PIONEER FARM SEED POTATOES

We make a specialty of growing choice Seed Potatoes, and the results of many experiments show that seed stock from a cool, moist climate will give much larger returns than your home-grown seed.

We will enter contracts now for the delivery of Seed Potatoes during next fall, and will grow any variety that is called for. We recommend Irish Cobbler, Early Ohio, Delaware and Green Mountain.

Our goods are sure to please you. Write me for prices on what you want. Car lots a specialty.

The Perfection Seed and Grain Separator

Patented 1901

Don't get discouraged. You have tried the old style fanning mill which turned so hard and did such poor work, and then almost gave up in despair. But a brighter day has dawned. With other improvements in farm implements came our experiments with the fanning mill. \$20,000.00 were spent upon improving and entirely changing the old fanning mill, until to-day we have the Perfection Seed and Grain Separator, a mill which, as its name signifies, is perfection. It costs twice as much to build as other mills, and yet it sells for almost the same price. The Model Farms at Guelph, Ont.; Harrow, Ont.; Truro, N.S., and Charlottetown, P.E.I., have our mill and will use no other. It turns easy, will thoroughly separate wheat from oats, and makes a first-class job of all grains, including the clovers and flax. Highest awards at leading exhibitions. Write to-day for free circular "C," which fully explains the construction of the Perfection, to
