

CANADIAN TROOPS JOIN LONDON TAXIS

Metropolis treated to unusual spectacle—Soldiers from Dominion enjoy sights and get welcome from citizens.

London, Nov. 7.—Squads of private soldiers touring about town in taxicabs is a new war spectacle the Canadian contingent is providing London. Several hundred of the Canadians have visited the metropolis this week on short leave of absence from their camp at Salisbury Plain. They appear to have plenty of money and to enjoy the sights of London thoroughly, while London finds equal pleasure in fraternism with the visitors. The assumption of the command of the Canadians by General Alderson, and his orders for the establishment of a canteen and greater liberality in granting leaves of absence from camp, have relieved the principal causes of discontent which beset the contingent from overseas on its arrival.

MEMBERS OF THEATRICAL PROFESSION HIT BY WAR

Hundreds of Stage folk thrown out of work and in need of help.

London, Nov. 7.—Many cases of dire poverty are being reported to relief committees among the classes that depend upon amusements for their livelihood. Small part actors, stage hands and others are threatened with starvation. The war has certainly hit the theatres, and theatre folk of the United Kingdom, a hard blow.

Whereas in ordinary times there are four hundred travelling companies on the road, there are today less than half this number.

The darkened streets in London have already resulted in a new established order of things, and many theatres have been closed. To the high salaried actor or actress who has saved up for a rainy day the situation is not so serious, but theatre employees must have substantial aid at once.

To alleviate the situation several relief movements have been started among them a plan to have a special variety week at the Women's Theatre, for which the public have been urged to purchase tickets.

Well known actresses and actors will give their services gratis.

ST. JOHN BOYS' CLUB.

The Every Day Boys' Club will hereafter be known as the St. John Boys' Club. The work has been taken over by the Playgrounds Association, and will be under the direction of Superintendent Howard. Harry Klein, who was one of the instructors on the playgrounds during the summer holidays, and has also taken a special course in boys' work, has volunteered his services to assist in the work of the club whenever possible during the winter. Ladies of the High School Alumnae Association have kindly offered to assist in giving the boys some entertainments during the season. The hall has been renovated, and the work will be carried on much more systematically than was possible in the past. The club will be formally organized next week, but the hall has been open during the last three evenings, and last night forty-five boys were there enjoying the games. Harry Scott, who was caretaker of the hall last winter, and is personally acquainted with all the boys, has been engaged again for the coming season. Superintendent Howard will introduce new features into the work of the club, making it most interesting and of greater value to the members. A new staff of officers of the Y. M. C. A. are in hearty sympathy with the work, and have expressed their desire to cooperate in any way possible. Citizens having Victrola records, for which they have no further use would confer a great favor by donating them to the club.

RED CROSS ORGANIZED.

Jacksonville, N. B., Nov. 6.—On Oct. 19th, at the home of Mrs. C. F. Margison, a branch of the Red Cross Society was organized with Mrs. J. B. Gough, president; Mrs. Everett Ridley, secretary; Mrs. Wilson, treasurer.

Before the work of the society was taken up, three boxes of clothing valued at \$75 were packed and shipped to the Belgian Relief Fund. On Oct. 15th a basket social and entertainment was held in Mr. Hagerman's Hall, the proceeds amounting to \$52 also being in aid of the Belgian Relief Fund. The society is steadily progressing.

Attempt to Steal Molasses.

A bold attempt to steal two casks of molasses from the Long Wharf was made Thursday night. The first indication of the attempt was received when men from Baird & Peters' office went to the Long Wharf in the morning to haul the molasses away. They found a length of rope which had been left by the would-be thieves, one of the casks lying in the mud beside the wharf and another rolled to the end of the wharf, apparently in readiness to be hoisted into the boat. It is supposed that the men came to the wharf in a boat and rolled two casks to the edge. When they were lowering one of the casks into the boat the rope slipped and allowed it to fall to the muddy bottom of the slip. At this moment the men must have taken flight, probably at the approach of the watchman, and made a hurried escape, leaving the rope behind them.

POLES IN WEST WOULD FIGHT FOR BRITAIN

Polish Settlers would enlist in Second Canadian Contingent—Several good fighting corps could be raised.

Special to The Standard. Ottawa, Nov. 8.—"I could enlist two more divisions on the prairie in ten days, for service in Europe," said Hon. Robert Rogers today on his return from Winnipeg. "The patriotic feeling in the west is intense and determined. There it is a question of selecting, not urging in securing soldiers. The disappointed are those whose services have not been accepted."

"Our foreign born citizens are almost to a man satisfied with British citizenship and there is no occasion to alarm about their attitude. They are anxious to serve the Empire. This is particularly evident among our Polish settlers. If it were necessary thousands of these splendid soldiers would enlist. They are anxious to take part in the conflict. Many of them have had military training and several good fighting corps could be raised among them."

ANOTHER LETTER ON THE CANTEN

Correspondent Resents Letter of "M. D." and Speaks a Word for Canadian Mothers.

Moncton, N. B., Nov. 5, 1914.

To the Editor of The Standard. Sir,—I think the communication in your issue of the 2nd instant and signed "M.D." is rather insulting to the motherhood of Canada, as it intimates that the mother who has taught her boy to be a teetotaler and is still anxious to retain his temperance sentiments when at the front is a crank. Thank heaven for such cranks. I prefer a crank like that rather than the "mothers" who have brought up their sons to be men to be able to take a glass or leave it as they think fit. The one who is taught to take a drink or leave it alone cannot always leave it alone when he wants to. By taking the drink occasionally he has cultivated a taste and an appetite for it, until it becomes a habit. Many times it has ruined the young man who started just that way. He wanted to be a man among men, and he tried to do it. He took a drink as he had seen some other man do, or perhaps at his mother's table in high-toned company, thinking his will power sufficient to refuse his mistake when too late. God bless the mother who teaches her son to refuse to touch the miserable stuff and God bless the mother who prays that her son may be kept from the temptation of the first glass. The mothers of Canada are anxious for the welfare of their sons and do not deserve the contemptible insinuation hurled at them by your correspondent.

Our teachers and school books are teaching the young people of this country what have alcohol is doing and is calculated to do, to the human system, and the mothers, too, are teaching the children and are only in line with what our schools are teaching, and what common sense is calculated to do for them. No danger of the mothers of Canada making laughing stocks of their sons by bringing them up with such admonitions as those which lead to teetotalism. In fact I think the man who stops to roll his "cheap cigarette" while preparing to bayonet a German has more of the qualities which make up the "laughing stock" properties than the one who is taught to hate strong drink and wellington and nerve wrecking cigarette. Remember, I do not say a British soldier or a Canadian does stop to roll his cigarette, as I do not believe he does, but had in mind what a casual observer would think when reading for the first time your correspondent's letter.

Thanking you kindly for space.

A CITIZEN.

Danger Signals Warn You of Approaching Paralysis

Slowly and Surely Exhaustion Goes on Until Collapse of the Nerves is the Natural Result.

You may be restless, nervous, irritable and sleepless, but you think there is nothing to be alarmed at. You have no appetite, digestion is impaired, and there is weakness and irregularity of other bodily organs. You feel tired in body and mind, and find that you lack the energy to attend to the daily task.

Do not realize that these are the symptoms of nervous prostration and the danger signals which warn you that some form of paralysis is the next step of development.

SEARCH FOR WIRELESS

American authorities to investigate reports that Germans have Radio Stations there.

Washington, Nov. 7.—Secretary Daniels of the Navy Department, and Acting Secretary Lansing, of the State Department, in conference today with Assistant Chief Moran, of the Secret Service, decided to begin a search for secret wireless apparatus alleged to be in use by Germans on American territory.

There is no evidence under the attention of the government here that any of the belligerents have violated American neutrality, but in letters to the British embassy, and vague published statements, Germany has been charged with having a wireless station in the Maine woods, through which communication was conducted with German ships. There have been reports of another wireless station on the Pacific coast.

HOW BRITISH TRADE IS SUFFERING BY WAR

Drop of £7,000,000 in imports of raw cotton—Exports of manufactured goods decreased £13,500,000.

London, Nov. 7, 3.50 p. m.—The effect of the war on British trade is shown in the figures published by the Board of Trade for the month of October.

Imports decreased £20,170,000 and exports decreased £18,020,000. The principal loss in imports was £5,500,000 on raw cotton from America, and £1,500,000 on cotton from Egypt, together with £7,000,000 on manufactured articles. The exports of coal declined £2,000,000, and the exports of manufactured articles declined £13,500,000. Of the latter, cotton yarn made up £5,250,000, and wool yarns £1,250,000.
