telegraphed early last evening as fol-

James Kelly, I. O. R. travelling passen-  
ger agent, died last afternoon at the Queen  
Hotel, St. John. He was 41 years of age.  
He had been ill for some days with  
kidney trouble. This afternoon he rose from  
bed, shaved, and in some time died and  
expired. The body was forwarded to  
St. John by tonight's express.

News of Mr. Kelly's death will be  
heard with regret by a large circle of  
personal friends, coupled with deep  
sympathy for his bereaved wife and  
family. Mr. Kelly had been tele-

ing been appointed by Hon. Mr. Blair

did not take any prominent part in  
social society.

Ordnance has Arrived—Elaborate  
Coronation Day Programme An-  
nounced—The Summer School.

ST. STEPHEN, Aug. 2.—After the  
usual classes yesterday morning the  
members called in front of the  
school and were photographed by Mr.  
Matthew, instructor in drawing.  
Prof. Watson had a number of  
unique photographs taken by himself  
on exhibition at the school. He ob-  
tained the eye of an ox and removing  
the bone used it to obtain a highly  
magnified photo of a fly. Another  
curious effect he obtained by using the  
eye of a fly to photograph a person.  
He got three hundred and sixty small  
images on one plate. The fine point of  
needle looks blunt and the edge of  
a sharp razor full of dents in photo-  
graphs by combining the microscope and  
camera. Some of these things have  
never been done before.

Dr. Fletcher led a botanical party  
through the cemetery yesterday after-  
noon. The cemetery is probably the  
most beautiful in the province.

Dr. Bailey selected a number of  
specimens of nickel ore to be tested  
for platinum.

The annual concert of the school  
was held in the basement of the Meth-  
uist church last night. Miss Mrs.  
Brown gave readings from Tennyson's  
Poems, which were received with ap-  
plause. A quartette composed of Mrs.  
R. W. Grimme, Miss Louise Taylor,  
Miss Keys and Herbert Moore sang.  
Miss Taylor gave some violin solos.

ST. STEPHEN, N. B., Aug. 4.—Pro-  
fessor Robertson, addressed the sum-  
mer school in the rink this evening.

The elaborate programme first  
prepared for Coronation Day has been  
altered. The band, who were to oc-  
cupy the afternoon and fireworks and  
band concerts the evening.

The body of Eugene Cole, found in  
the river on Sunday morning, was in-  
terred in the cemetery of the Meth-  
uist church last night.

Ordnance has arrived here in  
preparation for the Foresters' High  
School, which opens tomorrow.

A meeting of the faculty of the sum-  
mer school, for the choice of officers  
and other business, was held on Sat-  
urday afternoon. Dr. Bailey was re-  
spected. The attendance was good.  
Chapman was selected as the next  
place of meeting.

Owing to other engagements Dr.  
Hall of Toronto, instructor of educa-  
tion, who was to be present  
yesterday, is unable to be present  
next year, and the filling of that and  
other vacancies in the faculty was left  
to the president and directors.

This afternoon a visit will be made  
to the beautiful grounds of the Hon.  
Mr. Hill, and on Tuesday an ex-  
cursion on the Washington County Rail-  
way to the falls of the St. John.

Dr. Fletcher will return with Prof.  
Robertson early this week and the lat-  
ter will give an evening address.

On Saturday J. T. Whitlock of the  
King Edward bank held a reception in  
honour of the faculty of the summer  
school. The gentlemen to the number  
of about twenty-five were given a  
backboard dinner about the town from  
seven until eight o'clock. The feast  
weather marred the view but did not  
dampen the spirits of the party. They  
ladies were waiting, and a very pleas-  
ant evening ensued. Miss Gretchen  
Vroom sang several selections, as did  
also Mr. Lane of Calais, both receiv-  
ing hearty applause.
