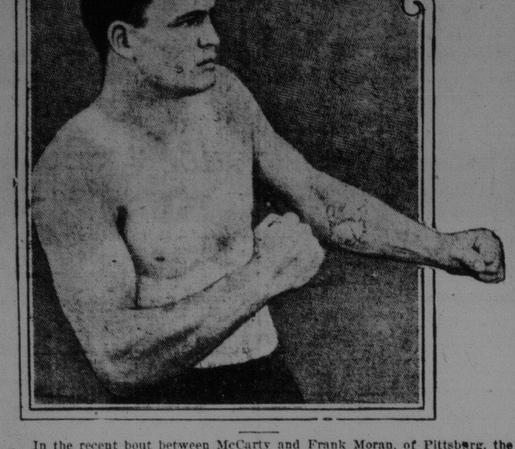
McCARTY IS NOT THE WHITE HOPE YET, SAY THE ENTHUSIASTS



In the recent bout between McCarty and Frank Moran, of Pittsburg, the boxing enthusiasts all agreed that McCarty had a long way to go before he could be considered as a "white hope." As it was, most of the big crowd which attended the bout went out of the arena fully convinced that it will be long and many a day before there is a worthy successor to the crown of the white beavies that Jeffries wore.

McCarty was never in any danger, and at the end he was unmarked. On the other hand, Moran had a cut under his right eye and another between the two of them on his forehead, where McCarty had bumped him with his head in an early round. As far as the result went, there was not an awful lot for the "champion" to be proud of.

EDISON'S "TALKIES" CAPTURE THE NICKEL

Enormous Crowds Surprised and Delighted with Scientific Novelty.

A practical demonstration of what is considered to be one of the most remarkable inventions of the age was made before thousands of enthusiastic people at Nickel Theatre yesterday at the first appearance in St. John of the Edison talking pictures.

An introductory film was first thrown on the screen, while the audience sat literally spell-bound, waiting for the newest invention of the 20th century. Before their gaze a dress-coated gentleman stepped out and explained that Mr. Edison, the inventor of the moving pictures and the phonograph, had succeeded in combining the two in the Kineteophone.

While the audience gazed at the pictured speaker, who gestured and moved about, his words were entirely audible to the farthest corner of the theatres ,by means of a machine which threw the sound out of the rectangular aperture at the bottom of the screen.

The illusion was complete, and for some time the audience sat with hardly a movement, as the pictured orator told them of the possibilities of the new invention, and what it will mean to posterity. He said that by its aid the mannerism of actors and orators, together with the inflections of their voices, would be presented to the people of the future generations as plainly as though they were hearing them today.

He stated that had this wonderful machine been in existence in Washington's time, the personality of the man would have been preserved, and declared that the greatest sayings of all the great men of the time will hereafter be preserved in all their original richness.

It will no more be necessary for people to read cold print and then fall back upon their imaginations to determine the personality of the people of whom they are reading, he said.

To illustrate, the speaker broke an earthenware plate on the floor, and the crash and resultant echo was heard by everyone. The picture of a piano player was next thrown on the screen and the audiences listened to a rendition which was as distinct as if the musician were before them in plain sight on the stage. A violin player was then heard, followed by a tenor soloist and a bugler. Every note and tone was perfectly audible and in accord with the movements of the pictured performers, and the applause was loud and prolonged.

In the second film the Edison Minstrels were shown. The interlocutor was seen to walk forward and then announce: "Gentlemen, be seated. Grand Introductory Overture." This was followed by the "Soldiers Chorus,' from Faust; then came the end men's jokes and a baritone solo: "Believe me, if all those endearing young charms." When an end man sang 'When the Midnight Choo Choo leaves for Alabama," the crowd responded with a spontaneous burst of applause, and the tenor solo of George W. Ballard, "Silver Threads Among the Gold," was also strenuously applauded.

The programme ended with patriotic songs by the entire chorus, including "Dixie," which brought more uproar, and "God Save the King." A picture of Thomas A. Edison was thrown on the screen and for several minutes the audience applauded.

The Nickel also showed five dumb pictures and presented Miss Blaisdell in soprano numbers.

NATIONALS DEFEAT THE AMERICANS

Cleveland, Ohio, May 5.—The Pittsburg National League club defeated the Cleveland Americans, 6 to 5, in an exhibiton game here today. This is the first time in seven years that Pittsburg has played here, and the first time a National League club ever played here during the regular season. Hans Wagner made his re-appearance in the game, while Manager Fred Clarke played for the first time since the fall of 1911.

Cleveland	320000000	5	9 2

Batteries: Conselman, Robinson and Simons; Cullop, Kahler and O'Neill.

DOYLE WITH THE GIANTS THIS SEASON

Larry Doyle of the New York Giants is going after Zimmerman's batting record of last season. He has always been a hard hitter—one of the free swinging kind, and a dangerous man to have up in a pinch.

In the Boston series he made six hits in succession and might have made more if he hadn't peeved the umpire and was removed from the fray. Being put out of the game is bad enough to "Laughing Larry," but he received three days' suspension and a $50 fine, and McGraw plastered on another fifty for disobeying orders and sassing the umpire.

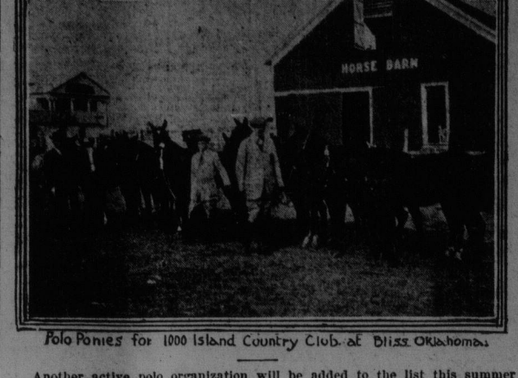
POLO NOW AT THE THOUSAND ISLANDS.



Polo Ponies for 1000 Island Country Club at Bliss Oklahoma

Another active polo organization will be added to the list this summer if the project of Alfred Graham Miles to put the game on a sound basis in the Thousand Islands is successful. A string of fifteen ponies purchased from the 101 Ranch at Bliss, Okla., has just arrived at the Thousand Islands Country Club—and they will be immediately worked into condition for a season's campaign. This collection will augment five head that the enthusiasts had last year when they first began to play the game there. E. S. Burke, of Cleveland, will send some along later, so by the time things are ready for play there will be enough mounts to go around for a regular game.

The ponies were selected at 101 Ranch by Mr. Miles and C. Davies Tainter and were drawn for by lot by the following:—J. B. Taylor, Watertown, N. Y.; Miller, Montreal; Joseph Whittman, New York city; Logan A. Vilas, Chicago; Lee M. Rumsey, St. Louis; Mrs. A. G. Miles, New York city; L. H. Vilas, Chicago; E. S. Burke, Cleveland; George S. Hasbrouck, New York city, and C. M. Englis, Brooklyn.

News of Canadian Baseball Plans for Season.

Canada is getting to be a big girl now, and able to stand on her own plump pins, without assistance from Neighbor Sam. At the same time, with all due regard for the cricket of her mother country and her own ingenious lacrosse, Miss Canada is a rabid baseball fan, and growing more so every year. The Canadian League today on the eve of its third pennant race, looks forward to the most prosperous season in its history. The New Brunswick-Maine League in the East, the Canadian League in Ontario, and the Toronto in the International, Winnipeg in the new Northern, and Vancouver ad Victoria in the Northwestern, give the Dominion a string of baseball clubs stretching from Atlantic to Pacific.

While baseball originated in the United States, it was taken up in Canada at an early date, and the Dominion had some good nines long before the game was placed on an organized and professional basis. Among the clubs of the late 60's and the early 70's were the Ottawas, the Montreals, the Maple Leafs of Guelph, and the Daundless club of Toronto. These aggregations met some of the best of the teams across the border and were as often victorious as defeated. Canada's first anticipation in organized baseball was in 1877, when the Maple Leafs of Gpelph, Ont., and the Tecumschs of London, Ont., were members of the International Association, the other clubs representing Pittsburgh, Rochester, Manchester, N.H., Columbus, O., and Lynn, Mass. The Tecumsehs won the pennant and London thus became the first Canadian city to fly a baseball league flag. The Guelph club retired from the association the following year and in 1879 the Tecumsehs dropped out.

American amateur boxing championships are scheduled for decision in Boston today and tomorrow. The A. A. U. has decided upon the following eight classifications: Bantam, 108 pounds and under; feather, 115 pounds; special, 125 pounds; lightweight, 135 pounds; welter, 145 pounds; middle, 159 pounds; light heavy, 175 pounds, and heavy, over 175 pounds.

WADDELL LEAVES DIAMOND.

Minneapolis, May 5.—George Edward (Rube) Waddell is through with baseball forever, he declared yesterday. He had been turned over to the Northern League club here by the Minneapolis Association club, after a long illness. He pitched one good game for the bush leaguers, but yesterday turned in his uniform and said he was through.

"I've been in the business for 15 years," he said, "and I guess I'll quit. I may pitch a game occasionally for an independent team, but that will be all. I'll make my living some way."

Waddell is said not to have a dollar to his name.

STALLINGS GETS KLING.

PRINCETON RECEIVES A SET-BACK

Princeton, N. J., May 4.—The Princeton crew which was to have met Harvard and Pennsylvania on the Charles river next Saturday has received a serious setback through the definite announcement by the doctors that Ted Briggs, who has been rowing No. 5 all fall and was the gem of the eight, will be kept out of the race by a festered hand which has resulted from delayed attention to a sore received while rowing.

Briggs was conceded by all authorities to be the best of the Tiger oarsmen, and his absence will have to be filled by a general rearrangement of the seating of the eight. The change has come so late that the new crew will hardly be effectually broken in before the race.

YACHTSMAN STRICKEN.

Bristol, R. I., May 5.—Prof. William Hallock of Columbia College, official measurer of the New York Y. C., fell to the deck of the sloop Barbara, one of the new sloops of the 50 foot racing class, owned by Harry Payne Whitney, in a stroke of apoplexy here Sunday afternoon.

He had just finished measuring from a small boat and as he stepped to the deck fell forward. He was carried ashore unconscious and was removed to a hotel, where under treatment he regained consciousness in a few hours. Prof. Hallock is 74 years old.

Prof. Hallock's family were notified of his condition and arrived here this evening. Hopes are held out of his recovery.

ALDERMAN SAVES TWO VOTERS.

Fredericton, May 5.—Two young men, Jack Belyea and Kenneth McLauchlan, the latter son of Rev. Neil McLaughlan, were out on the river in a canvas canoe with a sail, and in their manipulation of the craft in the heavy current caused it to suddenly overturn, precipitating them into the water. They clung to the craft and shouted for help. Finally, ex-Ald. Cornelius J. Kelly and a boy went to their assistance in a rowboat and the young men were rescued.

MARITIME

FOREIGN NEWS TOLD IN BRIEF

Lord Chancellor of England Puts an End to Hearings "in Camera"—Japan is Building Three More Warships.

Open Divorce Court Henceforth.

London, May 5.—An end was put today to the possibility of secret proceedings in divorce and other suits in the United Kingdom by a judgment delivered by the House of Lords, sitting as the highest Court of Appeals. The divorce courts had adjudged a Mrs. Scott guilty of contempt of court in circulating among her friends the report of a case heard "in camera," in which she had been accused of infidelity, but had been vindicated. The Lord Chancellor's opinion, in which the other law lords concurred today, reversed the judgment for contempt of court, which the court of appeal had sustained. The Lord Chancellor declared: "Every court of justice in the land is open to every subject of the King and a court has no power to sit otherwise than with open doors."

Warning to Plotters.

Pekin, May 5.—President Yuan Kai Shi has issued a manifesto warning the people that although he has refrained up to the present from employing military force against plotters, in the hope that the conspiracies would cease, he will not permit in the future conspirators to stir up trouble. He expresses the hope that after the next presidential election he will be relieved from the cares of office.

Three More for Japan.

Tokio, Japan, May 5.—The navy department has contracted for three battleships of 30,500 tons, each to be built in Japan. They will be sister ships to the Fuso, now building in the naval dockyards at Kire. Very little is definitely known of the Fuso, but it is supposed that her armor, in accordance with the Japanese practice since the Russian war, will consist of a moderately heavy belt, probably ten inches thick, extending over nearly her entire length and carried clear up to the main deck. The ship is designed, according to the report, for a speed of 27 knots.

Getting Down to Business.

Port Au Prince, May 5.—Michael Oreste, the new President of the Republic of Haiti, elected yesterday, immediately displayed great energy in the suppression of disorder in the city and declares that he will maintain peace with a strong hand. General Defly, governor of the city, who attacked the parliamentary building during the voting for the presidency yesterday, was repulsed together with his followers by the regular troops commanded by General Poitevien. General Defly fled and took refuge in the Cuban legation.

Alfonso in Paris Tomorrow.

Paris, May 5.—The coming visit to the French capital of King Alfonso of Spain, who arrives on Wednesday, is regarded as of considerable significance for Europe, as it is said that it may mean the entrance of Spain into the friendly understanding known as the triple entente between France, Great Britain and Russia.

Killed While Escaping.

Toronto, Ont., May 5.—Desiring to impose himself no longer on the staff of the general hospital, believing his illness to be fatal, William G. Anthony, an Englishman forty-three years of age, made an attempt to leave the hospital in secret and fell with such violence from a rope by which he was descending from the hospital balcony that death resulted.

COMES EAST TO BUY FARM.

(Sackville Tribune.)

Alderman John Tucker, who it will be remembered, purchased the property known as the Hiram Road farm some time ago, sold out to a Mr. Jones last week. Mr. Jones, who came from England a few years ago, located in Western Canada, but being dissatisfied with western conditions he decided to come east and see what the Maritime Provinces offered as a farming district. After visiting several of the farming districts in the provinces he decided to settle in Sackville and so purchased the farm from Ald. Tucker as above stated.

Mr. Jones has his wife, a son, and his wife's father and mother with him and should prove a valuable addition to Sackville's population. They will settle on their farm this week and as soon as weather conditions permit will proceed with the planting of their crop.
