestic science and manual training in the west side city schools was received. Beaconsfield offered to pay the expenses connected with the courses. This was referred to the manual training committee and the acting superintendent, with power to act.

The report of the manual training committee showed that contracts for equipment had been let to the following: Vaughan Electric Co., Ltd.; W. H. Thorne & Co., Ltd.; J. & A. McMillan, Ltd.; T. M. Levey & Son, Ltd.; W. H. Hayward, O. H. Warwick, Ltd.; Manchester, Robertson, Allison, Ltd.; Haley Bros. & Co., W. Tremaine Gard, and the St. John Show Case and Desk Co.

It was decided to pay the committee of the Protestant Orphans' Homes \$450 a year for the use of the building, which had been used for school purposes. The rental is to date back three years.

The report of the committee on retarded pupils was received. The teachers who had received special instruction in the Beaconsfield school and seeing the pupils recommended to them by the medical inspector, Dr. Hanington. The chairman explained that during the summer. An allowance of \$165 had been given each. The expenses had been slightly in excess of this amount. He said he thought the expense accounts as submitted by the teachers were very moderate. It was decided to have the amount reported to the chairman also reported that the Sweeney property in West St. John, which was required for school purposes, could now be purchased at a price agreed upon, \$2,000. The purchase of this property was approved.

Coal Inspector.
It was also reported that Gilbert M. Robinson had been appointed inspector and weigher of coal. He was to be given twenty cents a ton for coal weighed on his own scales and ten cents a ton on other coal. The action of the committee was commended for progress in reference to arranging recess for the boys and girls of the High school.

Colby Smith reported that the Albert school was not large enough to accommodate all the pupils available. Although the building had been opened at the beginning of this term the rooms were all full and four other rooms had been opened in the old building. He expected that the building would have to be opened to accommodate the children. The visitor to the building was given authority to arrange for the heating of the building.

Letters of appreciation were ordered sent to the teachers who had arranged for the exhibit of manual training and domestic science at the recent fair. Mr. McIntyre said that the exhibits had been exceedingly creditable and he thought they were the features of the exhibition.

The meeting then resolved itself into a teachers' committee and reports on the arrangements of the classes in the various buildings were received.

LADIES' TAILORING

EVERYTHING in high class tailoring and furs made to order.—Morin, the only tailor and furrier, 83 Gormain.

ST. JOHN MEN AND THE OLYMPICS

St. John will be represented by nine athletes in the Dominion championship track meet which is to be held in Halifax on Friday. In the sprinters there are four local entries. Charles Gorman, Frank Campbell, Drew Mulcahy and Garnett. Maynes will compete in the 440 yards, Winchester entered in the mile and Monty will compete in the one mile walk and Sprague in the five mile race.

One problem has to be met before the boys leave, the raising of funds to pay their expenses. The athletes who went to Charlottetown had to pay part of the bills themselves and it is not desired that they should have to dig down into their own pockets again this time. About \$200 is necessary to finance the trip. Of this only \$28 has been raised up to date. \$8 was produced at a benefit ball game, \$10 was donated by the Dominion Rubber Company, and \$10 by a citizen who wished his name withheld. Those wishing to help out should telephone Frank White, and a man will be sent to them to receive their contribution.

AUCTIONS

FURNITURE AT RESIDENCE OF MR. SILAS McDONALD, 23 GOODERICH ST., BY AUCTION

I am instructed by Mr. Silas McDonald to sell at his residence, No. 23 Gooderich street, on WEDNESDAY MORNING, the 12th inst., at 9.30 o'clock, the contents of house consisting in part: One Cabinet Grand New York upright piano, music cabinet, comb. bookcase and desk, settees, wicker, mahogany, and other bedroom suites, springs and mattresses, bed, bedroom, stair and other carpets, curtains, pictures and many other articles of household effects. BRUNSWICK CHAPTER, I.O.D.E.

The Brunswick Chapter I. O. D. E. has arranged to present the nucleus of a circulating library to the community of Lower Jemseg. The enterprise is a new one and it met with the hearty approval of the chapter, when it convened yesterday for the first meeting of the season. The meeting was held at the residence of Mrs. W. I. Fenton, with the regent, Mrs. Herbert Wetmore, presiding and there was a large attendance. As educational secretary, Mrs. Fenton reported on having presented eighteen patriotic pictures to the new Albert school and four prizes to pupils in the two classes of grade eight. She also told of sending to Lower Jemseg the thirty-two volumes which had been given by the members to help establish a community library in that district. Mrs. Fenton made an appeal for assistance in sending books to disabled soldiers in rural districts and this appeal was heartily endorsed. Mrs. Harold Mayes, as convener of the relief committee, told of much that had been done along that line during the summer months.

Miss McKeljohn wrote to thank the chapter for its gift of \$35 for the Lady Byng day camp and to ask support for the St. John Health Centre. The meeting voted \$50 to the Health Centre. Plans were made for holding the Halloween tea and sale, which is an annual event.

The members were delighted to welcome Mrs. W. E. Earle, who has been absent from the city for some time. After the business was finished, a social hour was enjoyed and refreshments were served by Mrs. Walter Dougherty, Miss Jennie Clark and Mrs. W. I. Fenton.

More Than He Bargained For.
"Sir, will you allow me to marry your daughter?"
"I'll go farther than that, my boy. I'll come and live with you."
