Because other alleged remedies for piles, scrofula, eczematic eruptions, scald head, chafing, black heads, salt rheum and skin diseases generally have proved useless, don't condemn Dr. Chase's Ointment. It has never been known to fail. For instance, Nelson Simmons, Meyersburg, Ont., writes: "I used Dr. Chase's Ointment for Itching Piles, and can recommend it Montevideo. Chicago, July 10.—A dispatch from West Superior, Wis., says: The great Weyerhauser logging syndi-

cate will build a railroad into Superior during the present summer. The road will start at a point on Allouse bay and run about 35 miles south by way of South Superior, penetrating the pine forests of the country and connecting by means of branches with the numerous logging streams. It is claimed the system will be the most extensive of the kind in the country.

Washington, July 10.-Christian En leavor delegates and friends are fast taking possession of Washington, and there is every indication that the prediction of the local committee will be realized by the arrival of between 35,000 and 40,000 delegates. The convention was formally opened by services in 22 churches.

New York, July 10 .- The two big sailing ships, the Santa Clara and the City of Philadelphia, sailed from this port last February for San Francisco. The last heard of the Santa Clara was on March 30, when she was spoken off the north coast of Brazil. The City of Philadelphia was reported in the same locality on March 3. Since then nothing has been heard of either vessel. The United States consul at Falkland Islands wrote under date of May 14 that a large full-rigged ship had been driven ashore on Billy Rock, a point near Port Stanley. It was believed that all hands had been lost. The letter was mailed on board the mail steamship bound for al at Montevideo the captain reported
