### L'ORIGNAL CREAMER.

This Can works at every farmer's well, with or without ice, by changing the water once after the heat of the milk is off. It will be perceived that in this Can there is a central tube that admits the water to ascend until it reaches the head of the exterior body of water, and thus we avail ourselves of the cooling and purifying influence of water on the inside and outside of the can. With this can we guarantee one-sixth cream during hot or cold weather, and better results generally than with any other process. We build these double creamers to suit all sizes of dairies. Send for price list. Agents wanted.

## HOOSIER STEEL FRAME GRAIN DRILL

**GUARANTEED THE BEST IN THE WORLD.**

No Other Drill made can be instantly regulated to run at any desired depth without stopping the team. No Other Drill will sow all kinds of grain thoroughly, even and properly covered at a uniform depth in all kinds of soil. No Other Drill commences to sow the instant the horses commence to move, and misses no ground when starting in after turning. No Other Drill equals the Hoosier when used as a cultivator, and no single cultivator surpasses it, thus combining two implements in one.

If no agent convenient to you, drop us a post card for catalogue and prices.
