THE SULTAN LIKELY TO OPPOSE SCHEME

PROPOSALS OF POWERS SUBMITTED TO PORTE

Establishment of Communal Autonomy Among Reforms-Immediate Adoption Demanded.

Constantinople, Oct. 24.-The scheme of the powers for the amelioration of affairs in Macedonia was submitted to the Porte yesterday. It has for its guid-ing principle control of and surveillance over all branches of the administration of the disturbed provinces by Austria for a period of two years.

The proposals include the appointm of one Austrian and one Russian officer to be attached to the staff of the inspec tor-general. An European general in the Turkish service is appointed to command the gendarmerie, and he will be assisted by an adequate number of Russian and American officers acquainted with the languages of the country, and if necessary by Austrian and Russian non-comned officers. Other important proposals which will

be bitterly opposed by the Sultan provide for the establishment of communal autonomy, and the reectification of the present communal boundaries with the view of better distribution of the various com munities and the creation of spheres Bulgarian, Albanian, Servian, etc. Other points of the scheme deal with relief of refugees the upbuilding of villages and schools and churches, the disbandme the irregular troops and the prohibitio of the employment of Bashi-Bazouks.

Opposition to the whole scheme is expected from the present Porte, but the Austrian and Russian ambassadors demand the adoption of the plan with the least possible delay. It is thought that some of the other powers may object to the appointment of exclusively Austrian and Russian assessors, and demand that the commission o control be given a more international character.

May Delay.

Paris. Oct. 24.-It is believed here that in view of the fact that the terms of the latest Russian-Austrian note to Turkey provide that the proposed com mission control which is to assist Tur-key in carrying out the reforms in Macedonia is to be composed of Austrian and Russian representatives without any representatives of the other powers, that the Sultan may defer accepting the plan until he has ascertained the attitude of Great Britain, France and the other powers interested in the Orient, and i said that these powers are not likely to favor the reform plan unless they are nted upon the commission

MINISTER FINED.

Has to Pay Sixty Dollars and Cost For Insulting an Italian Railway Officer.

Rome, Oct. 24.-Richmond Pearson, formerly United States consul at Genoa and now minister to Persia, has been fined sixty dollars and fifteen dollars costs, for insulting an Italian railway officer last December, previous to his appointment as minister. The government was desirous of settling the incident by pardoning Mr. Pearson, but the latter refused to ask for the King's clemency, as prescribed by law.
