

Lump Jaw

The first remedy to cure Lump Jaw was

Fleming's Lump Jaw Cure

and it remains today the standard treatment with years of success back of it. Don't experiment with substitutes or imitations. Use it no matter how old or bad the case or what else you may have tried—your money back if Fleming's Lump Jaw Cure ever fails. Our fair price is 25¢ per bottle. Write for free copy and full particulars.

Fleming's Vest-Pocket Veterinary Adviser

Most complete veterinary book ever printed to be given away. Durable bound, indexed and illustrated. Write us for a free copy.

THE SUMMER HILL HERD OF HOLSTEINS

is making some wonderful records. This year it has produced the champion Canadian-bred butter cow for 7 days' record—29.16 lbs. Also the champion 2-year-old in yearly production. We have some younger ones that promise to be just as good. We offer for quick sale ten fine heifers, all in calf to an imported bull. Come AT ONCE and make your selections. Prices are right, and everything guaranteed just as represented. Trains met at Hamilton if advised.

WOODBINE STOCK FARM

Offer a number of Holstein cows, heifers and young bulls at moderate prices, sired by Sir Creamelle, whose breeding combines the blood of DeKol Creamelle, world's champion milk cow, with that of Duchess Ormsby, highest testing family of the breed. Write for anything you want. Telephone connection.

A. KENNEDY, Agr, Ont.

Imperial Holsteins!

For sale: Bull calves sired by Tidy Abbe Kirk Mercedes Posch, whose seven nearest dams have records within a fraction of 27 pounds, out of show cows with high official records. A most desirable lot of coming herd-heads. **W. H. SIMMONS,** New Durham P.O., Ont., Oxford County.

Glenwood Stock Farm—Holsteins and Yorkshires

Holsteins all sold out. Have a few young Yorkshire cows, about 2 months old, for sale cheap. True to type and first-class. Bred from imported stock.

Thos. B. Carlaw & Son, Warkworth P.O., Ont.
Campbellford Station.

Holsteins at Ridgedale Farm—Eight bull calves on hand for sale, up to eight months old, which I offer at low prices to quick buyers. Write for description and prices, or come and see them. **R. W. WALKER, Utica P.O., Ont.**
Shipping stations: Myrtle, C. P. R., and Port Perry, G. T. R. Ontario Co.

EVERGREEN STOCK FARM offers choice young Holstein Bulls, from 10 to 11 months, sired by Sir Mercena Fatorite, whose dam and gr. dam averaged 80 lbs. milk per day, and 24.60 lbs. butter per week. Their dams also in A. R. Also choice females for sale. **F. E. Pettit, Burgessville, Ont.**

The college professor who was always ready for a joke, was asked by a student one day if he would like a good recipe for catching rabbits. "Why, yes," replied the professor. "What is it?"

"Well," said the student, "you crouch down behind a thick stone wall, and make a noise like a turnip."

"That may be," said the professor with a twinkle in his eye, "but a better way than that would be for you to go and sit quietly in a bed of cabbage heads and look natural."

Quaker Oats

is the world's food
Eaten in every
country; eaten by
infants, athletes,
young and old.

Recognized as the
great strength
builder.

Delicious and economical.

QUESTIONS AND ANSWERS. Miscellaneous.

WILD OATS—TO BRING COW IN SEASON.

1. Have some Manitoba oats which I intended to use for seed, but find there is a lot of wild oats in them. Our soil is a heavy clay loam, and there are no wild oats in this neighborhood. If these oats are sown, will the wild oats turn out to be a bad weed?

2. What can be done to get a cow to come in season? Four years old, and was fresh last November.

CONSTANT READER.

Ans.—1. About as well bring small-pox into your home as to think of sowing these oats.

2. Nothing much, except to turn her out on grass when it comes. Letting her down in condition, and then flushing her up, may help. Forced service is sometimes recommended for such cases, but it is a questionable expedient.

CHOICE OF HOLSTEIN FAMILIES.

From which of the following families would you advise me to select stock, Pieterij, Posch, Calamity, or De Kol? That is, which has the best milking record, and where could I purchase?

R. E. G.

Ans.—This query does not admit of an answer in the way desired, as a little consideration will show, but it raises some interesting thoughts. Pieterij 2nd has been dead some fifteen or eighteen years, and her daughters and sons are also gone, but even they would not have over, as is generally said, 50 per cent. of her blood. There are a great many that can trace to her, but we could hardly consider any of them closer than "42nd cousins," to use an old saying. These would belong as much to other families as to the Pieterij. The blood of Pieterij was very prepotent, and is highly esteemed by well-informed breeders of Holsteins. De Kol 2nd has been dead some years, though she lived until 21 years old, and she produced sons and daughters, and they begot or produced many others. Her descendants are almost as the "sands of the sea," but those animals sometimes called De Kols have many other strains of blood. Her blood has been also very prepotent, and she is warmly remembered by all Holstein breeders. The name Posch would refer to either Aaltje Posch 4th, the oldest, or to her daughter, Alta Posch. The latter came into prominence, as she made the world record for a two-year-old, which still stands for record under three years. She met with an accident at five years; another cow stepped on her udder, and she did not breed any more. She left three sons, which have many descendants. One was used two years in Canada, two years in New York, also in Wisconsin, and ended up in Washington Territory, which serves to show how the breeds are scattered. Aaltje Posch 4th, her dam, lived to a good age, 19 years, we believe, and had many sons and daughters. It is doubtful if any are now living, but there are many descendants. Calamity Jane came on the scene at a later date than any of these. She is the only one still living (now 20 years old). She has had several sons and daughters that have in turn left many descendants that are holding up the fame of the name, but there are only two or three of her daughters living now. They are in hands that do not leave any chance that they could be purchased. One of these daughters gave, less than a year ago, 106 pounds milk in 24 hours; 5,250 pounds milk in 60 days. It will be seen, it would not be possible to get any animal containing more than a percentage of the blood of any of these great cows. The easiest way out, if our inquirer cannot decide, is to buy animals containing the blood of all of these, and it is a fact that there are animals living that can trace to all four, and a great many can trace to two or three of them.
