Stock Market Prices
Swing Upward On
New York Exchange

Advance Attended by Pronounced Increase and Breadth of Operations—Better Industrial Prospects.

New York, March 29.—Price tendencies in the stock market today were unambiguously upward, although profit taking occurred in the final hour on the gradual rise of call loans from 4 1/4 to 6 per cent. The advance was attended by a pronounced increase in the breadth of operations, to which the short interest made involuntary but substantial contribution. In contrast to recent dealings today's transactions comprehended a majority of the high class or dividend-paying stocks and industrial.

Better industrial prospects again were the chief accelerating force. Still higher prices were quoted for finished iron and steel, and latest surveys of conditions by trade reviews including the Iron Age, which almost optimistic. Even copper was not unfavorably influenced by further weakening of prices in the metal market.

A very considerable portion of the day's business apparently emanated from professional sources, but a small part of the inquiry for season shares and bonds was credited to investors seeking an outlet for April interest and dividend incomes.

Steel, equipments, oil, motors and utilities were the stocks most in demand. Dealers furnished much of the buying power among the rails, together with junior interests, especially Toledo, St. Louis and Western, common and preferred. Sales amounted to 788,000 shares. Withdrawals for Federal account occasioned the firming of demand money rates, but time funds were unaltered. Many thirty to sixty day offerings were made on the 4 1/2 per cent. basis, and several longer maturities for commercial paper were accepted at the same rate. Dealings in foreign exchange were unusually dull and irregular. Sterling showed a further slight recovery from the recent reaction. The Paris rate eased nominally and most other continental bills were close to almost ten points higher. Reports that the Spanish Government was seeking a large loan in this market were not reflected in the movement of the pesos.
