### Orders in Council

THE Order in Council of October 23 (P.C. 3044) relating to the manufacture, sale and importation of oleomargarine reads in part:

Whereas attention is drawn to the abnormal demand for butter due to war conditions and to the very great probability that such abnormal demand and consequent high prices will prevail for this product for some time to come:

And whereas it is in the public interest, under the special conditions above named, that other fats should be available in Canada under strict and reasonable conditions as a substitute for butter—

Therefore His Excellency the Governor General in Council, under and in virtue of the provisions of The War Measures Act, 1914, is pleased to make and enact and doth hereby make and enact the following Regulations providing for the importation to Canada and the permitting of the manufacture, sale and possession within Canada of oleomargarine and establishing the conditions of such importation, manufacture, sale and possession, such regulations to be in force and to have effect for the period during which the present abnormal conditions continue, the conclusion of such period to be determined by His Excellency the Governor General in Council, as provided in the said regulations, and as a war measure only:

#### Regulations.

1. On and after the first day of November, 1917, and until the order in Council is or may be declared that the present abnormal conditions have ceased, paragraph (a) of section 5 of The Dairy and Food Act, 1914, Statutes of 1914, chapter seven, shall be suspended in so far as it provides that no person shall manufacture, import into Canada, or offer, sell or have in his possession for sale, any oleomargarine as hereinafter defined, and

the importation, manufacture, offering for sale and having in possession for sale, of any such oleomargarine shall be permitted, subject, however, to the rules and regulations hereinafter set out.

2. For the purposes of these regulations "oleomargarine" shall mean and include oleomargarine, margarine, butterine, or any other substitute for butter which is manufactured wholly or in part from any fat other than that from milk and cream, which contains no foreign coloring matter and which does not contain more than sixteen per cent of water.

3. No person shall import or manufacture oleomargarine without having first obtained a license from the Food Controller for Canada, such license may at any time be cancelled by the Food Controller for the violation of any of the provisions of these regulations or of any other regulation made by His Excellency the Governor General in Council or by the Food Controller.

4. No oleomargarine shall be manufactured in Canada unless it has been manufactured under the supervision of the Minister of Agriculture of Canada, and no oleomargarine shall be imported into Canada unless it has been manufactured under Government supervision in the country of production and is accompanied by satisfactory evidence of such supervision.

5. Oleomargarine shall not be manufactured in any premises used as or connected with a butter factory, and no butter manufacturer or any person who handles butter for the purpose of re-working or mixing it shall be given a license to import or to manufacture oleomargarine.

6. No preservative shall be used for or in oleomargarine except with the written permission of the Food Controller.

7. No person other than a manufacturer of oleomargarine shall mix oleomargarine and butter.

8. Every person who either imports or manufactures oleomargarine shall keep a book in which is entered the date of each importation, purchase, sale and shipment of oleomargarine, and the quantity so imported, sold or shipped, the person from or to whom it has been purchased, sold or shipped, the place from or to which it was imported, sold or shipped, and the name of the railway or steamship company by which such oleomargarine was transported; and such book shall be at all times open for inspection by the Food Controller or any person authorized by the Food Controller to examine the same.

9. The Food Controller shall have power from time to time to regulate the price of all oleomargarine sold in Canada, and may determine the price with respect not only to the quality of the oleomargarine but also to the place in which it is sold.

10. Every package open or closed and containing oleomargarine must be durably and clearly marked "Oleomargarine" on the top, bottom and sides of the package itself in printed letters not less than three-quarters of an inch square; and if such oleomargarine is exposed for sale by retail there must be attached to each parcel thereof exposed, in such manner as to be clearly visible to purchasers, a label marked "oleomargarine" in printed capital letters not less than one-half inch square.

(2) Every person selling oleomargarine by retail in packages other than packages so marked shall in every case deliver the same in a paper wrapper on which is printed in capital block letters not less than half an inch long and distinctly legible the word "Oleomargarine." No other printed matter shall appear on the label.

### BETTER FARMING SPECIAL

The Grand Trunk Railway is co-operating with the Ontario Department of Agriculture, including the Ontario Agricultural College, Guelph, in running two Agricultural Instruction cars over its lines in Eastern Ontario. The cars will be equipped with exhibits illustrating approved methods of Agriculture, including underdrainage, application of fertilizers and lime; seed selecting; production of the ordinary grain root and vegetable crops; with samples of the best varieties; insect pests and plant diseases and their control; standard grades of wool properly prepared for market; poultry houses, equipment, with desirable types of the utility breeds; modern dairy methods and equipment; commercial feeds; water supply and sewage disposal.

The cars will be open for inspection from 10 a.m. until 5.30 p.m. School children are especially invited to visit the cars between 10 a.m. and noon, during which time lectures for the young will be given. The Department will be in charge of a demonstrator, who will give experience in that particular branch of work.

Evening meetings will be held as indicated below, at which an address on some topic of general interest will be given. Moving pictures illustrating practical up-to-date agriculture will also be shown at these meetings. (These pictures will represent desirable types of horses and dairy cattle, hogs, etc., and poultry raising, grading wool, trace, etc.) At work, the Agriculture of Northern Ontario, road construction, canning of vegetables, bee-keeping, etc.

Everyone interested in agriculture will find much to be gained at the construction coaches and at the evening meetings.
