AYER'S

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

Tritum has long existed a public damand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bower of the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bower. It is not. Many of them produce so much griping pain and revulsion in the system as to move than counterbalmee the good to be desired from them. These pills produce no irritation or pains, anless it arise from a previously existing obstraction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the compliants which have been speedily curred by them, we may mention Liver Compliant, in its various forms of Jaundicce Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Billous Headache, Billous Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they in the strength of prompt and sure relief in Contiveness, Piles, Colle. Dysentery, Humors, Scrotula and Svirry, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly euccessful cures in Rheumatians, Goth, Dropsy, Gravel, Erysipelas, Pal

(A) OTICE is hereby given, that John Shanson, has been appointed keeper of Hospital Island in the County of Charlotte, and of the public buildings thereon.

(B) M. H. PERLEY, M. H. M. Emigration Office.

AYER'S PILLS very few are the diseases in which a Purgative Medicine is not more or less required, and much slokness and suffering might be prevented, if a harmless but effectual Cathasic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good-purgative. This is alike trise of Colds, Peverish symptoms, and Silious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearnes all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill-has been perfected with consummate skill to mee; that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and characters as to forbid the suspicion of untruth. Almong the eminent gentlemen to whom we are allowed to refer for these facts, are PROP. VALENTIE MOTT, the distinguished Surgeon of New York City.

DUCT. A. A. HAYBS, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Ins. I. MOORE, M. D., an eminent Surgeon and

Prof. Valentier Mott, the distinguished Surgeon of New York City.

Doct. A. A. Hayrs, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Ira L. Moore, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. Southwick, Esq., one of the first merchants in New York City.

C. A. Dayrs, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass. Did space permit, we could give many hundred such names, from all parts where, the Pills have been used, but evidence even more convincing that the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical spreess, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pe toral and Pills both, to produce in more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obtained, by the purity of the produce in more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obtained, which we had been suffered for the carative virtues only being rotained. Hence it is effectlent to the distribution of each substance employed are left behind, the curative virtues only being rotained. Hence it mose forced more purity remedial, and he Pills a surgency without knowing its composition, I have proved more purity remedial, and he Pills a were proved more purity remedial, and he Pills a were more forced and Pills are made to the whole be taken under the couple of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have samyleries.
