Premier Foster, Dr. Carter and Chancellor Jones to Halifax for Next Week's Meeting.

Premier Foster will leave for Halifax on Monday evening to attend a meeting of the representatives of the colleges of the maritime provinces, at which will be discussed the proposed amalgamation of the universities in the three provinces, in order to take advantage of sharing in the Carnegie fund. The meeting will be held in the provincial assembly chamber, opening on Tuesday morning at 10 o'clock. Dr. W. S. Carter, chief superintendent of education for the province, and Chancellor C. C. Jones of U. N. B. will be among those attending.

Premier Foster said this morning that, unlike Nova Scotia, the government of this province was vitally interested in the question of amalgamation, as the University of New Brunswick is a state college, while the Nova Scotia government is not required to furnish any financial assistance to any of the colleges in that province. Mr. Foster said that he did not intend to take part in the discussion, but would be present to obtain information.

ST. JOHN AT THE TURNING POINT IN ITS HISTORY

Signs Point to Citizens' Determination to Elect Mayor for Hydro at Cost—Must Pay Taxes by Tomorrow Noon to Vote.

In order to be able to vote on the hydro question during the mayoralty election on November 13 citizens must have their taxes for 1921 paid before noon on Saturday.

Those who have in hand the circulation of the nomination paper of G. Fred Fisher, the citizens' candidate, have observed a decided strengthening of the forces that are rallying behind the standard of cheap power. This state of affairs is highly encouraging and is proving beneficial in urging the committees behind his candidacy on to further endeavors.

The committee is working with one principal object in view—to obtain for the people of St. John the advantages which are now being enjoyed by a great many of the cities and towns in Ontario—power at cost. They feel that the introduction of this advantage here has now been too long delayed—that the people have been deprived of something which they confidently expected to be well in its way towards consummation long before now. If significant indications can be taken for anything, the taxpayers of the city are now, more than ever, determined to put an end to the jockeying of their interests and elect a representative who will direct his efforts towards bringing about the betterment of a great public service at once. The general feeling is that St. John today is at a great turning point in its history.
