

the British settlements, — a watery thoroughfare of mutual attack, and the only approach by which, without a long *détour* by wilderness or sea, a hostile army could come within striking distance of the colony. The French advanced post of Fort Frederic, called Crown Point by the English, barred the narrows of the lake, which thence spread northward to the portals of Canada guarded by Fort St. Jean. Southwestward, some fourteen hundred miles as a bird flies, and twice as far by the practicable routes of travel, was Louisiana, the second of the two heads of New France; while between lay the realms of solitude where the Mississippi rolled its sullen tide, and the Ohio wound its belt of silver through the verdant woodlands.

To whom belonged this world of prairies and forests? France claimed it by right of discovery and occupation. It was her explorers who, after De Soto, first set foot on it. The question of right, it is true, mattered little; for, right or wrong, neither claimant would yield her pretensions so long as she had strength to uphold them; yet one point is worth a moment's notice. The French had established an excellent system in the distribution of their American lands. Whoever received a grant from the Crown was required to improve it, and this within reasonable time. If he did not, the land ceased to be his, and was given to another more able or industrious. An international extension of her own principle would have destroyed the pretensions of France to all the countries of the West. She had called them
