"BLOODY ANGLE" SCENE OF FIERCE FIGHTING

Advances on Offensive at Junction of Oise and Aisne Rivers Where Lies Apex of German Wedge

ADVANCE ON WARSAW Onward March of German Troops Brought to Halt Forty Miles From Polish Capital—Capture of Gumbinnin Offsets Success of Von Hindenberg's Army—2,000,000 Men in Conflict in Western Poland.

Paris, November 23.—The "Bloody Angle," that elbow of land bounded by the junction of the Oise and Aisne Rivers, has again been the scene of furious fighting in which the Allies were on the offensive.

The German advance on Warsaw has been brought to a halt on the Lovicz-Skierniewice line, forty miles from the Polish capital. While the Germans have thus driven in on Northern Poland with the flower of the Teutonic forces, the Russian wings have made steady progress north and south.

Vienna, via Berlin and Amsterdam, November 23.—It is officially announced here that the Austro-German armies in Poland are steadily gaining ground, having driven all Russians to the south of the Szezenawa River.

Time in this quarter runs against the Germans. Their one chance here as elsewhere is a smashing blow at once. The official Turkish statement which comes by way of Berlin from a Constantinople correspondent of Reuters, says that the Turkish troops have reached the Suez canal. It reports an English reverse in fighting near Kantara, a port on the right bank of the canal about twenty-five miles south of Port Said.

KITCHENER'S ARMY NUMBERS WELL OVER 700,000 MEN

Recruiting Has Been Without Pressure. Statements Made by Wolff News Factory Taken Exception to by British Press. Greatest Voluntary Army Ever Raised.

(Special Correspondent, W. E. Dowding) London, November 11th (by mail).—It is idle to deny that there is a certain amount of slackness over here in responding to the latest appeal of the War Office for another million recruits.

This army has been recruited without any pressure having been placed upon those who have joined, and it is composed of men drawn from every rank and class. In the early days of September, when the wave of patriotic enthusiasm was at its height, these numbers could easily have been doubled, had the accommodation at the disposal of the military authorities been adequate to meet such a response.

Now when the second appeal is before the country men are a little hardened, and though they are as ready as ever to sacrifice themselves for their King and country if the need is imperative, the reality of the necessity will have to be demonstrated. They are no longer borne along on the top of a wave of sentiment, and it now is to their intelligence and not to their heart that appeal must be made.

Berlin, via Wireless, November 23.—The following official report from the German General Staff was received here to-day:— "On the 22nd the situation in the eastern theatre of the war was unchanged. In Poland the fighting for victory is still going on. The struggle south of Plock in the region of Lodz and near Czestochowa continued."

GERMANS FIRE ON AUSTRIAN ALLIES

Treat Them as Mutinous Troops When They Broke Away on Own Line of Retreat

QUARRELLED BEFORE EMPEROR Stormy Council Held Under Presidency of Emperor William Resulted in Open Hostilities Between Two Forces During Retreat From Poland.

Petrograd, November 23.—No doubt now remains that serious differences have arisen between Germany and her ally, Austria. It is said that a stormy council was held under the presidency of Emperor William at Breslau, after the German flight from Poland.

Strong bodies of Germans were sent after them, and both parties opened fire. The result was decided by the arrival of German reinforcements, who, it is believed, have exterminated what they considered mutinous troops rather than misused allies.

BRITISH LAND FORCES. Athens, via Rome, November 23.—The British continue to land forces to-day at Jaffa, the port of Jerusalem, and Southern Palestine. Following the defeat at Elarish, the Turks with 8,000 camels and artillery have withdrawn from Sinai Peninsula, the triangular stretch of desert between the Gulf of Suez and the Gulf of Akaba.

GERMANS RUSH REINFORCEMENTS TO WEST FLANDERS FORCES

Madrid, November 23.—The defeat of a French column and the slaughter of 33 officers and 600 soldiers by Moroccan tribesmen is reported in a despatch to the Imparcial from its Tangier correspondent: "While a French column under Colonel Lavardure was returning to Jaffa, after punishing the Zaiaus tribe," says the despatch, "it was surprised and completely destroyed by 5,000 Zaiaus. The column lost 33 officers and 600 soldiers killed, numerous wounded and two batteries. "A punitive expedition is going to finish the Zaiaus, whose rebellion against France is serious. The tribe is the most powerful in the Atlas region and is able to furnish 18,000 horsemen."
