

MILBURN'S BEEF, IRON AND WINE

It is well known to the medical profession, that as a blood building tonic, there is no one element in medicine of more value than Iron, the effect of which is to strengthen and restore the red corpuscles or nutritive principle of the vital fluid, and is peculiarly adapted to those pale, bloodless conditions that we so often see in the feeble and debilitated, and especially in females suffering from nervous depression, loss of blood, pallor, weakness, fainting and the many ailments peculiar to their sex. For CONVALESCENTS, or during the recovery from exhausting fevers, where the strength lags and the appetite lies dormant, the gentle stimulant of pure Sherry Wine and the nourishing properties of concentrated Soluble Beef, when flavored to a palatable form, makes a most valuable and agreeable source of nourishment that even the dyspeptic with inability to digest food may take with pleasure and benefit. Wine that could not be borne in any other form, will be most beneficial as a gentle stimulant in this manner; and Iron that would not be tolerated by the delicate and sensitive, will in this palatable form be quite acceptable to the most critical taste.

Combining Nutrient Tonic with Mild Stimulants and Aromatic Stomachics,

The very essentials required in a wide range of debilitated conditions of both sexes and all ages, either in acute or chronic forms of disease.

NOTE.—We desire to call the special attention of physicians and invalids to the fact that we make our own Extract of Beef by a new process that insures its perfect solubility, and we can guarantee it in every way reliable. Another important consideration is that this combination, unlike many other preparations of Iron and Elixirs of Beef, Iron and Wine, happily possesses a most palatable and agreeable Aromatic Flavor, a great desideratum both to the prescriber and the patient.

MILBURN'S AROMATIC QUININE WINE.

A powerful, pleasant and pure invigorating tonic and appetizer, which cleans the foul-coated tongue, sharpens the appetite, and invigorates both body and brain to a remarkable degree. In moderate doses it is a mild and genial tonic; in larger doses it breaks up and prevents the return of Ague, Chills, Bilious Fever, Dumb Ague, and similar complaints, and fortifies the system against their attacks, imparting both nervous and muscular strength, and quieting undue febrile excitement if taken during the intermission of remitting fevers. In Milburn's Aromatic Quinine Wine, none but the purest Sulphate of Quinine is employed. This, combined with the choicest of Aromatics to flavor, and the finest Sherry Wine in which the Quinine is perfectly dissolved, renders this preparation both agreeable and reliable.

CHILDREN OR DELICATE FEMALES may take this wine with comfort and safety, and it will be found a most grateful and refreshing invigorator and appetizer during convalescence from protracted illness or in any case of exhausted energy. Price \$1.
