## ZAM-BUK CURES PILES

Read What Those Who Have Proved

Mr. Thomas Pearson, of Prince Albert, Sask., writes:—"I must thank you for the benefit I received from am-Buk. Last summer I suffered greatly from piles. I started to use Zam-Buk and found it gave me relief, so I continued it and after using three or four boxes I am pleased to say that it completely cured me."

Mr. G. A. Dufresne, of 183-185 St. Joseph Street, St. Roch, Quebec, P. Q., writes:—"I can highly recommend Zam-Buk to everyone who suffers from piles. I have also found it most effective in curing a sore thumb with which my little son was suffering. The trumb had begun to swell and fester and lad lost the nail.

## BLONDIN IS MADE DEPUTY SPEAKER

**Enough of England and** 

## RAPPED BY LIBERALS

amed First Division of House Gives Borden 44 Majority-The Courtenay Bay Situation-Child Mortality One in Every Four

Ottawa, Nov. 29—The first division of parliament took place this afternoon and skowed a government majority of forty-

four.

Edouard Blondin was elected deputyspeaker after his loyalty was questioned
by Whip Pardee.

The estimates for the current year were
brought down and found to be those prepared by the Laurier government except
a few small salary items.

Over 100 questions were replied to,
chiefly with evasion instead of informa-

pire.
Blondin, at Victoriaville, had declared that the only liberties which Canadians enjoyed they snatched from England. England had "sown the world with hatred, quarrels and war." "We have had enough of England," was his final utterance. "We have had enough of England and the England."

Premier Borden rose, with some anger, and accused Mr. Pardee, amid Liberal laughter, which nettled and disconcerted the premier, of trying to raise sect against sect and race against race. For years the chief whip had sat in parliament behind Sir Richard Cartwright, who had once declared that Canada owed nothing to Great Britain except Christian forgiveness.

"I dare say Mr. Blondin may have been fervent in his utterance," continued Mr. Borden, "but I want to say that men have risen to high positions in the Liberal party whose utterances might be quoted. I believe Mr. Blondin is as loyal as he (Mr. Pardee) is."

Mr. Borden concluded by petulantly threatening that if the Liberals were going to persist in their present warfare, "we will be able to take a fair share of it," and pressed for the adoption of his nomination.

Mr. Blondin was then declared elected, amid Liberal cries of "No"

Ottawa, Nov. 29—The Berden government has not decided to carry out Hon. Dr. Pugsley's plan for the development of St. John as a national port, by the development of Courtenay Bay.

Dr. Pugsley called attention to R. L. Borden's election telegram which stated that "the thorough and efficient equipment of St. John is a part of our golicy."

Today Mr. Borden admitted that he had

Clean your costly Silver, Gold

and Plated Ware with

Today Mr. Borden admitted that he had sent such a telegram and admitted that he was at the time aware of Dr. Pugsley's extensive programme for the equipment

When asked if it was the intention of the government to carry out the work, Mr. Monk could only tell parliament that the government had not yet decided to do

Dr. Pugsley was told that borings had shown solid rock ten feet below low water at Lornwille, St. John county, on the site of the proposed breakwater. The government has not yet decided to go on

ith the work.

He was told that the government had ired the tug Dirigo from G. S. Mayes for

These substantial citizens purchased shares in the Edmonton Portland Cement Company for two reasons:

First: Because these shares should pay a dividend of much more than 25 per cent, as soon as the plant is in operation.

Second: Because the price of the shares will go to \$200 within

THE FACTS OF THE CASE.

And all of this is founded on facts with which every business man in Edmonton is now acquainted.

1st. The Edmonton Portland Cement Co., Ltd., absolutely owns the very best materials for the manufacture of more than 12,000,000 barrels of cement. The materials owned by the Company are sufficient to keep the plant in operation for more than 40 years.

The two deposits of materials owned by the Edmonton Portland Cement Company are only four miles apart, and both on the main lines of two railroads.

2nd. The price of Portland Cement in the Edmonton district is \$3.40 per barrel, which is the Eastern mill price of \$1.25 per barrel and the freight rate to Edmonton of about \$2.15 for an average haul

The Edmonton Portland Cement Company, Ltd., can sell every barrel of its output at its mill door for more than \$3.00 per barrel.

# THE EDMONTON PORTLAND CEMENT COMPANY, LIMITED

--- His Honor Lieutenant-Governor G. H. U. Bulyea, Chairman

### Article No. 4

The Edmonton Portland Cement Company was organized on the 25th day of April, 1911. As soon as the merits of this remarkable proposition were made public, it became an object of local pride to an extent that rallied the commercial patriotism of the city of Edmonton to its support. His Honor G. H. V. Bulyea, Lieutenant-Governor of the Province of Alberta, suscribed for \$20,000 of stock, and became chairman of the corporation. The best business men in Edmonton became directors, and more than \$400,000 of stock was subscribed in the City of Edmonton alone. The following is a very

property can deny

> SHARES ALREADY ADVANCING. The shares have advanced \$10 from par, or from \$100 per share, to \$110, theprice at which they are now offered to the public for a few days only. These shares will go to \$125 within a very short time, and to \$150 by July 1st next.

> > UNPRECEDENTED GROWTH OF THE CEMENT INDUSTRY.

3rd. The Edmonton Portland Cement Co., Ltd., can manufac-

ture cement for 78 cents a barrel. The average haul from the plant

will be 150 miles and the average freight rate 25 cents per barrel. Reckoning the market price at only \$3.05, this means a profit of

\$2.02 per barrel, of \$630,000 in the year's output, or much more than

INCREASING VALUE OF THE SHARES.

When the plant is in operation the shares will have a book value of about \$200, as will be shown by the following, which is approximately the figures of the Company's statement when the plant is in

20 cepts per barrel ...... 2,500,000 \$3,300,000 LIABILITIES

ASSETS.

Cash for working capital .....\$ 170,000

12,500,000 barrels of Portland Cement at

25 per cent. on the capital stock of the company.

The growth of the cement industry has no parallel in the industrial history of the world. The production of Portland Cement in the United States and Canada has increased 22,000 per cent. In the past twenty years. And in the same time more than six hundred million dollars has been invested in the industry in the United States

Western Canada is today at the threshold of the greatest era of building that any country has ever known. The "far flung battle line" of progress has swung "Westward ho!" from the great lakes to the Pacific. The call of these rich western prairies to "come and occupy" is finding a response in an invasion of home builders that is answering the lure of the last west with the tramp of a hundred thousand builders of the pay. Empire And before another dead. thousand builders of the new Empire. And before another decade has come "the light in the window" will pass the triumphant home signal from the Rockies to Acadia.

And in all this building, the material most universally used will be Portland Cement. In the first article of this series it was said that the surest way to make money is through the industries that create wealth. The Edmonton Portland Cement Company will create nearly forty million dollars in wealth from the materials which it owns, at a total cost of less than fifteen million dollars for forty years' operations. And in the same time more than twenty-five milion dollars will be distributed in dividends to shareholders.

The rest of this story will be told in the two remaining articles of this series.

The stock of the Edmonton Portland Cement Company may, for a very short time, be purchased at \$110 per share. Subscriptions can be made through any branch of any chartered bank in Canada, or remittance may be made direct to the fiscal agents.
