POLICY

OF THE PROVINCE.

To the Electors of the County of Kings :

Gentlemen,- As your representative in the Legislature and Government of the Province, I feel it to be my duty, in view of the approaching By-Election, to state some of the reasons why, in my opinion, Mr. King, the candidate selected by the friends of the government, in convention, should be elect-

THE GOVERNMENT HAS BEEN CHARGED WITH DELAYING THE ELECTION-THE CHARGE IS, WITHOUT FOUNDATION.

As you are aware, after the vacancy in the representation occurred through the resignation of Hon. A. S. White, steps were taken for bringing on the election and the writ was about being issued, when it was brought to my notice that a

had been attempted against the Elec torate of the County, by the substitution of a bogus list of voters for the real list which had been prepared and sworn to by the Revisors of the Parish of Rothesay. To this offence, I am happy to be able to say, neither the Revisor appointed by the Government, nor the Councillors of the Parish (constituting the other Revisors) were parties. Some of the opposition development of the Province newspapers have charged that Revisor Gilliland addressed to the Clerk of the Peace the envelope containing the bogus list. In making this charge they knowingly do Mr. Gilliland a great injustice. The envelope when addressed

Under what is known as the Halifax Award the United States paid to the Dominion Government \$5,500,000 for the right of

fishing in the Territorial waters of the Maritime Provinces. If, as we contend, the result of the judgment of the Judicial Committee is that the Fisherie within three miles of the Coast belong to the Provinces, the amount of the Halifax Award should have been paid over to the Provincial Governments. New Brunswick's share would be about

one million and a half dollars, and it is the intention of the Government to press earnestly for its payment. We we already brought the matter to the notice of the Dominion Govern ment and have asked that steps may be taken by a reference to the Courts or otherwise, to have the rights of the Province to this amount determined. LETTERS FROM THE PEOPLE

To the Editor of the Sun:

sir-There appears to be a universal feel-ing of dissatisfaction among the people re the money wasted in school books. It is doubtful if a long suffering public has any greater humbug to put up with than that of paying for all the experimenting that is in-duiged in in the matter of books for our public schools-continued changes are being made. That some changes are necessary irom time to time nobody will deny. But why not have some system of deciding on the merits of a book before it is adopted, instead of foisting it on the schools and poor the merits of a book before it is adopted, instead of foisting it on the schools and poor people as an experiment? It is a shame, the expensive school books that the poor people of this country have to buy, and then prob-ably have to cast them aside in a few months on account of some new fad in the book line. This state of affairs is enough to beg-gar a man of moderate means who has a family to educate. It is not only a heavy tax on the parents who have to buy the books, but the retailer at the annual stock-taking invariably finds a lot of expensive school books on his shelves that are uterly worthless, having been discarded for someschool books on his shelves that are utterly worthless, having been discarded for some-thing in many cases of less merit. An ex-pensive book that has had a short run in the schools and has recently been discarded was condemned by the teachers at the start, but they were forced to use it, and the peo-ple were forced to buy it. The changes that are continually taking place in the matter of geographies, grammars, histories, readers, arithmetics, copy books and all the rest of it, brings forcibly to mind the antics of a child in the midst of its playthings. For all who have watched a child at play have no-ticed that the little one has a penchant for discarding one toy and reaching out for an-other, regardless as to whether the change is for weal or we. other, rea weal or woe. CRIMINAL LIBEL

The moment I learned of what had been done, I wired the Premier, asking him to countermand the order for issuing the Writ for election, and with the approval of my colleagues, introand had passed through the Legislature an Act declaring void the filing of the bogus list and providing all possible safeguards against the per-

petration of such an outrage in the future.

But the Government went further. They gave effect to the principle of ONE MAN, ONE VOTE,

and at their instance the Legislature passed an Act providing that no person shall be allowed to vote unless at the time of tendering his vote he is a resident and domiciled within the Electoral District.

It not having been practical 'to bring on the election until the legislation above referred to had been obtained. the question arose as to whether it would be better to have it during the past summer or autumn or wait until domestic purposes than they have been after the list of January, when the able to obtain in the past.
