Sympathy for Druggist Convicted of Violating Scott Act.

Is Presented With an Address Largely Signed by Temperance People—Teachers Combine to Prevent Salary Cutting.

HOPEWELL HILL, Nov. 18.—Fred G. Logie, druggist, of Riverside, who was recently prosecuted under the Canada Temperance Act, and fined \$50 or one day in jail, certainly appears to have the sympathy and approval of the temperance people of the village in his being released.

Whereas, the violation, though a breach of the law, is in no way an infringement of the rights of the accused, and the offence charged being merely acts of kindness, as shown by the evidence;

Whereas, the cause of temperance is being seriously injured by such prosecution, and in consideration of the fact that if the magistrate had been to use his discretion, as we believe the act to be, there would have been no conviction; and furthermore, because Mr. Logie is a man of strong temperance principles;

Resolved, that the undersigned, desiring to express our strong disapproval of the prosecution and conviction made by contributing to a fund to reimburse Mr. Logie for the fine to which he has been subjected.

THE CANADIAN PACIFIC. Making Great Efforts to Rush Freight East and West.

Freight began to come in at Sand Point yesterday and the quantities will gradually increase until the winter port business is in full swing. It was at one time feared that there would be a shortage of cars, but this will not probably be the case.

A large order was placed some time ago with a Pittsburg concern and the first instalment of engines from that place is expected here next week. Six new heavy consolidation freighters, six wheelers, and built to pull a thousand tons over the line from St. John to Acadia have already been completed.

NERVOUS HEADACHE.

The Cause of Much Suffering to Women is Permanently Cured When the System is Built Up By Dr. Chase's Nerve Food

Headache powders relieve headaches, but they have never cured them, and they are not intended to make a lasting cure. Besides the risk run in using a drug that is strong enough to instantly stop pain, you may be sure that the reaction on the nervous system is most trying and injurious.

Mrs. C. B. Lockhart of the Carleton firm of A. C. Smith & Co., says that the prospects for large cattle shipments from St. John this winter are good. The Canadian market is well supplied, and there is evidence to support the supposition that American cattle will be plentiful.
