**THE METALLIC ROOFING CO.** OF CANADA  
(LIMITED)  
Toronto & Montreal

**Almonte**

GENTLEMEN,

ALMONTE, Ont., December 23rd, 1893.

We have used a considerable quantity of your Hayes' Patent Lathing, and find it answers the purpose admirably.

Yours truly,

ROSAMOND WOOLLEN CO.

**Hamilton**

GENTLEMEN,

HAMILTON, Ont., Feb. 14th, 1894.

Having used a considerable quantity of Hayes' Patent Metallic Lathing, we have no hesitation in saying that it is undoubtedly the best Lathing on the market to-day.

Yours respectfully,

HANNAFORD BROS., Contractors and Plasterers.

**Montreal**

GENTLEMEN,

MONTREAL, Que., July 28th, 1893.

We are well satisfied with the Hayes' Patent Metallic Lathing, which we employed in the plastering of the National Monument, St. Lawrence street. We consider this Lathing a superior article to any we have employed hitherto, and we propose in future to use it in preference to others.

Yours truly,

F. DECARY & SON, Plaster Contractors.

GENTLEMEN,

MONTREAL, Que., January 14th, 1894.

I have used a considerable quantity of the Hayes' Patent Metallic Lathing in several first-class jobs, and I am now using it in two first-class houses and find it very satisfactory. I prefer it to any other kind of wire or metallic lathing that I have ever used, and as long as I can buy it at a reasonable price, and the article is kept up to the same standard, I will use it in preference to any other on the market.

Yours truly,

THOS. PHILLIPS, Contractor for Plastering.
