We All Are.

At the dental congress in Ashbury Park, Dr. J. P. Carmichael, of Milwaukee, apropos of a disappointment in dental legislation, said philosophically:

"Well, let us not despair. Let us remember the old maid."

"An old maid, you know, went into a decline."

"What's the matter with you," her doctor asked.

"Oh, doctor," she sobbed. "I've been disappointed in love!"

"Naturally!" said the doctor. "It never does come up to expectations."

A TRUST BILL NEXT SESSION

Will Affect Incorporation of Trust or Loan Companies — To Standardize all Such Legislation.

Special to The Standard.

Ottawa, Sept. 7.—The list of government legislation for the next session of parliament will include a bill affecting the incorporation of trust and loan companies. The measure will be prepared between now and the session by the Minister of Finance, Hon. W. T. White.

Under the present system every application for legislation chartering a trust or loan company, or a trust and loan company, has to work out its own salvation before the House committee on banking and commerce, the committee having for its guidance a so called model bill.

The intention is to standardize all such legislation by the enactment of a law which will govern the incorporation of trust and loan companies as the chartering of insurance companies is now governed by the Insurance Act.

IDLE MONEY UNPROFITABLE,
WORKING MONEY PROFIT.

Numbers of people who have small amounts of money in the Savings Bank earning only three per cent. are finding that they can place their money just as safely in the shares which are guaranteed both as to interest and principal, soon to be issued by J. S. Gibson and Co. Ltd.

This widespread interest of people investing \$200, \$300, \$500 and \$1,000 shares will also prove a profit to the coal business which the company is acquiring and the money will be earning eight per cent. from the start, profits in addition on the redemption of the shares.

TO EXAMINE UNION LIFE DIRECTORS

Minister of Finance Considers Inquiry is Necessary in Interests of Insurance in Dominion.

Special to The Standard.
Ottawa, Sept. 8.—The Minister of Finance has requested G. T. Clarkson, the Liquidator of the Union Life Assurance Company, to examine by his counsel, St. Masten, the officers and directors of the company, as to the conduct of the business since the date of the insurance investigation in 1906 when the affairs of the company were under review by the commission.

This enquiry will ascertain in what manner the resources of the company were depleted, whether through unsound investments, wasteful management, or otherwise, and particularly what disposition was made of the capital and premium amounting to more than six hundred thousand dollars contributed by British shareholders.

The Minister considers this enquiry necessary in the general interests of life insurance in the Dominion.

Advice to Yuan.

(Ottawa Citizen.)

Yuan Shi Kai has promised to resign as provisional president of China when the rebellion is over. His action reminds one of the court fool whose life had been threatened by a courtier. On telling the king of the threat, the latter replied, "If he kills you I will kill him fifteen minutes afterwards." Whereupon the fool wisely said, "Kill him fifteen minutes before!" It might be better if Shi Kai resigned before the rebellion is over.

HER BABY
WAS BOTHERED WITH
DIARRHŒA

FROM THE TIME SHE WAS BORN

DR. FOWLER'S
EXTRACT OF
WILD STRAWBERRY
CURED HER

Mrs. THOMAS SEALROD, Schreiber, Ont., writes: "My little girl, who is now nearly four years old, and is as healthy and strong as can be, was bothered with Diarrhœa from the time she was born until she was over two years old. The doctor in the hospital, where I was when she was born, did everything he could but did not get it stopped. Just as soon as I got out myself, I got a bottle of Dr. Fowler's Extract of Wild Strawberry, and gave it to her, off and on, whenever she needed it, and I never had a doctor in the house once, for it would always check it without any bad after effects, and in time cured her altogether. I always keep it in the house, as I have never found anything to compete with it for Diarrhœa."

When you ask for "Dr. Fowler's" be sure you get it, as some of these names, no-reputation, so-called strawberry preparations are being sold on the reputation built up by "Dr. Fowler's."

To insure getting the genuine, see that the name of The T. Milburn Co., Limited, Toronto, Ontario, appears on the yellow wrapper. Price, 25 cents.

COLD STORAGE PLANT FOR SHELBURNE, N. S.

Richard O'Leary, of Richibucto, Interested in Establishment of Big Industry—Inducements Offered

Richard O'Leary, of Richibucto, S. Y. Wilson, of Halifax, and F. P. Jones of Philadelphia are planning the establishment of a big cold storage plant for handling fish at Shelburne, N. S. The town council has offered them a free site, exemption from taxes for ten years and electric power at 2½ cents per kilowatt. Mr. O'Leary's company expects to spend \$140,000 on a cold storage plant and equipment.

A short distance from Shelburne the Lockport Fish Company, now controlled by Senator Mackay of Montreal, and William Hodge, has a big cold storage plant which has revolutionized the fishing industry on that part of the coast. Owing to the steady supply of bait and the ready market for all kinds of fish provided by the cold storage plant, some of the Shelburne vessels have been paying 100 per cent. and the fishermen, especially in the winter season, have been out of Boston or Gloucester.

Mr. O'Leary's company will be contentedly situated for supplying the American market, if the United States removes the duty from fish.

It is now such a pleasure to enjoy meals with their consequent nourishment that I want to mention this for the benefit of others."

The fact that a lot of prescriptions or so-called "cures" have failed to help you is no sign that you have got to go on suffering.
