

NEW WINTER STYLES IN Ladies' Footwear

Handsome Leathers Charming Patterns

Truly has it been said that this is the season of "beautiful footwear." And it is the beauty resulting from simplicity, for the vari-colored, elaborate patterned shoe has gone.

Dame Fashion, as ever taking her note from the spirit of the day, has sanctioned the more sober colors—greys, browns, mocha and black—as the correct appointment for the well-dressed woman.

Dainty Slippers for Evening Wear

Dame Fashion has outdone herself in designing party slippers for this winter season—and Science has joined with her to give you just the shade to match your gown.

We have a beautiful line of dainty White Satin Slippers, and by a new process, we can tint them just the right color to complete your costume.

War Menus

How to Serve Wheat, Beef and Bacon for the men at the front. Issued from the Office of the Food Controller for Canada.

MENU FOR SATURDAY.

Breakfast:
Buckwheat Oatmeal, Cakes, Syrup, Cornbread, Coffee.

Dinner:
Baked Beans, Brown Bread, Baked Potato.

Supper:
Scalloped Tomatoes, Stewed Prunes, Tea.

The recipes for Baked Beans, Brown Bread and Baked Potato, mentioned above, are as follows:

Brown Bread—
2 cups Graham flour
1 cup white flour
1/2 cup molasses
1/2 cup sweet milk
1/2 teaspoon soda
1/2 teaspoon salt

Sift the flour, salt and soda. Add the molasses and the milk. Pour into well greased moulds and steam about three hours.

Baked Beans—
4-5 cups wheat flour
2-3 cups barley flour
1 cup milk and water, or water
1 cake compressed yeast
2 tablespoons sugar
2 tablespoons fat
2 teaspoons salt

Soften the yeast in part of the li-

quid. Combine all the ingredients, and mix into a dough. Knead and let rise to double its bulk. Knead again. Put into the pan, and when double its bulk bake about 3/4 of an hour. The recipe makes two loaves.

Baked Beans—
Pick over the beans, cover with cold water and soak over night. In morning, drain, cover with fresh water, heat slowly (keeping water below boiling-point), and cook until skins burst. Drain beans, throwing out the water. Put into a bean pot a few pieces of salt pork cut into cubes. Cover with the beans, and add 1 tablespoon of salt, 1 tablespoon of molasses, 3 tablespoons of sugar. For every quart of dry beans used, add 1 cup boiling water, and as they cook add more boiling water to cover. Cover the bean pot, put it in the oven and bake slowly six or eight hours, or cook in a fireless cooker. Some prefer to add a little mustard.

(Wheat and meat saving recipes by Domestic Science Experts of the Canadian Food Controller's Office.)

MICE RAID WHEAT CROP.

Australia's immense wheat crop is being raided by an army of mice, and grain stocks for shipment can be saved only by heroic measures. One of these measures is poison gas; another is the mouse-proof fence built about the stacks of grain. The fences are of galvanized iron, with openings every ten feet. In each opening is sunk a tin of water and kerosene and water. Mice cannot enter the fortification, and those within cannot escape alive. When the latter become thirsty they make for the tins, and almost at once fall in. It is said that in one small railroad station 10,000 mice were drowned in a single night.

CHILDREN NEED FOOD—NOT ALCOHOL

How careless it is to accept alcoholic medicine for children when everybody knows that their whole health and growth depends upon correct nourishment. If your children are pale, listless, underweight or puny, they absolutely need the special, concentrated food that only

SCOTT'S EMULSION

gives, to improve their nutrition and repair waste caused by youthful activity. During school term all children should be given Scott's Emulsion because it benefits their blood, sharpens their appetite and rebuilds their strength by sheer force of its great nourishing power.

HARTLAND HAS AN \$18,000 FIRE

Taylor and Simms Buildings in Grip of Flames Early This Morning—J. T. G. Carr Chief Loser

Hartland, N. B., Jan. 4.—Fire originating in the basement of C. H. Taylor's brick block has badly damaged that building and has practically ruined the adjoining building owned by T. G. Simms and occupied by him as a residence, fruit store and the town treasurer's office. The flames were seen first about 4 o'clock this morning and had gained considerable headway by the time the first water was turned on. For a time a great conflagration seemed certain as the fire spread just where the wooden buildings are most compact but a foot of fresh snow prevented sparks setting fire and the efficiency of the fire fighting equipment brought the fire under control within two hours.

The most severe loss was that of J. T. G. Carr, general merchant, whose \$10,000 stock in the Taylor building is entirely ruined by water and smoke. He has been in business for forty-five years and this is the first fire loss. He carried insurance. T. B. Thistle, jeweller, also in the Taylor building, claims loss of \$250 with no insurance. Other losers are C. H. Taylor and B. A. Hall, household effects and stock of fruit and confectionery. He was insured. The probable total loss is \$18,000.

INCREASING OVERSEAS COMMERCE OF BRITAIN

London, Jan. 3, via Reuters Ottawa Agency.—Sir Albert Stanley, president of the board of trade, in a foreword to the current issue of the Board of Trade Journal, outlines the progress of the board's extended activities toward increasing overseas commerce, including the dissemination of up-to-date information from all parts of the world. The Journal states that a new department of overseas trade will control the board of trade commissioner service within the empire, and the foreign office's commercial attaché service within the empire. It is intended to extend the trade commissioner service to India and some of the principal crown colonies, and greatly to increase its commercial services.

Sir Albert describes a new step in the distribution of information under the pledge of secrecy to traders and manufacturers regarding possible exporters, in certain foreign countries, of British manufactured goods. The idea is the outcome of the trading-with-the-enemy act. Ten thousand traders have already availed themselves in its use. All who bona fides are checked, with the assistance of landing commercial organizations. Even more points out, and more secret is a confidential register which provides for wider information regarding trade supplies abroad, and on foreign competitors, and various overseas industries.

LLOYD GEORGE ON THE DRINK QUESTION

Was Urged to Make Further Reduction in the Traffic

London, Jan. 4.—In reply to a communication from Robert Harcourt, M. P. for Monmouth, Mr. Lloyd George, premier, has urged a further reduction in the drink traffic. Premier Lloyd George says that he can act only by the consent of a public opinion and argues that drinking has already been reduced to an extent that would have been incredible before the war. He only have the hours of sale been curtailed, but the amount of alcohol consumed has been enormously reduced.

Proposals for rationing sections of the community have been frequently considered but, premier points out, they would be more complicated in their execution than the beer saved could justify. The whole problem, he adds, has been constantly before the government and has been periodically resurveyed.

In conclusion, he says the government would not hesitate to take any action if it were thought material to assist in the successful prosecution of the war.

COST OF LIVING RISES.

How the cost of living has risen and the purchasing power of the dollar decreased during the war is alarmingly shown by official figures issued by the Department of Labor at Ottawa.

The following is a table which shows the cost of a weekly family budget of average price for staple foods, based on the October records:

1917	\$11.81
1916	9.80
1915	7.92
1914	7.98
Cost of wood and coal per family weekly:	
1917	\$2.50
1916	1.98
1915	1.58
1914	1.80

VIGILANTES WAR NOTES

The American Alliance for Labor and Democracy makes these reflections upon the war:

Some people say this is a capitalist's war. Along comes food control, along comes a terrific slash in the price of steel, along comes a government ship monopoly, along comes government fixing of coal prices, along comes establishment of trade union conditions in all war work.

Some people say this is a war for profits.

But profits were never so threatened in behalf of the welfare of the people as at this moment.

Some people ought to get the facts straight before they begin to preach.

This is the answer that the Alliance makes the Pacificists:

Pacificists usually are valuable persons. They can talk, talk, talk—and then start all over and talk.

But remember this:

There is just one answer to every pacifist argument.

That answer is:

America will never be ruled from Berlin!

Here is what Samuel Gompers, president of the American Federation of La-

Sale Starts Saturday Morning in Men's Clothing Department

Manchester Robertson Allison, Limited

ford G. Price, superintendent of streets, for good services done in keeping the expenditure within the income. It is no credit to our commissioner of public works for keeping expenditure down, when he leaves the streets to look after themselves. It is a case for the commissioner of public safety to drive over our streets and report the dangerous condition they are in. In some cases the driver of vehicles has to cross from one side to the other to let a street car pass. I think it would be of more benefit to public safety for Mr. Fisher to spend that \$100 on our streets.

STREETS AND SALARIES.

To the Editor of The Times:

Sir,—I see where Commissioner Fisher of public works department has asked for a \$75 bonus for F. W. Jenkins, clerk for public works department, and Clif-

RECENT DEATHS

Delancy Jones.

Moncton, Jan. 3.—(Special).—The death of Delancy Jones, occurred at the residence of his brother, J. C. Jones, Pettibon, today. The deceased had been ill for the past two weeks. Death was due to heart trouble. He was in the seventy-seventh year of his age. He was born in Pettibon where he made his home with his brother, J. C. Jones. Deceased was unmarried.

Mrs. James Kearney.

The death of Mrs. James Kearney, widow of Delancy Kearney, occurred yesterday at her residence at 77 St. Patrick street, after a short illness. She is survived by three daughters, Lillie, Annie and Mabel, and four sons, George, William, Gordon and Kenneth, all at home. She also leaves two brothers, George and Kenneth Forbes, both of this city. Mrs. Kearney's father and mother both died in the last year.

McQueen-Emmerson.

The wedding of William A. E. McQueen, only son of Mr. and Mrs. Joseph A. McQueen, and Miss Bernice S. Emmerson, third daughter of the late Hon. H. R. Emmerson, was solemnized in the First Baptist church, Dorchester, yesterday. The ceremony was performed by Rev. A. H. Wightman, pastor of the church.

Aubrey F. McLeod, the first American casualty in France, is on his way home. He lost both his legs when a German airplane dropped a bomb on a bus hospital where he was on guard.

Howard Kahn of the national war council of the Y. M. C. A. terms him the "nerdiest boy in the world." Private McLeod is a son of a former St. John man, I. J. McLeod, who resided here some thirty years ago. Mrs. D. Adams of 263 Watson street, West St. John, is an aunt of the boy.

Our Store Open Saturday Evening Until 10 p.m.

We have found that many of our customers prefer to do their shopping on Saturday Night. For their convenience, therefore, we will keep our store open as usual during the winter months on Saturday evening until 10 p.m.

BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue coated; if your head is dull or aching; if you feel as if you are full of gas and acid in stomach, or you are bilious, constipated, nervous, allow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before putting more food into the stomach.

To feel like young folks feel, like you felt before your blood, nerves and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate which is inexpensive and almost tasteless, except for a sourish twinge which is not unpleasant.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast. They are assured they will become real cranks on the subject shortly.
