EXECUTION BY ELECTRICITY.

The execution of the four criminals b ctricity at Sing Sing prison last week atisfied the public mind that this new that is a never ceasing source of jealousy and irritation. Each wishes naturally to have the strength of the characteristics. Find the characteristics are represented in the characteristics and the characteristics are represented by the characteristics and the characteristics are represented by the characteristics and the characteristics are represented by the charac cations, the peculiar armament of their ships, and whatever may be new in the way of arms or war material, so that in case of war it may act with full know- however, where human life was almost fication of the guard, and you a comparation of the first stoppage the Iago beard was off, and Mr. Tree bore the appearance of an ordinary bear under her bed. Now, when I specification of the guard, who looked in as he you are nearly frightened to death."

rcely a week passes without a record struggle or resistance whatever. It has ed, but ended at that. by some European newspaper of plans of been contended by some that the elecy some European newspaper of plans of been contended by some that the electrical fluid even when used under a high omposition of powder sold by 'officers or voltage, is quite harmless; but from the in "Jim the Penman" had been assumed Lily Chocolate Almonds, ers, or the arrest of some person as fact of such a large number of deaths and above all the Hartfield nose; and a spy. The spies are generally released having occured accidently by electricity when the hawk-like and forbidding face after a short detention, nothing as a gen- proves pretty conclusively that there is loomed out of the growing shadows in eral thing being proved against them, nothing in this contention. In the case of the guard was thoroughly roused. or if there is, the laws regulating the of execution by electricity, particularly cap it all Mr. Tree had lost his ticket. matter do not authorize their very vigor- when carred out under such conditions This was the last straw, and with om ous treatment, except in time of war. as those of last week in the presence of ous severity the guard said. Those who have sold the secrets of their only a few spectators, the sensational "Lost it? I dessay! Come? take off that own country do not get off so easily.

There has recently been a case in France which is of unusual interest.

Only a lew spectacies, the sensatuding death character of the old form of taking death is entirely done away with. A murder-prevented from marching the actor off to

made public or disclosed to foreigners, grapic account of the way in which discertain military secrets. One of these way in which distribution was a chemist named Turpin, the invent.

There is nothing the triminals met their death. Lawyer: "I have examined this will very carefully, and I see no chance of 198 Queen Street, Fredericton was a chemist named Turpin, the invent- There is nothing theatrical in being disputing it." years employed by the Armstrongs as such a form of punishment would, we that lawyers are the only ones qualif taken his invention to the French War the crime of murder. By the means of Department, which gave him \$50,000 for death by electricity all the glory of a final mitigation of your offence?"

Judge: "Have you anything to say in mitigation of your offence?" without giving him anything. The tirely inexplicable. The dread of such, ished by death, an English judge, in

AN EXHIBITION. for Turpin, he naturally felt himself injured, having realized on his invention only \$50,000 when he might reasonably have expected to realize millions. He complained for several years, using the journel of the during the coming fall. It is some here during the coming fall. It is some here during the coming fall. It is some here during the coming fall are realized in the stage. Which is supported to the first of the f nal occasionally as a means of reaching the public, and finally published a book, in which he gave cuts of the shells in which he gave cuts of the shells in which the new powders are used, and active the new powders are used. The provinces I this speaking a word, in the trial scene of the Merchant of Venice, which lated thirty-five minutes. I did that for 250 nights. If anyone wants to realize it let him stand, still and silent, in his room for half an hour." cused Tripore of treason in having com- time Provinces. It is of course too late The height to which a surge will dash municated valuable military secrets to this year to erect substantial exhibition is, of course, dependent on many things the Armstrongs. This book, on account of its cuts of shells, not only caused his own arrest, but that of the three others.

It should be remarked that the composition of the powder used for the French and the powder used for the French artillary is not merally kent rigidly secret. artillery is not merely kept rigidly secret, but also the form of the shells, which are exceedingly complicated, and might be inferred from the illustrations given y Turpin. Tripone had suborned some of the complex secretion of the shells, which are exceedingly complicated, and might be inferred from the illustrations given y to the complex secretion of the complex secretion of the complex secretion of the shells, which are exceedingly complicated, and might be inferred from the illustrations given y to grants there is little doubt. It is not required that such buildings would what a Weman Cau't De. the employes at one of the state foundries, necessarily have to be expensive and orand obtained, in this manner, drawings of the shells, which he had communicated to the Armstrongs. His guilt was father aggravated by the fact that he did these things while holding a commission in the Franch Army. Turnin was conin the French Army. Turpin was condemned to five year's imprisonment and deprivation of civil rights for the same period. Tripone received the same penalty and was exiled from Paris for the province would be willing to lend fourteen minutes. I know a child three the rest of his life. The sentences of the other two were milder. It is also to be a good Provincial Exhibtion next year a pipe" on the organ. I have seenremarked that the French press generally condemn the sentence of Turpin, who, though indiscreet, had rendered his country towards a big Provincial Exhibit a year the sentence of Turpin, who, though indiscreet, had rendered his country towards a big Provincial Exhibit a year the skeptical member, "but did you ever see a woman get off a street car with her face to the front?"

And the gay young man had to confess the skeptical member, "but did you ever see a woman get off a street car with her face to the front?" powder, which if not precisely that which

powder, which if not precisely that which has made the French artillery second to none in the world, was at least the means of discovering the latter.

The picnic season may be said to have Walk up! Proprietor of the Booth: "Walk up! Walk up! Walk up, gentlemen! Here we've got the biggest giantess in the world. She's ten feet high and still a growing!"
