INTERESTING SCENES YESTERDAY'S BASE GAME

Robert S. Ganley, Manager of Fredericton Team, Arrested for Assaulting Umpire McCann — Ungentlemanly Conduct of Fredericton Players — Gross Violation of Baseball Rules and Umpire Awards Game to Marathons in 11th Inning

Never in the history of baseball in this city was there so much excitement and never so many disgraceful actions on the part of baseball players as on the Marathons ground yesterday afternoon. Rowdiness reigned supreme with some of the Fredericton players, and what should have been a good game of ball was turned into a rough-house game by Fredericton.

Umpire McCann was assaulted by Bob Ganley, the manager of the Fredericton team, and had to go to the hospital for repairs; the game went on to the 11th inning and on the failure of Fredericton to resume play was forfeited to the Marathons. To cap the climax Umpire McCann swore out a warrant charging Ganley with assault and the latter was arrested last night and allowed out on a deposit of one hundred dollars to appear in the police court this morning.

There were about five hundred people at the game with Umpire McCann as umpire-in-chief and Umpire Hanley on the bases. Nearly every person present showed great displeasure at Ganley's actions, when he so far forgot himself as to assault the umpire, and also for the manner in which other Fredericton players acted during the disputes.

The Game by Innings.

The Greeks started the game with Shanley in the box and very little difficulty was experienced in retiring Fredericton in the first inning. For the Marathons, O'Brien drew a base on balls and was advanced to third on Hughes' two bager to right field. Black fouled out to catcher. Wait hit out to second and O'Brien scored on the play. Ben struck out and retired the side.

The first three Fredericton men to bat went out in the second inning. For the Marathons Waterhouse hit to center for two bases, Riley fouled out, Nolan struck out. Shanley came across with a two base hit to center which scored Waterhouse. There was no more scoring until the fifth inning when Shanley became wild and weakened. Fryer opened for the visitors with a two base hit to left field. Fryer hit to Waterhouse who missed and Flynn went to first. Duggan came across with a three base hit to right field which scored Flynn and Fryer. Ganley hit out to first. White beat out a slow hit to pitcher and Duggan scored. Callahan hit safe to center. Sullivan fouled out to catcher and Marcotte retired the side, hitting out to Nolan at second.

The First Delay and Assault.

It was in the fifth inning that the first delay and assault took place. Black was at the bat and Flynn pitched a ball which looked like a strike and which Umpire McCann called a ball. Ganley, who is manager of the team and who was playing in the field, ran in from the field and delayed the game while he started in an argument with the umpire. The umpire ordered Ganley to take his position in the field and resume the game, but Ganley would not go to his position without having something more to say and he said so much that Umpire McCann ordered him to the bench and out of the game. Ganley then bumped up against the umpire and before leaving stamped his clamped shoes on the umpire's feet and then repeatedly kicked the umpire on the legs until other players got in between the two men. Ganley went to the bench and Desmond, a spare player, went into the sixth inning Murphy opened for Fredericton with a three base hit to center field and scored when Flynn placed a single to left. Fryer was hit by a pitched ball. An error of O'Brien's allowed Flynn to reach third. Desmond hit to pitcher and filled the bases. Pat Duggan then came to bat with a three base hit to left field, scoring Flynn and Fryer. Desmond was caught at the plate. White fouled out to O'Brien and retired the side.

Shanley Benched.

In the seventh inning Shanley gave the first two men a base on balls. He was then benched and Woodbury was placed in the box. The first man to face him received a pass. With the bases full and no one out it looked blue for the Greeks. Murphy hit short and Callahan was forced out at the plate. Flynn hit to pitcher, Sullivan was forced out and O'Brien managed to score. The next three men to bat were retired quickly.

The Fredericton players were retired quickly in the eighth, while the Marathons managed to get two more men across the plate and tie the score. Ben beat out a hit to short. Waterhouse fouled out to catcher. Riley hit safe to right. Nolan was hit by a pitched ball and the bases were filled. Woodbury hit safe to center scoring Ben while Riley was caught out at short. O'Brien drew a base on balls. Murphy then had a couple of passed balls which allowed Nolan to score and tie up the game. Hughes

UMPIRES AND THEIR DUTIES.

Power to Enforce Decisions.

Rule 66.—The umpires are the representatives of the League and as such are authorized and required to enforce each section of this code. They shall have the power to order any player, captain or manager to do or omit to do any act which in their judgment is necessary to give force and effect to one or all of these rules, and to inflict penalties for violations of the rules as hereinafter prescribed.

Must Not Question Decisions.

Rule 65.—Under no circumstances shall a captain or player dispute the accuracy of the umpire's judgment and decision on a play.

Penalties for Violations of the Rules.

Rule 67.—Section 1.—In all cases of violation of these rules, by either player or manager, the penalty shall be prompt removal of the offender from the game and grounds, followed by a period of suspension from actual service in the club until the next meeting of the league may fix. In the event of removal of player or manager by either umpire, he shall assess a fine of \$5.00 against each offending player in the following cases: (1) If the offender intentionally discolor or damage the ball.

Discolor or Damaged Balls.

Sec. 4.—In the event of a ball being intentionally discolored by rubbing with the soil or otherwise by any player, or otherwise damaged by any player, the umpire shall forthwith command the return of that ball and substitute for it another legal ball, as hereinafter described. If the offender shall leave the ball on the field, he shall be fined \$5.00 on the offending player.

Penalty for Violation.

Sec. 2.—Whenever the umpire observes a violation of the preceding section, he shall immediately order the offender to be seated. If the offender be ejected within one minute of the offense, the offender shall be ejected from the game and shall be barred from further participation in the game, and shall be obliged to forfeit the game, and shall be obliged to forfeit the game, and shall be obliged to forfeit the game.

Rule 70.—When the offense of the player described by the game be of a flagrant nature, the umpire shall use obscene language or an assault upon a player or umpire, the umpire shall within ten minutes after the offense to the president of the league full particulars.

Delaying the Game.

Rule 33.—Section 1.—If after the batter has taken his position ready to strike at a pitched ball the ball be thrown at the pitcher by any player or umpire, the umpire shall in 10 feet of the home base (except in an attempt to retire a runner), each ball so thrown shall be called a ball.

Sec. 2.—The umpire shall call a ball on the pitcher each time he delays the game by failing to deliver the ball to the batsman for a longer period than 20 seconds, excepting that at the commencement of each inning, or when a pitcher receives another, the pitcher may occupy one minute in deliberating to deliver the ball to the catcher or an infielder, during which time play shall be suspended.

Umpire Goes to Hospital.

After the game, Umpire McCann was taken to the hospital and he has his injured legs attended to by a doctor, for the injuries received when he was kicked by the players with the sharp clamps in his shoes. After being attended to Umpire McCann called at the police court and swore out a warrant for Ganley's arrest, charging him with assault.

Magistrate Stops Rowdiness.

Magistrate Ritchie then had a few things to say, as follows: "Frank W. McCann came here and made a charge against this man Ganley for assault and claimed that, as a result of the assault, he had to go to the hospital and have his injuries attended to. I am not sure that I will allow the prisoner to go tonight as the plaintiff is not here, and I think he will be remanded to jail for the night."

There are two sections in the act under which he might be proceeded against. If the charge is proved, that a fine of one hundred dollars be imposed, I might be disposed to impose a fine, or if the charge comes under an act where the prisoner could be sent to jail without a fine, I might be disposed to send him to jail.

I have followed baseball for a great many years and I like good, clean sports. When the referee removed a crowd of ladies and gentlemen present in an audience, and players participate in such actions that war-

WILL TRY TO TAKE WHILE PRINCE DRY

Grand Division Sons of Temperance Decide for Campaign.

WILL GET AFTER WET WARDENS IN THE CITY

Strong Recommendations Adopted at Semi-Annual Meeting — Favor Going to Legislature at Next Session.

Special to The Standard.

Cornhill, King's County, June 12.—The semi-annual meeting of the Grand Division of the Sons of Temperance for the province of New Brunswick closed today, when in the reports submitted, among other matters, the grand division decided that a strong effort be made to have prohibition established in every city throughout the province.

In his report S. B. Bastin, Grand Worthy Patriarch, read the following paragraph:

"We must have prohibition all over the province. Take, for instance, the City of St. John and see the difficulty of enforcing local option. The city is divided into dry and wet spots. Now suppose that every other street in the City of St. John had a number of individuals who were licensed to rob, would it not be difficult to keep the streets safe? The same principle applies to the districts where they were not licensed? What we need is prohibition, which will protect the whole province, one law for every one, one law for all Canada, prohibition for the world."

The recommendations made by the Grand Worthy Patriarch were:

1st.—Increased efforts as to propagation work and the education of children along temperance lines.

2nd.—A petition for prohibition, to be signed by every one in our province who approves of prohibition and presented to our legislature at its next session.

3rd.—That a fight be brought on every portion of the province (that can be opened), at once, to include all wet wards in the City of St. John. We are informed that the liquor interests intend to try to open a number of the St. John dry wards. Let us meet them and defeat them with their own weapons."

The State of the Order.

The committee on the State of the Order reported that the reports received from the Grand Patriarch, Grand Patron and Grand Treasurer were most gratifying. It was stated that the progress had been made in the adult and juvenile departments of the order. Several new divisions were found to have been organized during the quarters, others revived, and full reports from the different divisions had been received.

In the report of Mr. Bastin appeared the following paragraph:

"It is said that St. John is the open shore of the province, and it certainly is the most difficult battle ground for us by reason of the enormous arsenal and embankments in the shape of money interests there vested by our enemy. The large cities have always depended upon the pure blood of the country to prevent their corruption. Otherwise in three generations they would be depopulated. For the above reasons we deplore the fact that the country is so depopulated."

In compliance with the suggestion of the State of the Order committee, S. B. Bastin, Rev. W. R. Robinson, E. S. Rowley, S. McAvoy, E. S. Hennigar were appointed a committee to carry on the work of the organization.

The Finance and Audit committee reported as having found the accounts of the Grand Patriarch, Grand Patron and Grand Treasurer correct and very carefully and accurately kept.

The following Grand Division officers were present: G. W. P., S. B. Bastin, St. John; G. W. A., F. G. Moore, Hopewell Hill, Albert Co.; G. S. Rev. W. R. Robinson, St. John; G. T. H. M. Ferguson, Rexton, Kent Co.; G. P. Miss C. M. Kirby, Point de Bute, Westmorland Co.; B. C. Chap. Mrs. C. S. Hennigar, pro tem, St. John; G. C. F. House, Corn Hill, Kings Co.; S. S. E. McCarthy, Moncton; P. G. W. P., E. S. Hennigar, pro tem, St. John.

During the evening an entertainment was held in the Public Hall with the G. W. P. presiding. Addresses were given by several presenters.

Mr. Ritchie then it is time that such persons were dealt with severely."

Out on Bail.

The prisoner offered bail and, by leaving a deposit of \$100 for his appearance in court at 2:30 o'clock this morning he was allowed to go from the court with his friends.

Umpire McCann appears to have had a lively time at Fredericton on Thursday when, according to the Gleaner of that city, he was insulted and assaulted by a Fredericton player.

The following article is clipped from yesterday's Gleaner:

"Hank Callahan gave Umpire McCann a merry few moments after he

GOVERNMENT RECOGNIZES AS NATIONAL PORT

MANUFACTURERS TO VISIT ST. JOHN AFTER HALIFAX

President of Canadian Manufacturers Says Members Will Stop here on way Home from Convention.

Robert S. Courlay, president of the Canadian Manufacturers' Association, passed through the city yesterday on his way from Halifax to his home in Toronto. He was in Halifax attending a meeting of the Nova Scotia branch of the association called to consider arrangements for the annual convention which takes place in Halifax in September.

Asked what his manufacturers would come to the Maritime Provinces on the excursion which is being organized by the St. John Board of Trade and the C. F. R. R., he said the proposition had been sprung on the people of St. John suddenly to obtain the best results. "We have," he said, "sent out invitations to take part in the excursion, but the response so far has been rather limited."

The trouble is that most of those who might join the party had already made their arrangements for the summer, while those who have decided to attend the convention in Halifax are not particularly anxious to make two trips to the Maritime Provinces. The idea of an excursion is a good one, though it should have been advertised a long time before.

However, it is the intention of the Manufacturers' Association to visit St. John after the convention in Halifax. The convention will be held on the 15th, 16th and 17th of September and the members of the Association probably spent the following Saturday in St. John, after a trip through the Annapolis Valley."

"The Maritime Provinces are making progress," said Mr. Courlay, "and when their agricultural and industrial possibilities are better known, they should go ahead at an even faster rate."

Mr. Courlay said that the Maritime Provinces the better it will be for the provinces and for the Dominion as a whole. So far most of the immigration has been into the western provinces, and Ontario, too. When the immigrant settles in the East he comes in contact with the real Canadian spirit, and we are able to impress the Canadian viewpoint upon him. The East has the power of assimilation. We want more immigrants in the East not only as a help to the development of the sources of the East, but to counterbalance the influx of foreigners into the West, where they do not so readily become Canadians; to preserve as it were a sort of balance in the development of our national life."

So far most of the immigration has been into the western provinces, and Ontario, too. When the immigrant settles in the East he comes in contact with the real Canadian spirit, and we are able to impress the Canadian viewpoint upon him. The East has the power of assimilation. We want more immigrants in the East not only as a help to the development of the sources of the East, but to counterbalance the influx of foreigners into the West, where they do not so readily become Canadians; to preserve as it were a sort of balance in the development of our national life."

He said that the Maritime Provinces are making progress, and when their agricultural and industrial possibilities are better known, they should go ahead at an even faster rate."

Mr. Courlay said that the Maritime Provinces the better it will be for the provinces and for the Dominion as a whole. So far most of the immigration has been into the western provinces, and Ontario, too. When the immigrant settles in the East he comes in contact with the real Canadian spirit, and we are able to impress the Canadian viewpoint upon him. The East has the power of assimilation. We want more immigrants in the East not only as a help to the development of the sources of the East, but to counterbalance the influx of foreigners into the West, where they do not so readily become Canadians; to preserve as it were a sort of balance in the development of our national life."
